**Title of Collection:** Grantee Reporting Requirements for Prediction of and Resilience against Extreme Events (PREEVENTS).

**OMB Number:** 3145-0244.

**Proposed Project:** NSF and the Directorate for Geosciences (GEO) have

long supported basic research in scientific and engineering disciplines necessary to understand natural hazards and extreme events. The Prediction of and Resilience against Extreme Events (PREEVENTS) program is one element of the NSF-wide Risk and Resilience activity, which has the overarching goal of improving predictability and risk assessment, and increasing resilience, in order to reduce the impact of extreme events on our life, society, and economy. PREEVENTS provides an additional mechanism to support research and related activities that will improve our understanding of the fundamental processes underlying natural hazards and extreme events in the geosciences.

PREEVENTS is intended to encourage new scientific directions in the domains of natural hazards and extreme events. PREEVENTS will consider proposals for conferences that will foster development of interdisciplinary or multidisciplinary communities required to address complex questions surrounding natural hazards and extreme events. Such proposals are called PREEVENTS Track 1 proposals.

In addition to standard NSF annual and final report requirements, PIs for all PREEVENTS Track 1 awards will be required to submit to NSF a public report that summarizes the conference activities, attendance, and outcomes; describes scientific and/or technical challenges that remain to be overcome in the areas discussed during the conference; and identifies specific next steps to advance knowledge in the areas of natural hazards and extreme events that were considered during the conference. These reports will be made publicly available via the NSF website, and are intended to foster nascent interdisciplinary or multidisciplinary communities and to enable growth of new scientific directions.

**Use of the Information:** NSF will use the information to understand and evaluate the outcomes of the conference, to foster growth of new scientific communities, and to evaluate the progress of the PREEVENTS program.

**Estimate of Burden:** 40 hours per award for 5-10 conference awards for a total of 200-400 hours.

**Respondents:** Universities and Colleges; Non-profit, non-academic organizations; For-profit organizations; NSF-funded Federally Funded Research and Development Centers (FFRDCs).

**Estimated Number of Responses per Report:** One from each five to ten Track 1 awardees.

Dated: January 13, 2020.

## SECURITIES AND EXCHANGE COMMISSION

### Submission for OMB Review; Comment Request

*Upon Written Request, Copies Available From:* Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

#### Extension:

Rule 15Fi-2—Trade Acknowledgment and Verification of Security-Based Swap Transactions, SEC File No. 270-633, OMB Control No. 3235-0713

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 ("PRA") (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for approval of extension of the previously approved collection of information provided for in Rule 15Fi-2 (17 CFR 240.15Fi-2) under the Securities Exchange Act of 1934 ("Exchange Act") (15 U.S.C. 78a *et seq.*).

Rule 15Fi-2 requires security-based swaps ("SBS") dealers and major SBS participants (collectively, "SBS Entities") to provide to their counterparties a trade acknowledgment, to provide prompt verification of the terms provided in a trade acknowledgment of transactions from other SBS Entities, and to have written policies and procedures that are reasonably designed to obtain prompt verification of the terms provided in a trade acknowledgment. The Rule promotes the efficient operation of the SBS market and facilitate market participants' management of their SBS-related risk.

The Commission estimates that approximately 50 entities fit within the definition of SBS dealer, and up to five entities fit within the definition of major SBS participant. Thus, we expect that approximately 55 entities will be required to register with the Commission as SBS Entities and will be subject to the trade acknowledgment provision and verification requirements of Rule 15Fi-2. The total estimated annual burden of Rule 15Fi-2 is 34,155 hours.
