

Commerce had not adequately explained how Zhaofeng's misrepresentations of its sales data related to Commerce's separate rate analysis of whether Zhaofeng was independent of government control, and remanded the *Final Results* for a redetermination consistent with the Court's opinion.² In accordance with the Court's *Remand Order*, Commerce assigned Zhaofeng a separate rate and applied adverse facts available for Zhaofeng's misrepresentations of its U.S. sales data and its failure to cooperate to the best of its ability, applied the highest previously calculated dumping margin to Zhaofeng, 92.84 percent.³ On December 18, 2019, the Court sustained Commerce's *Remand Redetermination*.⁴ Therefore, the effective date of this notice is December 28, 2019.

Timken Notice

In its decision in *Timken*,⁵ as clarified by *Diamond Sawblades*,⁶ the United States Court of Appeals for the Federal Circuit (CAFC) held that, pursuant to section 516A(c) and (e) of the Tariff Act of 1930, as amended (the Act), Commerce must publish a notice of a court decision that is not "in harmony" with a Commerce determination and must suspend liquidation of entries pending a "conclusive" court decision. The Court's December 18, 2019 judgment sustaining Commerce's *Remand Redetermination* constitutes a final decision of the Court that is not in harmony with Commerce's *Final Results*. This notice is published in fulfillment of the publication requirements of *Timken* and section 516A of the Act. Commerce will continue the suspension of liquidation of the subject merchandise pending the expiration of the period of appeal, or if appealed, pending a final and conclusive court decision.

Amended Final Results

Because there is now a final court decision, Commerce is amending the

Assessment of Antidumping Duties

In the event the Court's ruling is not appealed or, if appealed, upheld by the CAFC, Commerce will instruct U.S. Customs and Border Protection to assess antidumping duties on unliquidated entries of subject merchandise Zhaofeng exported during the 2015-2016 POR based on the assessment rate equal to the weighted-average dumping margin determined for Zhaofeng by Commerce in these amended final results of review.

Cash Deposit Requirements

As of February 26, 2019, Zhaofeng has a superseding cash deposit rate, because it was assigned a separate rate in a completed administrative review for a more recent period of review of this order.⁷ Because Zhaofeng has a superseding cash deposit rate, we have not revised its cash deposit rate.

Background

On July 17, 2019, Commerce published the *Preliminary Results* of this administrative review in the *Federal Register*, and invited interested parties to comment.¹ On September 18, 2019, Nucor Corporation (Nucor) submitted pre-verification comments on the record of this administrative review.² Between September 23, 2019 and September 27, 2019, we conducted verifications of the questionnaire responses submitted by POSCO and the Government of Korea (GOK). We released verification reports on November 13, 2019.³ On October 10, 2019, Commerce postponed the final results of review by 57 days until January 10, 2020.⁴ On December 2, 2019, Nucor, POSCO, and the GOK submitted timely case briefs.⁵ Nucor and POSCO also submitted timely rebuttal briefs on December 9, 2019.⁶

- 7225.40.3050, 7226.20.0000, and
- 7226.91.5000.

Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise subject to this scope is dispositive.

A full description of the scope of the order is contained in the Issues and Decision Memorandum, which is hereby adopted by this notice.⁷

Analysis of Comments Received

All issues raised in interested parties' case and rebuttal briefs are addressed in the Issues and Decision Memorandum. A list of the issues raised by interested parties and to which we responded in the Issues and Decision Memorandum is provided in the Appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized

Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov> and to all parties in the Central Records Unit, room B8024 of the main Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at <http://enforcement.trade.gov/frn/index.html>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on the comments received from the interested parties, we made changes to the net subsidy rate calculated for the mandatory respondent. For a discussion of these issues, see the Issues and Decision Memorandum.

Methodology

Commerce conducted this review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found to be countervailable, we find that there is a subsidy, *i.e.*, a financial contribution from a government or public entity that gives rise to a benefit to the recipient, and that the subsidy is specific.⁸ For a full description of the methodology underlying all of Commerce's conclusions, see the Issues and Decision Memorandum.

Partial Rescission of Administrative Review

In the *Preliminary Results*, Commerce announced its intent to rescind the

review of Hyundai Steel Company (Hyundai) based on Hyundai's certified claim of no shipments of subject merchandise during the POI, as confirmed with U.S. Customs and Border Protection (CBP).⁹ No interested party submitted comments on Commerce's intent to rescind the review of Hyundai. Because there is no evidence on the record to indicate that Hyundai had entries, exports, or sales of subject merchandise to the United States during the POR, we are rescinding the administrative review of Hyundai pursuant to 19 CFR 351.213(d)(3).¹⁰

Companies Not Selected for Individual Review

Commerce calculated an individual estimated net countervailable subsidy rate for POSCO, the only individually examined exporter/producer in this investigation. Because the only individually calculated rate is not zero, *de minimis*, or based entirely under section 776 of the Act, the estimated net countervailable subsidy rate calculated for POSCO is the rate assigned to all other producers and exporters not selected for individual review. This is consistent with the methodology used in an investigation to establish the all-others rate, pursuant to section 705(c)(5)(A) of the Act.

Final Results of Administrative Review

We determine that, for the period of April 4, 2017 through December 31, 2017, the following total net countervailable subsidy rates exist:

Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

These final results are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(5).
