OMB Control Number: 2140-0003.

Form Number: None.

Type of Review: Extension without change.

Respondents: Common carrier freight railroads that are either new or reporting changes in the status of one or more of their rail lines.

60-Day Notice of Intent to Seek Extension of Approval: Rail Depreciation Studies

AGENCY: Surface Transportation Board.

Submitted comments will be summarized and included in the Board's request for OMB approval.

Description of Collection

Title: Rail Depreciation Studies.

OMB Control Number: 2140-0028.

Form Number: None.

Type of Review: Extension without change.

Respondents: Class I railroads.

Number of Respondents: 7.

Estimated Time per Response:

Approximately 250 hours per study (estimating that studies will require between 125 hours and 375 hours depending on the extent to which the carrier provides assistance to outside

consultants performing the study for them).

Frequency of Response: Bi-annual. (Under 49 CFR part 1201, §§ 4-1 to 4-4, the Board requires all Class I (large) carriers to submit depreciation studies no less than every three years for equipment property and every six years for road property. That means that for any given six-year period, the Class I railroads must submit no less than three depreciation reports, or the equivalent of 0.5 depreciation reports per year.)

Total Annual Hour Burden: 875 hours (250 hours × 0.5 studies/year × 7 Class I railroads).

Total Annual "Non-Hour Burden"

Cost: Approximately \$175,000 per year. Board staff estimates that each study will cost between \$20,000 and \$80,000, which equals a cost of approximately \$10,000-\$40,000 per year. Using an average cost (\$25,000 per year × 7 Class I railroads), the non-hour burden cost is estimated to be approximately \$175,000 per year.

Needs and Uses: Under 49 CFR part 1201, §§ 4-1 to 4-4, the Board is required to identify those classes of property for which rail carriers may include depreciation charges under operating expenses, and the Board must also prescribe a rate of depreciation that may be charged to those classes of property. Under 49 U.S.C. 11145, Class I rail carriers are required to submit Depreciation Studies to the Board. Information in these studies is not available from any other source. The Board uses the information in these studies to prescribe depreciation rates. These depreciation rate prescriptions state the period for which the depreciation rates therein are applicable. Class I railroads apply the prescribed depreciation rates to their investment base to determine monthly and annual depreciation expense. This expense is included in the railroads' operating expenses, which are reported in their R-1 reports (OMB Control Number 2140-0009). Operating expenses are used to develop operating costs for application in various proceedings before the Board, such as in rate reasonableness cases and in the determination of railroad "revenue adequacy."
