

recognizing ever-changing environmental conditions. In cooperation with our partners, the Service will develop and utilize a prioritization framework to identify and define future conditions that will drive management actions to build ecological community resiliency, promote species and genetic diversity, and build sustainability in management capacity and operations.

Under this alternative, the Service will seek to facilitate collaborative, cooperative, and coordinated management of NBR with our Federal, Tribal, State, local, public, and private partners. Where possible, the refuge will participate in landscape-level management of wildlife species, evaluate cross-boundary movements, and create corridors conducive to wildlife migration and movement. The

Service will also seek ways to incorporate the expertise, resources, and efforts of our partners to help facilitate the benefits of a broader functioning landscape.
