Overview of This Information Collection

1. *Type of Information Collection:* Revision of a Currently Approved Collection.

2. *The Title of the Form/Collection:* National Institute of Justice Compliance Testing Program (NIJ CTP). This collection consists of eight forms: NIJ CTP Applicant Agreement; NIJ CTP Authorized Representatives Notification; NIJ CTP Electronic Signature Agreement; NIJ CTP Body Armor Build Sheet; NIJ CTP Body Armor Agreement; NIJ CTP Manufacturing Location Notification; NIJ CTP Multiple Listee Notification; NIJ Approved Laboratory Application and Agreement.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* There is no agency form number for this

collection. The applicable component within the Department of Justice is the National Institute of Justice, Office of Justice Programs.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Applicants to the NIJ Compliance Testing Program and Testing Laboratories, which are businesses or other for-profit organizations. The purpose of the voluntary NIJ Compliance Testing Program is to provide confidence that equipment used for law enforcement and corrections applications meets minimum published performance requirements. One type of equipment is ballistic body armor. Ballistic body armor models that are determined to meet minimum requirements by NIJ and listed on the NIJ Compliant Products List are eligible for reimbursement through the Ballistic Vest Partnership.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* As of December 31, 2018, approximately 1,250 unique ballistic armor models have been submitted to the NIJ CTP by approximately 300 companies for compliance testing since OMB Number 1121-0321 was issued in 2009. Approximately one third of the companies that submitted armor are not based in the U.S., however only U.S. companies will be considered for the purpose of estimating the burden on the public. Therefore, a total of 200 responses is estimated for the following three forms over several years:

NIJ CTP Applicant Agreement: Estimated 100 responses at 15 minutes every year (and 50 responses per year after that);

NIJ CTP Authorized Representatives Notification: Estimated 100 responses at 15 minutes every year (and 50 responses per year after that);

NIJ CTP Electronic Signature Agreement: Estimated 100 responses at 15 minutes every year (and 50 responses per year after that).

Each time a new armor model is submitted to the NIJ CTP for testing, the following four forms must be completed. Respondents may submit as many armor models as they choose to the NIJ CTP and are therefore not limited to only one response. The number of overall submissions over the past decade roughly translates to 125 unique ballistic armor models tested per year. A fraction of those armors are submitted by companies not based in the U.S., however only U.S. companies will be considered for the purpose of estimating the burden on the public. Therefore, a total of 100 responses is

estimated for the following four forms per year:

NIJ CTP Body Armor Agreement: Estimated 100 responses at 15 minutes every year;

NIJ CTP Body Armor Build Sheet: Estimated 100 responses at 2 hours every year;

NIJ CTP Manufacturing Location Notification: Estimated 100 responses at 15 minutes each every year;

NIJ CTP Listee Notification: Estimated 100 responses at 15 minutes every year; Testing laboratories provide responses to the laboratory agreement form and are therefore considered respondents in this case. There are currently four laboratories that participate in the NIJ CTP, which renew their status with the NIJ CTP roughly every two years.

NIJ Approved Laboratory Application and Agreement: Estimated 4 responses at 8 hours every two years, or a total of 16 hours on average per year.

6. *An estimate of the total public burden (in hours) associated with the collection:* 366 hours the first year and 328.5 hours per year in subsequent years.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: January 10, 2020.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

SUPPLEMENTARY INFORMATION:

I. Discussion

In 1990, Congress passed the Federal Civil Penalties Inflation Adjustment Act of 1990 (FCPIAA), to provide for regular adjustment for inflation of civil monetary penalties (CMPs). As amended by the Debt Collection Improvement Act of 1996, the FCPIAA required that the head of each Federal agency review, and if necessary, adjust by regulation the CMPs assessed under statutes enforced by the agency at least once every four years.

On November 2, 2015, the President signed into law the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015 (the 2015 Improvements Act), which further amended the FCPIAA and requires Federal agencies to adjust their CMPs annually for inflation no later than January 15 of each year. These requirements apply to the NRC's maximum CMP amounts for (1) a violation of the Atomic Energy Act (AEA) of 1954, as amended, or any regulation or order issued under the AEA, codified in § 2.205(j) of title 10 of the *Code of Federal Regulations* (10 CFR), "Civil Penalties"; and (2) a false claim or statement made under the Program Fraud Civil Remedies Act, codified in § 13.3, "Basis for Civil Penalties and Assessments."
