

language sufficient to meet the federal requirements. These are the primacy revisions that the EPA Region 9 intends to approve as part of Arizona's PWSS Program.

In 2012, Arizona enacted an environmental audit law which had to be evaluated as part of EPA's approval of these revisions. In order to properly evaluate a request for approval, EPA requires a State Attorney General to certify that the State's environmental audit law does not affect its ability to implement the SDWA program. EPA applies the criteria outlined in its "Statement of Principles Effect of State Audit Immunity/Privilege Laws on Enforcement Authority for Federal Programs" memo issued on February 14, 1997 in determining whether states with audit laws have retained adequate enforcement authority. This Statement of Principles memo provides that, if provisions of state law are ambiguous, it is important for EPA to obtain an opinion from the State Attorney General interpreting the law as meeting specific federal requirements and, if the law cannot be so interpreted, changes to state law may be necessary to obtain federal program approval. In this case, the Arizona Attorney General's office submitted a legal opinion to EPA analyzing the audit law and concluding that it does not impede Arizona's ability to implement and enforce its PWSS Program. EPA finds this legal opinion sufficient to approve the PWSS Program revisions.

Public Process. Any interested party may request a public hearing on this determination. A request for a public hearing must be submitted by January 21, 2020, to the Regional Administrator of EPA Region 9, to the address shown above. The Regional Administrator may deny frivolous or insubstantial requests for a hearing. If a substantial request for a public hearing is made by January 21, 2020, EPA Region 9 will hold a public hearing. Any request for a public hearing shall include the following information: 1. The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; 2. A brief statement of the requesting person's or organization's interest in the Regional Administrator's determination and a brief statement of the information that the requesting person intends to submit at such hearing; and 3. The signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

If EPA Region 9 does not receive a timely and substantive request for a

hearing and the Regional Administrator does not elect to hold a hearing on his own motion on the determination at issue in this notice, the EPA's approval shall become final and effective on January 21, 2020, and no further public notice will be issued.

Authority: Section 1413 of the Safe Drinking Water Act, 42 U.S.C. 300g-2 (1996), and 40 CFR part 142 of the National Primary Drinking Water Regulations.

Dated: December 9, 2019.

Deborah Jordan,

Acting Regional Administrator, EPA Region 9.

Access to Confidential Business Information by Science Applications International Corporation

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has authorized its contractor Science Applications International Corporation (SAIC) of Reston, VA, to access information which has been submitted to EPA under all sections of the Toxic Substances Control Act (TSCA). Some of the information may be claimed or determined to be Confidential Business Information (CBI).

DATES: Access to the confidential data will occur no sooner than December 27, 2019.

FOR FURTHER INFORMATION CONTACT:

For technical information contact: Recie Reese, Environmental Assistance Division (7408M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 564-8276; email address: reese.recie@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general. This action may, however, be of interest to all who manufacture, process, or distribute industrial

chemicals. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPPT-2003-0004, is available at <http://www.regulations.gov> or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPPT Docket is (202) 566-0280. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

II. What action is the Agency taking?

Under contract number GS35F486BA, task order number 47QFPA20F0002, contractor SAIC of 12010 Sunset Hills Rd., Reston, VA, will assist the Office of Pollution Prevention and Toxics (OPPT) by developing new system functionalities to support the new chemical review post-regulatory business operations; implement new features/enhancements to New Chemical Review (NCR) and ChemView required by users and/or mandated by the Office of Chemical Safety and Pollution Prevention (OCSPP); and developing record management capability for new chemical review reports/documentation in content management platform to be determined by the Office of Mission Support (OMS).

In accordance with 40 CFR 2.306(j), EPA has determined that under EPA contract number GS35F486BA, task order number 47QFPA20F0002, SAIC will require access to CBI submitted under all sections of TSCA. EPA has determined that SAIC will need access to TSCA CBI submitted to EPA under all sections of TSCA to perform successfully the duties specified under the contract. SAIC's personnel will be given access to information claimed or determined to be CBI information submitted to EPA under all sections of TSCA.

EPA is issuing this notice to inform all submitters of information under all sections of TSCA that EPA will provide SAIC access to these CBI materials on a need-to-know basis only. All access to

TSCA CBI under this contract will take place at EPA Headquarters, in accordance with EPA's *TSCA CBI Protection Manual*.

Access to TSCA data, including CBI, will continue until October 31, 2024. If the contract is extended, this access will also continue for the duration of the extended contract without further notice.

SAIC's personnel will be required to sign nondisclosure agreements and will be briefed on specific security procedures for TSCA CBI.

Authority: 15 U.S.C. 2601 *et seq.*

Dated: December 2, 2019.

Pamela Myrick,

Director, Information Management Division, Office of Pollution Prevention and Toxics.

Notice of Proposed Administrative Settlement Agreement for Recovery of Past Response Costs at the North Hollywood Operable Unit of the San Fernando Valley Area 1 Superfund Site in Los Angeles County, California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement; request for public comment.

SUMMARY: In accordance with the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended ("CERCLA"), notice is hereby given that the Environmental Protection Agency ("EPA"), has entered into a proposed settlement, embodied in an Administrative Settlement Agreement for Recovery of Past Response Costs ("Settlement Agreement"), with Honeywell International Inc. Under the Settlement Agreement, Honeywell agrees to pay \$11,600,000 to reimburse EPA for costs EPA has incurred at the North Hollywood Operable Unit of the San Fernando Valley Area 1 Superfund Site ("NHOU") and in conjunction with the San Fernando Valley Basin-Wide Remedial Investigation.

DATES: Comments must be received on or before January 21, 2020.

ADDRESSES: The Settlement Agreement is available for public inspection at the United States Environmental Protection Agency, Superfund Records Center, 75 Hawthorne Street, Room 3110, San Francisco, California 94105. Telephone:

415-947-8717. Comments should be addressed to Michael Massey, Assistant Regional Counsel, Office of Regional Counsel (ORC-3), U.S. Environmental Protection Agency, 75 Hawthorne Street, San Francisco, CA 94105; or Email: massey.michael@epa.gov and should reference the NHOU and the EPA Docket Number for the Settlement Agreement, EPA R9-2020-02. EPA's response to any comments received will be available for public inspection at the same address.

FOR FURTHER INFORMATION CONTACT:

Michael Massey, Assistant Regional Counsel (ORC-3), Office of Regional Counsel, U.S. EPA Region IX, 75 Hawthorne Street, San Francisco, CA 94105; Email: massey.michael@epa.gov; Phone (415) 972-3034.

SUPPLEMENTARY INFORMATION: Notice of this proposed Settlement Agreement is made in accordance with the Section 122(i) of CERCLA, 42 U.S.C. 9622(i). The Settlement Agreement concerns costs incurred by EPA in connection with the NHOU and the San Fernando Valley Basin-Wide Remedial Investigation, two CERCLA response actions in Los Angeles County, California, where groundwater contamination has come to be located. Honeywell, which agrees to pay EPA \$11,600,000, is the only party to the Settlement Agreement. EPA intends to recover its remaining costs from other responsible parties in the future; however, because EPA is not recovering one hundred percent of its past costs at this time, this Settlement Agreement represents a compromise of EPA's costs. The settlement includes a covenant not to sue pursuant to Sections 106 and 107(a) of CERCLA, 42 U.S.C. 9606 and 9607(a).

EPA will consider all comments received on the Settlement Agreement in accordance with the **DATES** and **ADDRESSES** sections of this Notice and may modify or withdraw its consent to the Settlement Agreement if comments received disclose facts or considerations that indicate that the settlement is inappropriate, improper, or inadequate.

Dated: December 4, 2019.

Enrique Manzanilla,

Director, Superfund Division, EPA Region 9.

Approval of Variance Decision Pursuant to the Safe Drinking Water Act; Alternative Treatment Technique for National Primary Drinking Water Lead and Copper Regulations for Denver Water

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice and opportunity for public comment.

SUMMARY: The Environmental Protection Agency (EPA) is approving a variance under the Safe Drinking Water Act (SDWA) for Denver Water. This variance will allow Denver Water to implement a Lead Reduction Program Plan (LRPP) as an alternative to using orthophosphate as a corrosion control treatment to reduce lead concentrations in drinking water. Denver Water's LRPP is expected to be as protective in lowering lead levels as the requirements under the Lead and Copper Rule (LCR). This variance is effective for an initial period of three years and may be extended if Denver Water demonstrates the effectiveness of this alternative approach. Concurrent with this action, the EPA is asking for comments on the potential criteria for how the Agency will determine whether to extend this variance for up to an additional twelve years. The EPA is accepting public comments on these criteria and on the EPA's interpretation of the statutory standard for future variance requests, as described under **SUPPLEMENTARY INFORMATION**.

DATES: All public comments on the criteria must be received on or before January 21, 2020.

ADDRESSES: All comments can be submitted directly through docket number EPA-R08-OW-2019-0404 available at www.regulations.gov.

FOR FURTHER INFORMATION CONTACT: The variance documents are available through docket number EPA-R08-OW-2019-0404 available at www.regulations.gov. Questions can be directed to Natalie Cannon, Drinking Water B Section, EPA Region 8, 1595 Wynkoop Street, Denver, CO 80202-1129, phone 303-312-6625.

SUPPLEMENTARY INFORMATION: The Lead and Copper Rule (LCR) required that all large public water systems (PWSs) complete corrosion control treatment steps and install optimal corrosion control treatment for lead and copper by January 1, 1997, complete follow up
