Number and Bedroom Distribution of PBV-Assisted Section 504 Mobility Units at the Project

This field captures the number of PBV-assisted units at the project that are accessible for persons with mobility impairments in accordance with Section

504 of the Rehabilitation Act of 1973 and HUD's implementing regulations at 24 CFR part 8. Such units must meet either the Uniform Federal Accessibility Standards (UFAS) or 2010 Americans with Disabilities Act (ADA) Standards (in accordance with HUD's Deeming Notice published in the **Federal Register** on May 23, 2014 (79 FR 29671)).

Number and Bedroom Distribution of PBV-Assisted Section 504 Hearing/Vision Units at the Project

PHAs would be required to enter this information into the online form when a new project came under Housing

Assistance Payment (HAP) contract, and when project or development information changed. The unique project code identifier will tie to future potential changes to the 50058 which will permit linking HUD assisted-tenants to HUD assisted-properties. This is a new information collection.

Respondents (i.e. affected public): Public housing authorities (PHAs) that have project-based vouchers (PBVs) as a part of their portfolio.

Note: Preparer of this notice may substitute the chart for everything beginning with estimated number of respondents above:

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
PBV Property Information	668	6	4,008	1,5	6,012	\$40.10	\$241,0188

Our burden estimate for the number of respondents is based on a recent VMS total of the number of PHAs reporting PBVs in VMS. It is assumed PHAs will have to do a one-time submission for all the projects as well as potentially make updates when changes occur to the PBV projects (frequency of responses). The "responses per annum" represents an estimate of the amount of PBV projects that will need to be entered into the system. This number is multiplied by the frequency of responses to arrive at an annual estimate of burden hours. This is then multiplied by median average wage of a "Management Analyst" according to the Bureau of Labor Statistics for 2019 to arrive at a total annual cost.¹ It is anticipated that this cost will decline in subsequent years as PHAs only need to update information already in the system when changes are made to PBV projects.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

- (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) The accuracy of the agency's estimate of the burden of the proposed collection of information;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) Ways to minimize the burden of the collection of information on those who are to respond; including through

the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

(5) In this information collection, HUD has proposed collecting information on PBV-assisted units in PBV projects that are Section 504 accessible. Would it be feasible and useful to also collect this information on non-assisted units at PBV projects that do not receive PBV assistance Project-Based Voucher projects? Are there any potential barriers to collecting this information?

HUD encourages interested parties to submit comment in response to these questions.

that are listed as endangered or threatened under the ESA.

With some exceptions, the ESA prohibits activities that constitute take of listed species unless a Federal permit is issued that allows such activity. The ESA’s definition of “take” includes such activities as pursuing, harassing, trapping, capturing, or collecting in

addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.
