Abstract: The legislative mandate of the National Park Service (we, NPS), found at 16 U.S.C. 1, is to conserve America's natural wonders unimpaired for future generations, while also making them available for the enjoyment of the visitor. Specific legal authorities governing special park uses include: 16 U.S.C. 1a; 16 U.S.C. 316; U.S.C. 3a; and 16 U.S.C. 4601–6d.

Special park uses cover a wide range of activities including, but not limited to, special events, First Amendment activities, grazing and agricultural use, commercial filming, still photography, construction and vehicle access. In accordance with regulations at 36 CFR parts 1–7, 13, 20, and 34, we issue permits for special park uses. Permits are issued for varying amounts of time based on the requested use, but generally do not exceed 5 years. A new application must be submitted in order to request the renewal of an existing permit.

The information we collect in the special use applications allows park managers to determine if the requested use is consistent with the laws and NPS regulations referenced above and with the public interest. The park manager must also determine that the requested activity will not cause unacceptable impacts to park resources and values. The NPS uses the following form to collect information:

- 10–930—Application for Special Use Permit;
- 10–930s—Application for Special Use Permit (short form);
- 10–930c—Climbing Application and Permit (New). Used to apply for a permit to climb in excess of 10,000 feet. The permit will be submitted as part of the checkout process after the trip.
- 10–931—Application for Special Use Permit—Commercial Filming/Still Photography Permit (short);
- 10–932—Application for Special Use Permit—Commercial Filming/Still Photography Permit (long); and,
- 10–933—Application for Special Use Permit—Vehicle/Watercraft Use.

With this submission, we are requesting OMB approval to use a new form under this information collection. To address the need for parks to collect information from hikers and climbers exceeding 10,000 feet of elevation, the program is requesting clearance of the NPS 10–930c “Climbing Application and Permit” to collect information associated with high elevation activities.

This information includes details about the group leader, emergency contacts, climbing routes, party members, team equipment and departure and return dates.

We are estimating 80,483 responses totaling 22,872 annual burden hours. Program changes due to agency estimates and discretion results in a net increase of 46,748 responses and a net increase of 10,956 burden hours from our previous submission. The increases in both responses and burden hours includes the request for a new form (10–930c) for parks that permit climbing above 10,000 feet, and efforts to improve tracking of permits, particularly those issued for off-road vehicle use.
