[RTID 0648-XV170]

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) and The Nature Conservancy are cosponsoring a two-day workshop: Developing Future Scenarios for Climate Change in the California Current Ecosystem, which is open to the public.

DATES: The meeting will be held on Wednesday, January 22 and Thursday, January 23, 2020, from 8 a.m. until the completion of business on each day.

ADDRESSES: The meeting will be held at the Hyatt Regency Orange County, Pacific Room, 11999 Harbor Blvd., Garden Grove, CA 92840; telephone: (714) 750-1234.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220.

FOR FURTHER INFORMATION CONTACT: Dr. Kit Dahl, Pacific Council; telephone: (503) 820-2422.

SUPPLEMENTARY INFORMATION: The purpose of this workshop is to create several alternative narratives (called scenarios) about what west coast fishing communities might look like in 2040. The scenarios will be developed by invited scientific experts, fishery experts, and stakeholders. The workshop is part of a broader Council effort to respond strategically to near-term climate shifts and long-term climate change, and identify strategies to increase the resiliency of west coast fisheries and fishing communities in line with an ongoing initiative of its Fishery Ecosystem Plan. Members of the

public are asked to register in advance through the following link: <https://form.jotform.com/93296415530963>. This will help the organizers plan workshop activities.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt, (503) 820-2412, at least 10 business days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 2, 2020.

Diane M. DeJames-Daly,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; availability of a Hatchery and Genetic Management Plan (HGMP) for public comment.

SUMMARY: Notice is hereby given that the Washington Department of Fish and Wildlife (WDFW) and Public Utility District No. 1 of Douglas County (Douglas PUD) have provided a HGMP pursuant to the protective regulations promulgated for Pacific salmon and steelhead under the Endangered Species Act (ESA). The HGMP describes the release of one million summer Chinook salmon at the Wells Hatchery. This document serves to notify the public of the availability of the HGMP for comment prior to a decision by NMFS

on whether to approve the proposed hatchery program.

DATES: Comments must be received at the appropriate address (see **ADDRESSES**) no later than 5 p.m. P.S.T. on February 6, 2020. Comments received after this date may not be considered.

ADDRESSES: Written responses to the addendum should be addressed to the NMFS Sustainable Fisheries Division, 1201 NE Lloyd Blvd., Suite 1100, Portland, OR 97232. Comments may be submitted by email. The mailbox address for providing email comments is: Hatcheries.Public.Comment@noaa.gov. Include in the subject line of the email comment the following identifier: Comments on Wells Summer Chinook Hatchery Program.

FOR FURTHER INFORMATION CONTACT: Natasha Preston at (503) 231-2178 or by email at natasha.preston@noaa.gov

SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notice

- Upper Columbia River Spring-run Chinook (*Oncorhynchus tshawytscha*): Endangered, naturally produced and artificially propagated
- Upper Columbia River Steelhead (*O. mykiss*): Threatened, naturally produced and artificially propagated

Background

The HGMP submitted by WDFW and Douglas PUD describes the release of one million subyearling summer Chinook salmon at the Wells Hatchery. The HGMP was submitted to NMFS for review under ESA Limit 5 of the 4(d) Rule. Douglas PUD's existing production of summer Chinook includes 320,000 yearlings and 484,000 subyearling Chinook. These two programs are implemented under the terms and conditions of ESA Section 10(a)(1)(B) Permit No. 23193. The HGMP describes broodstock collection, incubation, rearing, release, and monitoring and evaluation.

This increase in summer Chinook salmon production is proposed to support Washington State's Southern Resident Orca Task Force recommendation to increase the abundance of Chinook salmon in marine waters of Washington State.

Prior to approving an HGMP under limit 5 of the 4(d) Rule, NMFS must publish notification announcing the availability of the HGMP for public review and comment.
