SUPPLEMENTARY INFORMATION:

Request for Comments

Pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Commission invites the general public and other Federal agencies to comment on the proposed information collection. On May 31, 2019, the Commission published a notice and request for comment in the **Federal Register** (84 FR 25275) regarding the agency's request for reinstatement from OMB for information collections as required by the Paperwork Reduction Act of 1995. The Commission received no comments on the request for reinstatement of OMB approval. The Commission has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Information Collection Open for Comment

Title: 46 CFR part 535—Ocean Common Carrier and Marine Terminal Operator Agreements Subject to the Shipping Act of 1984.

OMB Approval Number: 3072-0045 (Expired March 31, 2017).

Abstract: Section 4 of the Shipping Act of 1984, 46 U.S.C. 40301(a)-(c), identifies certain agreements by or among ocean common carriers (carriers) and marine terminal operators (MTOs) that fall within the jurisdiction of that Act. Section 5 of the Act, 46 U.S.C. 40302, requires that carriers and MTOs file those agreements with the Federal Maritime Commission. Section 6 of the Act, 46 U.S.C. 40304, 40306, and 41307(b)-(d), specifies the Commission actions that may be taken with respect to filed agreements, including requiring

the submission of additional information. Section 15 of the Act, 46 U.S.C. 40104, authorizes the Commission to require that carriers and MTOs, among other persons, file periodic or special reports. Requests for additional information and the filing of periodic or special reports are meant to assist the Commission in fulfilling its statutory mandate of overseeing the activities of the ocean transportation industry. These reports are necessary so that the Commission can monitor agreement parties' activities to determine how or if their activities will have an impact on competition.

Type of Request: There are no changes to this information collection, and it is being submitted for reinstatement purposes only.

Needs and Uses: The Commission staff uses the information filed by agreement parties to monitor their activities as required by the Shipping Act of 1984. Under the general standard set forth in section 6(g) of the Act, 46 U.S.C. 41307(b)(1), the Commission must determine whether filed agreements are likely, by a reduction in competition, to produce an unreasonable reduction in transportation service or an unreasonable increase in transportation cost or to substantially lessen competition in the purchasing of certain covered services. If it is shown, based on information collected under this rule, that an agreement is likely to have the foregoing adverse effects, the Commission may bring suit in the U.S. District Court for the District of Columbia to enjoin the operation of that agreement. Other than an agreement filed under section 5 of the Act, the information collected may not be disclosed to the public except as may be relevant to an administrative or judicial proceeding, and disclosure to Congress.

Frequency: This information is collected generally on a quarterly basis or as required under the rules.

Type of Respondents: The types of respondents are ocean common carriers and MTOs subject to the Shipping Act of 1984.

Number of Annual Respondents: The Commission estimates a potential annual respondent universe of 334 entities.

Estimated Time per Response: The approximate range of person hours per response, including preparation and filing, depends on its complexity, presented by category below:

Agreements and amendments not requiring form FMC-150: 6-25 hours.

Agreements and amendments requiring form FMC-150: 17-137 hours.

Terminations of Agreements: .25–.5 hours.

Filing of Agreement meeting minutes: 2–5 hours.

Filing of Monitoring Reports:

VOCC Rate Discussion Agreements: 71–120 hours.

Alliance Agreements: 60–155 hours.
Other reporting agreements: 5–75 hours.

Total Annual Burden: The Commission estimates the total annual burden at 15,655 hours.

Rachel Dickon,

Secretary.

III. Under Part C, Section C–B, Organization and Functions, insert the following:

- *Agency for Toxic Substance and Disease Registry (J).* The mission of the Agency for Toxic Substances and Disease Registry (ATSDR) is to protect communities from harmful health effects of hazardous waste sites and hazardous material spills. The ATSDR responsibilities are specified in the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) as amended in the Superfund Amendments and Reauthorization Act of 1986 and in amendments (Hazardous and Solid Waste Amendments of 1984) to the Resource Conservation and Recovery Act (RCRA). ATSDR works closely with state, tribal, territory, local, other federal agencies, and other organizations to reduce or eliminate illness, disability, and death that result from exposure of the public to toxic substances at spill and waste disposal sites. Through additional laws, ATSDR provides environmental support to other national efforts, such as the disposal of medical wastes. To carry out its CERCLA mission, ATSDR:

(1) Evaluates data and information on the release of hazardous substances into the environment to assess any current or future impact on public health, develops health advisories or other health recommendations, and identifies studies or actions needed to evaluate and mitigate or prevent adverse human health effects; (2) summarizes and interprets available data on the health effects of hazardous substances in consultation with the Environmental Protection Agency (EPA) and other programs and Public Health Service (PHS) agencies, and in cooperation with the National Toxicology Program, initiates toxicologic research to determine the health effects of designated hazardous substances, where needed; (3) provides health-related
