

States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of carbon and alloy steel threaded rod (“threaded rod”) from Thailand, provided for in subheadings 7318.15.50, 7318.15.20, and 7318.19.00 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”).<sup>2,3</sup>

### Background

The Commission, pursuant to section 735(b) of the Act (19 U.S.C. 1673d(b)), instituted this investigation effective February 21, 2019, following receipt of a petition filed with the Commission and Commerce by Vulcan Threaded Products Inc. (“Vulcan”), Pelham, Alabama. The Commission scheduled the final phase of the investigation following notification of a preliminary determination by Commerce that imports of threaded rod from Thailand<sup>4</sup> were being sold at LTFV within the meaning of section 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission’s investigation and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of August 27, 2019 (84 FR 44916). The hearing was held in Washington, DC, on October 15, 2019, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made this determination pursuant to section 735(b) of the Act (19 U.S.C. 1673d(b)). It completed and filed its determination in this investigation on December 5, 2019. The views of the Commission are contained in USITC Publication 4998 (December 2019), entitled *Carbon and Alloy Steel Threaded Rod from Thailand: Investigation No. 731-TA-1444 (Final)*.

By order of the Commission.

<sup>2</sup> 84 FR 56162 (October 21, 2019) (final determination).

<sup>3</sup> The Commission also finds that imports subject to Commerce’s affirmative critical circumstances determination are not likely to undermine seriously the remedial effect of the antidumping duty order on Thailand.

<sup>4</sup> 84 FR 38597 (August 7, 2019) (preliminary determination).

Issued: December 5, 2019.

### SUPPLEMENTARY INFORMATION:

#### I. General Information

Since 2014, Congress has provided an annual appropriation to LSC “for a Pro Bono Innovation Fund.” *See, e.g.,* Consolidated Appropriations Act, 2017, Public Law 115–31, 131 Stat. 135 (2017). LSC requested these funds for grants to “develop, test, and replicate innovative pro bono efforts that can enable LSC grantees to expand clients’ access to high quality legal assistance.” LSC Budget Request, Fiscal Year 2014 at 26 (2013). The grants must involve innovations that are either “new ideas” or “new applications of existing best practices.” *Id.* Each grant would “either serve as a model for other legal services providers to follow or effectively replicate a prior innovation. *Id.* The Senate Appropriations Committee explained that these funds “will support innovative projects that promote and enhance pro bono initiatives throughout the Nation,” and the House Appropriations Committee directed LSC “to increase the involvement of private attorneys in the delivery of legal services to [LSC-eligible] clients.” Senate Report 114–239 at 123 (2016), House Report 113–448 at 85 (2014).

Since its inception, the Pro Bono Innovation Fund has advanced LSC’s goal of increasing the quantity and quality of legal services by funding projects that more efficiently and effectively involve pro bono volunteers in serving the critical unmet legal needs of LSC-eligible clients. In 2017, LSC built on these successes by creating three funding categories to better focus
