

Agenda

The Scientific and Statistical Committee will meet to consider the New England Fishery Management Council's remand of the SSC's acceptable biological catch (ABC) recommendations for American plaice, Gulf of Maine and Georges Bank haddock stocks, and Atlantic pollock for fishing years 2020–23. They will also discuss any matters concerning issues with ABC control rules for groundfish and the lack of fish stock status determination criteria. Other business will be discussed as needed.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded, consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: December 18, 2019.

RIN 0648-XR002

Marine Mammals; File No. 22156

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Douglas Nowacek, Ph.D., Nicholas School of the Environment, Duke University Marine Laboratory, 135 Duke

Marine Lab Rd, Beaufort, NC 28516, has applied in due form for a permit to conduct research on and import specimens of 31 cetacean species for scientific research.

DATES: Written, telefaxed, or email comments must be received on or before January 22, 2020.

ADDRESSES: The application and related documents are available for review by selecting "Records Open for Public Comment" from the "Features" box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 22156 from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT:

Amy Hapeman or Shasta McClenahan, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

The applicant proposes to conduct a five-year research program on 31 species of cetaceans in U.S. and international waters of the North Atlantic Ocean. Species include endangered blue (*Balaenoptera musculus*), fin (*B. physalus*), sei (*B. borealis*), and sperm (*Physeter macrocephalus*) whales. The purpose of the research is to study variation in cetacean behavior, foraging ecology, body condition, health status, population structure, and use of and

response to sounds. Researchers would conduct surveys by vessel and an unmanned aircraft system to approach, count, observe, photograph, remotely measure, and track cetaceans. During surveys, researchers may conduct acoustic playback trials in the presence of animals, collect biological samples, and tag animals, with some species receiving two tags at a time. Non-target cetaceans in the vicinity of research could be incidentally harassed. See the application for take numbers by species. Biological samples collected in international waters would be imported into the United States and cell lines may be developed from tissue samples.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: December 17, 2019.

DEPARTMENT OF COMMERCE

National Technical Information Service

Submission for OMB Review; Renewal of Currently Approved Information Collection; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Technical Information Service (NTIS), Commerce.

Title: Limited Access Death Master File Accredited Conformity Assessment Body Application for Firewalled Status (Firewalled Status Application Form).

OMB Control Number: 0692-0015.

Form Number(s): NTIS FM101.

Type of Request: Renewal of a currently approved information collection.

Number of Respondents: NTIS expects to receive approximately 250 applications and renewals for certification every year for access to the Limited Access Death Master File, of which it expects that approximately 20% of the required assessments will be provided by Accredited Conformity Assessment Bodies that will seek firewalled status in a given year. Accordingly, NTIS estimates that it will receive approximately 50 Firewalled Status Application Forms.

Average Hours per Response: 1 hour.

Burden Hours: 50.

Needs and Uses: NTIS issued a final rule establishing a program through which persons may become eligible to obtain access to Death Master File (DMF) information about an individual within three years of that individual's death. The final rule was promulgated under Section 203 of the Bipartisan Budget Act of 2013, Public Law 113-67 (Act). The Act prohibits the Secretary of Commerce (Secretary) from disclosing DMF information during the three-year period following an individual's death (Limited Access DMF), unless the person requesting the information has been certified to access the Limited Access DMF pursuant to certain criteria in a program that the Secretary establishes. The Secretary delegated the authority to carry out Section 203 to the Director of NTIS.

The final rule requires that, in order to become certified, a Person or Certified Person must submit a written attestation from an "Accredited Conformity Assessment Body" (ACAB), as defined in the final rule, that such Person has information security systems, facilities and procedures in place to protect the security of the Limited Access DMF, as required under Section 1110.102(a)(2) of the final rule. A Certified Person also must provide a new written attestation periodically for renewal of its certification as specified in the final rule. The ACAB must be independent of the Person or Certified Person seeking certification, unless it is a third-party conformity assessment body which qualifies for "firewalled

status" pursuant to Section 1110.502 of the final rule.

The Firewalled Status Application Form collects information that NTIS will use to evaluate whether the respondent qualifies for "firewalled status" under the rule, and, therefore, can provide a written attestation in lieu of an independent ACAB's attestation. This information includes specific requirements of Section 1110.502(b) of the final rule, which the respondent ACAB must certify are satisfied, and the provision of specific information by the respondent ACAB, such as the identity of the Person or Certified Person that would be the subject of the attestation and the basis upon which the certifications were made.

Affected Public: ACABs seeking firewalled status under 15 CFR 1110.502 because they are "owned, managed or controlled" by the Person or Certified Person for whom they are providing assessment(s) and/or audit(s) under the final rule for "Certification Program for Access to the Death Master File."

Frequency: Once per attestation.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395-5806.

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.
