

DEPARTMENT OF ENERGY**Extension of the Public Comment Period for the Draft Environmental Assessment for the Commercial Disposal of Defense Waste Processing Facility Recycle Wastewater From the Savannah River Site**

AGENCY: Office of Environmental Management, U.S. Department of Energy.

ACTION: Extension of public comment period.

SUMMARY: The U.S. Department of Energy (DOE) is extending the public comment period for the request of public comments on the *Draft Environmental Assessment for the Commercial Disposal of Defense Waste Processing Facility Recycle Wastewater from the Savannah River Site* (DOE/EA-2115) (Draft SRS DWPF Recycle Wastewater EA). DOE published a notice in the **Federal Register** on December 10, 2019, establishing a 30-day public comment period ending on January 9, 2020. DOE is extending the public comment period for 32 days, ending on February 10, 2020.

DATES: The comment period for the Notice published on December 10, 2019 (84 FR 67438) is extended. DOE will consider all comments received or postmarked by February 10, 2020.

ADDRESSES: Please direct written comments on the Draft DWPF SRS Recycle Wastewater EA to:

(a) *Email:* DWPF EA@em.doe.gov.

Please submit comments in Microsoft Word or PDF file format and avoid the use of encryption.

(b) *Mail:* James Joyce, U.S. Department of Energy, Office of Environmental Management, EM-4.21, 1000 Independence Avenue SW, Washington, DC 20585.

Because your comments will be made public, you are solely responsible for ensuring that your comments do not include any confidential information that you or a third party may not wish to be posted.

FOR FURTHER INFORMATION CONTACT: For information related to Draft SRS DWPF Recycle Wastewater EA, please contact James Joyce, U.S. Department of Energy, Office of Environmental Management, Office of Waste and Materials Management (EM-4.2), 1000 Independence Avenue SW, Washington, DC 20585. Email: DWPF EA@em.doe.gov. Telephone: (301) 903-2151. For information related to DOE's high-level radioactive waste (HLW) interpretation, please contact Theresa Kliczewski, U.S. Department of Energy, Office of Environmental Management, Office of

Waste and Materials Management (EM-4.2), 1000 Independence Avenue SW, Washington, DC 20585. Email: Theresa.Kliczewski@em.doe.gov.

SUPPLEMENTARY INFORMATION: On December 10, 2019, DOE published a notice in the **Federal Register** (84 FR 67438) on the publication of the Draft SRS DWPF Recycle Wastewater EA. The Draft SRS DWPF Recycle Wastewater EA evaluates the potential impacts from a proposed action to retrieve, stabilize, and dispose of up to 10,000 gallons of Defense Waste Processing Facility (DWPF) recycle wastewater from Savannah River Site (SRS) at a commercial low-level radioactive waste disposal facility located outside of South Carolina, licensed by either the Nuclear Regulatory Commission (NRC) or an Agreement State under NRC's regulations regarding licensing requirements for land disposal of radioactive waste. If implemented, this proposal would provide alternative treatment and disposal options for up to 10,000 gallons of DWPF recycle wastewater through the use of existing, licensed, off-site commercial facilities.

DOE has determined that an extension of the public comment period on the Draft SRS DWPF Recycle Wastewater EA is appropriate, and is hereby extending the comment period an additional 32 days with the public comment period ending on February 10, 2020.

Signed at Washington, DC, on December 20, 2019.

Mark S. Senderling,

Deputy Assistant Secretary for Waste and Materials Management, Office of Regulatory and Policy Affairs, Office of Environmental Management, U.S. Department of Energy.

[Docket No. CP20-20-000]

Notice of Application; Texas-Kansas-Oklahoma LLC

Take notice that on December 6, 2019, Texas-Kansas-Oklahoma LLC. (TKO), 1318 David Lane, Dalhart, TX, 79022 filed in Docket No. CP20-20-000, an application pursuant to section 7(f) of the Natural Gas Act and Part 157 of the Commission's regulations requesting that the Commission grant it a determination of service area within which TKO may, without further Commission authorization, own and operate facilities to provide natural gas

distribution service across the state line flowing from southwestern Kansas into in a limited geographic area in northern Oklahoma. The subject distribution facilities, which provide natural gas service to TKO's irrigation customers, originate in Kansas and continue into Oklahoma. TKO also requests a finding that qualifies for treatment as an LDC for purposes of Section 311 of the Natural Gas Policy Act and a waiver of various Commission requirements as appropriate and consistent with the requested determination. All relevant information is more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to Mike McEvers, Texas-Kansas-Oklahoma, LLC, P.O. Box 1194, Dalhart, TX 79202; Phone: (806) 244-4210; Email: tko@tkogas.com, and copied to C. Edward Watson, II, Foulston Siefkin, LLP, 1551 N Waterfront Pkwy, Suite 100, Wichita, KS 67206; Phone: (316) 291-9589; Email: cwatson@foulston.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888

First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 3 copies of filings made with the Commission and must provide a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list and will be notified of any meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

As of the February 27, 2018 date of the Commission's order in Docket No. CP16-4-001, the Commission will apply its revised practice concerning out-of-time motions to intervene in any new Natural Gas Act section 3 or section 7 proceeding.¹ Persons desiring to become a party to a certificate proceeding are to intervene in a timely manner. If seeking to intervene out-of-time, the movant is required to show

good cause why the time limitation should be waived, and should provide justification by reference to factors set forth in Rule 214(d)(1) (18 CFR 385.214(d)(1)) of the Commission's Rules and Regulations.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 3 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

[Docket No. ER20-635-000]

Rodan Energy Solutions (USA) Inc.; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Rodan Energy Solutions (USA) Inc.'s application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is January 9, 2020.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic

service, persons with internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the website that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov. or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: December 20, 2019.
