BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2019-0315; Airspace
Docket No. 18-ANM-3]

RIN 2120-AA66

Proposed Amendment of Class E Airspace; Astoria, OR

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking
(NPRM).

SUMMARY: This action proposes to amend the Class E airspace area, designated as a surface area, at Astoria Regional Airport, Astoria, OR by reducing the size of the Class E surface airspace. Also, this action proposes to amend the Class E airspace by adding two Class E airspace areas, designated as an extension to a Class D or Class E surface area, at the airport. Additionally, this action proposes to amend the Class E airspace areas extending upward from 700 feet or more above the surface of the earth, by reducing the dimensions of the area and sizing it to properly contain IFR arrivals and departures. Further, this action proposes to make several administrative corrections to the airport's legal descriptions. This action would ensure the safety and management of IFR operations at the airport.

DATES: Comments must be received on or before January 31, 2020.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12-140, Washington, DC 20590; telephone: 1-800-647-5527, or (202) 366-9826. You must identify FAA Docket No. FAA-2019-0315; Airspace Docket No. 18-ANM-3, at the beginning of your comments. You may also submit comments through the internet at <https://www.regulations.com>.

FAA Order 7400.11D, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov/air_traffic/publications/. For further

information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11D at NARA, email fedreg.legal@nara.gov or go to <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

FOR FURTHER INFORMATION CONTACT:

Matthew Van Der Wal, Federal Aviation Administration, Western Service Center, Operations Support Group, 2200 S 216th Street, Des Moines, WA 98198; telephone (206) 231-3695.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would amend the Class E airspace at Astoria Regional Airport, Astoria, Oregon to support instrument flight rules (IFR) operations at the airport.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Persons wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2019-0315; Airspace

Docket No. 18-ANM-3". The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at <https://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at https://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 2200 S 216th Street, Des Moines, WA 98198.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019. FAA Order 7400.11D is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11D lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by amending the Class E airspace area, designated as a surface area, at Astoria Regional Airport, Astoria, OR to properly contain IFR aircraft as follows; That airspace extending upward from the surface within a 4-mile radius of the airport beginning at the 350° bearing from the airport clockwise to the 239° bearing from the airport, thence along the 239° bearing to a 5-miles radius clockwise to the 350° bearing from the airport, thence

along the 350° bearing to the 4-miles radius of the Astoria Regional Airport, excluding that airspace within a 1-mile radius of the Camp Rilea Army Heliport.

Also, this action proposes to amend the Class E airspace by adding two Class E airspace areas, designated as an extension to a Class D or Class E surface area. These areas would properly contain IFR arrivals descending below 1,000 feet above the surface of the earth as follows; That airspace extending upward from the surface within 1.1 miles each side of the 095° bearing from the airport extending from the 4-mile radius to 9.3 miles east of the airport, and within 2.4 miles each side of the 267° bearing from the airport extending from the 5-mile radius to 7.1 miles west of the Astoria Regional Airport.

Additionally, this action proposes to amend the Class E airspace areas extending upward from 700 feet or more above the surface of the earth at the airport. The proposal would reduce the overall dimensions of the area and properly size it to contain IFR departures and arrivals as follows; That airspace extending from 700 feet above the surface within an 8-mile radius of the airport, and within 4 miles each side of the 095° bearing from the airport extending from the 8-mile radius to 18.8 miles east of the airport, and 4.3 miles north and 7.8 miles south of the 265° bearing from the airport extending from the 8-mile radius to 16.1 miles west of the Astoria Regional Airport.

Further, this action proposes to make administrative corrections to the airport’s Class E2 Class E5 legal descriptions. The Class E2 airspace should be full time; the following two sentences do not accurately represent the time of use for the Class E2 airspace and need to be removed: “This Class E airspace area is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.” The action also proposes to remove the Seaside Municipal Airport from the Class E5 legal description because the Class E5 700 foot airspace no longer overlies the Seaside Municipal Airport.

Class E2, Class E4 and Class E5 airspace designations are published in paragraphs 6002, 6004, and 6005, respectively, of FAA Order 7400.11D, dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order. FAA Order 7400.11, Airspace Designations and Reporting Points, is

published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

- 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

- 2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019, is amended as follows:

Paragraph 6002 Class E Airspace Areas Designated as Surface Areas.

* * * * *

ANM OR E2 Astoria, OR [Amended]

Astoria Regional Airport, Astoria, OR (Lat. 46°09’29” N, long. 123°52’43” W) Camp Rilea Army Heliport (Lat. 46°06’59” N, long. 123°55’54” W)

That airspace extending upward from the surface within a 4-mile radius of the airport beginning at the 350° bearing from the airport clockwise to the 239° bearing from the airport, thence along the 239° bearing to a 5-miles radius clockwise to the 350° bearing from the airport, thence along the 350° bearing to the 4-miles radius of the Astoria Regional Airport, excluding that airspace within a 1-mile radius of the Camp Rilea Army Heliport.

Paragraph 6004 Class E Airspace Areas Designated as an Extension to a Class D or Class E Surface Area.

* * * * *

ANM OR E4 Astoria, OR [New]

Astoria Regional Airport, Astoria, OR (Lat. 46°09’29” N, long. 123°52’43” W)

That airspace extending upward from the surface within 1.1 miles each side of the 095° bearing from the airport extending from the 4-mile radius to 9.3 miles east of the airport, and within 2.4 miles each side of the 267° bearing from the airport extending from the 5-mile radius to 7.1 miles west of the Astoria Regional Airport.

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ANM OR E5 Astoria, OR [Amended]

Astoria Regional Airport, Astoria, OR (Lat. 46°09’29” N, long. 123°52’43” W)

That airspace extending from 700 feet above the surface within an 8-mile radius of the airport, and within 4 miles each side of the 095° bearing from the airport extending from the 8-mile radius to 18.8 miles east of the airport, and 4.3 miles north and 7.8 miles south of the 265° bearing from the airport extending from the 8-mile radius to 16.1 miles west of the Astoria Regional Airport.

Issued in Seattle, Washington, on December 11, 2019.

Tom Clark,

Group Manager, Operations Support Group, Western Service Center.
