Foreign-Trade Zones Board

[B-75-2019]

Foreign-Trade Zone (FTZ) 277—Western Maricopa County, Arizona; Notification of Proposed Production Activity; Ball Metal Beverage Container Corporation (Aluminum Cans and Briquettes); Goodyear, Arizona

Ball Metal Beverage Container Corporation (Ball) submitted a notification of proposed production activity to the FTZ Board for its facility in Goodyear, Arizona. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on December 5, 2019.

The Ball facility is located within FTZ 277. The facility is used for the production of aluminum cans and briquettes. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status component and specific finished products described

in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Ball from customs duty payments on the foreign-status component used in export production. On its domestic sales, for the foreign-status component noted below, Ball would be able to choose the duty rates during customs entry procedures that apply to: Aluminum cans; can ends and lids; and, aluminum briquettes (duty rate ranges from duty free to 5.7%). Ball would be able to avoid duty on the foreign-status component which becomes scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The component/material sourced from abroad is coils of aluminum alloy sheets (duty rate 3%). The request indicates that the coils of aluminum alloy sheets are subject to special duties under Section 232 of the Trade Expansion Act of 1962 (Section 232) and Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 232 and Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is January 27, 2020.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Diane Finver at Diane.Finver@trade.gov or (202) 482-1367.

Dated: December 6, 2019.

Elizabeth Whiteman,

Acting Executive Secretary.

Large Diameter Welded Pipe From India: Initiation and Expedited Preliminary Results of Antidumping Duty and Countervailing Duty Changed Circumstances Reviews

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is initiating and issuing expedited preliminary results of changed circumstances reviews (CCRs) of the antidumping duty (AD) and countervailing duty (CVD) orders on large diameter welded pipe from India.

DATES: Applicable December 18, 2019.

FOR FURTHER INFORMATION CONTACT:

Katherine Johnson or Jaron Moore, AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4929 or (202) 482-3640, respectively.

SUPPLEMENTARY INFORMATION:

Background

On March 6, 2019, Commerce published the AD and CVD orders on large diameter welded pipe from India.¹ On October 18, 2019, nine members of the domestic industry, including the petitioners from the underlying investigations (individually and as members of the American Line Pipe Producers Association), and Welspun Global Trade LLC, requested that Commerce initiate CCRs to revoke, in part, the AD and CVD orders of large diameter welded pipe from India with respect to certain large diameter welded pipe products within four specific groups of grades, outside diameters, and wall thicknesses.²

Scope of the Orders

The merchandise covered by these orders is welded carbon and alloy steel line pipe (other than stainless steel pipe), more than 406.4 mm (16 inches) in nominal outside diameter (large diameter welded line pipe), regardless of wall thickness, length, surface finish, grade, end finish, or stenciling. Large diameter welded pipe may be used to transport oil, gas, slurry, steam, or other fluids, liquids, or gases.

Large diameter welded line pipe is used to transport oil, gas, or natural gas liquids and is normally produced to the American Petroleum Institute (API) specification 5L. Large diameter welded line pipe can be produced to comparable foreign specifications, grades and/or standards or to proprietary specifications, grades and/or

standards, or can be non-graded material. All line pipe meeting the physical description set forth above, including any dual- or multiple-certified/stenciled pipe with an API (or comparable) welded line pipe certification/stencil, is covered by the scope of the orders.

Subject merchandise also includes large diameter welded line pipe that has been further processed in a third country, including but not limited to coating, painting, notching, beveling, cutting, punching, welding, or any other processing that would not otherwise remove the merchandise from the scope of the order if performed in the country of manufacture of the in-scope large diameter welded line pipe.

Excluded from the scope of the orders is structural pipe, which is produced only to American Society for Testing and Materials (ASTM) standards A500, A252, or A53, or other relevant domestic specifications, or comparable foreign specifications, grades and/or standards or to proprietary specifications, grades and/or standards. Also excluded is large diameter welded pipe produced only to specifications of the American Water Works Association (AWWA) for water and sewage pipe.

The large diameter welded line pipe that is subject to these orders is currently classifiable in the Harmonized Tariff Schedule of the United States (HTSUS) under subheadings 7305.11.1030, 7305.11.1060, 7305.11.5000, 7305.12.1030, 7305.12.1060, 7305.12.5000, 7305.19.1030, 7305.19.1060, and 7305.19.5000. Merchandise currently classifiable under subheadings 7305.31.4000, 7305.31.6090, 7305.39.1000 and 7305.39.5000 and that otherwise meets the above scope language is also covered. While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of these orders is dispositive.

Initiation and Expedited Preliminary Results of Changed Circumstances Review

Pursuant to section 751(b)(1) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.216(d), Commerce will conduct a CCR of an AD or CVD order when it receives information which shows changed circumstances sufficient to warrant such a review. Section 782(h)(2) of the Act and 19 CFR 351.222(g)(1)(i) provide that Commerce may revoke an order (in whole or in part) if it determines that producers accounting for substantially all of the production of the domestic like product have no further interest in the order, in
