[Docket Number FRA–2019–0105]

Petition for Waiver of Compliance

Under part 211 of title 49 of the Code of Federal Regulations (CFR), this provides the public notice that by letter received December 10, 2019, Kansas City Southern (KCS) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 236. FRA assigned the petition Docket Number FRA–2019–0105.

Specifically, KCS seeks relief from the 2-year periodic testing requirements in § 236.377, *Approach locking*; § 236.378, *Time locking*; § 236.379, *Route locking*; § 236.380, *Indication locking*; and § 236.381, *Traffic locking*. KCS also requests relief from the 1-year periodic testing period of § 236.109, *Time releases, timing relays, and timing devices*, on all vital microprocessor-based systems.

KCS proposes to verify and test signal locking systems controlled by microprocessor-based equipment by use of alternative procedures every 4 years after initial baseline testing or program change as follows:

- Verification of the Cyclic Redundancy Check (CRC)/Check Sum/Universal Control Number (UNC) of an existing location's application logic to the baseline tested version.
- Comparison and verification of all input/output arrangement, vital timer durations, and vital program settings between the existing location and prints/records pertaining to the baseline tested version.
- Re-establishment of the baseline tested version via full compliance with 49 CFR part 236 when a discrepancy is caused/found between the existing and baseline versions.
- Incorporate recording of alternative method into KCS's test record-keeping system.

KCS states its current record-keeping system has all the information and requirements for baseline tests. Furthermore, the existing test records fulfil all the requirements for baseline test record keeping. Given this, KCS desires to use these test records as the existing baseline versions. Subsequent alternative tests would be recorded as such within KCS's record-keeping system.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at

the Department of Transportation's Docket Operations Facility, 1200 New Jersey Ave. SE, W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.
