

Privacy Impact Assessment: The FCC completed a Privacy Impact Assessment (PIA) on June 28, 2007. The PIA may be reviewed at <https://www.fcc.gov/general/privacy-act-information>. The FCC is in the process of updating the PIA to incorporate various revisions made to the SORN.

Needs and Uses: In 2011, in document FCC 11–151, the FCC adopted rules to implement sections 716 and 717 of the Communications Act of 1934 (the Act), as amended, which were added to the Act by the Twenty-First Century Communications and Video Accessibility Act of 2010 (CVAA). See Public Law 111–260, 104. Section 716 of the Act requires providers of advanced communications services and manufacturers of equipment used for advanced communications services to make their services and equipment accessible to individuals with disabilities, unless doing so is not achievable. 47 U.S.C. 617. Section 717 of the Act established new recordkeeping requirements and enforcement procedures for service providers and equipment manufacturers that are subject to sections 255, 716, and 718 of the Act. 47 U.S.C. 618. Section 255 of the Act requires telecommunications and interconnected VoIP services and equipment to be accessible to individuals with disabilities, if readily achievable. 47 U.S.C. 255. Section 718 of the Act requires internet browsers built into mobile phones to be accessible to and usable by individuals who are blind or have a visual impairment, unless doing so is not achievable. 47 U.S.C. 619.

In document FCC 11–151, the Commission adopted rules relating to the following:

(a) Service providers and equipment manufacturers that are subject to sections 255, 716, and 718 of the Act must ensure that the information and documentation that they provide is accessible to individuals with disabilities.

(b) Service providers and equipment manufacturers may seek waivers from the accessibility obligations of section 716 of the Act for services or equipment that are designed for multiple purposes, including advanced communications services, but are designed primarily for purposes other than using advanced communications services.

(c) Service providers and equipment manufacturers that are subject to sections 255, 716, and 718 of the Act must maintain records of their efforts to implement those sections.

(d) Service providers and equipment manufacturers that are subject to sections 255, 716, and 718 of the Act

must certify annually to the Commission that records are kept in accordance with the recordkeeping requirements. The certification must include contact details of the person(s) authorized to resolve accessibility complaints and the agent designated for service of process.

(e) The Commission established procedures to facilitate the filing of formal and informal complaints alleging violations of sections 255, 716, or 718 of the Act. Those procedures include a nondiscretionary pre-filing notice procedure to facilitate dispute resolution, that is, as a prerequisite to filing an informal complaint, complainants must first request dispute assistance from the Consumer and Governmental Affairs Bureau's Disability Rights Office.

In 2013, in document FCC 13–57, the FCC adopted rules to implement section 718 of the Act.

In 2015, in document FCC 15–24, the FCC reclassified broadband internet access service (BIAS) as a telecommunications service that is subject to the Commission's regulatory authority under Title II of the Act and applying section 255 of the Act and the Commission's implementing rules to providers of BIAS and manufacturers of equipment used for BIAS. In 2017, in document FCC 17–166, the Commission reinstated the information service classification of BIAS.

Therefore, the Commission extracted those burdens from the collection found in OMB control number 3060–1167.

Needs and Uses: Commercial full-power and Class A television broadcast stations are required to file FCC Form 2100, Schedule H (formerly FCC Form 398) (Children's Television Programming Report) within 30 days after the end of each calendar year. FCC Form 2100, Schedule H is a standardized form that: (a) Provides a consistent format for reporting the children's educational television programming aired by licensees to meet their obligation under the Children's Television Act of 1990 (CTA), and (b) facilitates efforts by the public and the FCC to monitor compliance with the CTA.

Commercial full-power and Class A television stations are required to complete FCC Form 2100, Schedule H within 30 days after the end of each calendar year and file the form with the Commission. The Commission places the form in the station's online public inspection file maintained on the Commission's database (www.fcc.gov). Stations use FCC Form 2100, Schedule H to report, among other things, the Core Programming (*i.e.*, children's educational and informational programming) the station aired the previous calendar year. FCC Form 2100, Schedule H also includes a "Preemption Report" that must be completed for each Core Program that was preempted during the year. This "Preemption Report" requests information on the reason for the preemption, the date of each preemption, the reason for the preemption and, if the program was rescheduled, the date and time the program was re-aired.

On July 10, 2019, the Commission adopted a *Report and Order* in MB Docket Nos. 18–202 and 17–105, FCC 19–67, *In the Matter of Children's Television Programming Rules; Modernization of Media Regulation Initiative*, which modernizes the children's television programming rules in light of changes to the media landscape that have occurred since the rules were first adopted. Among other revisions, the *Report and Order* revises the children's television programming rules to expand the Core Programming hours to 6:00 a.m. to 10:00 p.m.; modify the safe harbor processing guidelines for determining compliance with the children's programming rules; require that broadcast stations air the substantial majority of their Core Programming on their primary program streams, but permit broadcast stations to
