Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules, From the People's Republic of China: Amended Final Results of Countervailing Duty Administrative Review; 2016

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is amending the final results of the countervailing duty (CVD) administrative review of crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells), from the People's Republic of China (China) to correct two ministerial errors. The period of review (POR) is January 1, 2016 through December 31, 2016.

DATES: Applicable December 13, 2019.

FOR FURTHER INFORMATION CONTACT: Gene H. Calvert, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone (202) 482-3586.

Background

In accordance with section 751(a)(1) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.221(b)(5), on August 28, 2019, Commerce published its final results in the administrative review of the CVD order on solar cells from China covering the POR.¹ On September 9, 2019, Jinko Solar Co., Ltd, a mandatory respondent in this administrative review, timely submitted ministerial error allegations concerning the *Final Results*.² No other parties

² Jinko Solar Co., Ltd. filed its allegations on behalf of itself and certain affiliated companies:

submitted ministerial error allegations or commented on Jinko Solar's allegations. Complaints were filed with the U.S. Court of International Trade (the Court) challenging the *Final Results*. The United States sought leave from the Court to address these ministerial error allegations. The Court granted the United States' request and allowed until December 13, 2019 to publish any amended final results in the **Federal Register**.

Scope of the Order

The merchandise covered by the CVD order is solar cells from China, whether or not partially or fully assembled into other products, including, but not limited to, modules, laminates, panels, and building integrated materials. A full description of the scope of the order is contained in the Final Results Decision Memorandum.³

Ministerial Errors

Section 751(h) of the Act and 19 CFR 351.224(f) define a "ministerial error" as an error in addition, subtraction, or other arithmetic function, clerical error resulting from inaccurate copying, duplication, or the like, and any other similar type of unintentional error which the Secretary considers ministerial. As discussed in the Response to Ministerial Error Allegations, Commerce finds that the errors alleged by Jinko Solar regarding the calculations for the benchmarks used to calculate benefits with respect to the Provision of Electricity for Less Than Adequate Remuneration (LTAR) Program and the Provision for Aluminum Extrusions for LTAR Program constitute ministerial errors within the meaning of 19 CFR 351.224(f).⁴

In accordance with section 751(h) of the Act and 19 CFR 351.224(e), Commerce is amending the *Final Results* to correct these ministerial errors. Specifically, Commerce is amending the net subsidy rates for Jinko Solar and for the companies for which

Jinko Solar Import and Export Co., Ltd.; JinkoSolar International Limited; and Zhejiang Jinko Solar Co., Ltd. (collectively, Jinko Solar). a review was requested, but which were not selected as mandatory company respondents (*i.e.*, the non-selected companies subject to this administrative review).⁵ Commerce notes that correcting these two ministerial errors has no impact on the subsidy rate calculated in the *Final Results* for the other mandatory respondent in this administrative review, Canadian Solar Inc. (Canadian Solar). The revised net subsidy rates are provided below.

Amended Final Results

As a result of correcting the two ministerial errors, Commerce determines the countervailable subsidy rates for the producers/exporters under review to be as follows:
