

Information collection	Number of respondents ¹	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Totals	10,780.00	13,558.00	2,837.00	96,919.99

Compared to the previously-approved information collection, the “Burden Hours Per Response” increased slightly for the In-Person and Online Training surveys due to additional questions added to those surveys. However, the total “Annual Burden Hours” and total “Annual Cost” decreased compared to the previously-approved information collection because two surveys [*Community Development Marketplace (CDM) Project Intake Survey* and the *Survey of Community Partners Receiving HUD Staff-Led Technical Assistance*] were removed from the information collection.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: December 23, 2019.

Seth D. Appleton,

Assistant Secretary for Policy Development and Research.

Fish and Wildlife Service

[Docket No. FWS-R4-ES-2019-0118; FXES1113040000EA-123-FF04EF1000]

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Sand Skink, Lake County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from Summergate

Development, LLC (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally listed sand skink incidental to construction in Lake County, Florida. We request public comment on the application, which includes the applicant’s proposed habitat conservation plan (HCP) and the Service’s preliminary determination that this HCP qualifies as “low-effect,” categorically excluded, under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

DATES: We must receive your written comments on or before February 18, 2020.

ADDRESSES:

Obtaining Documents: You may obtain copies of the documents online in Docket No. FWS-R4-ES-2019-0118 at <http://www.regulations.gov>.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by any of the following methods:

- *Online:* <http://www.regulations.gov>.

Follow the instructions for submitting comments on Docket No. FWS-R4-ES-2019-0118.

- *U.S. mail or hand-delivery:* Public Comments Processing, Attn: Docket No. FWS-R4-ES-2019-0118; U.S. Fish and Wildlife Service, MS: JAO/1N, 5275 Leesburg Pike, Falls Church, VA 22041-3803.

FOR FURTHER INFORMATION CONTACT: Erin M. Gawera, by telephone at 904-731-3121 or via email at erin_gawera@fws.gov.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service, announce receipt of an application from Summergate Development, LLC (applicant) for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP to take the federally listed sand skink (*Neoseps reynoldsi*) incidental to the construction of a residential subdivision (project) in Lake County, Florida. We request public comment on

the application, which includes the applicant’s proposed habitat conservation plan (HCP) and the Service’s preliminary determination that this HCP qualifies as “low-effect,” categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4231 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, which are also available for public review.

Project

Summergate Development, LLC requests a 10-year ITP to take sand skinks by converting approximately 3.1 acres of occupied skink foraging and sheltering habitat incidental to the construction of a residential subdivision located on a 57.57-acre parcel in Section 6, Township 23 South, Range 26 East, Lake County, Florida. The applicant proposes to mitigate for take of the sand skinks by purchasing 6.2 credits from a Service-approved Conservation Bank. The Service would require the applicant to make this purchase prior to engaging in activities associated with the project.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant’s project, including land clearing, infrastructure building, landscaping, and the proposed mitigation measure, would individually and cumulatively have a minor or negligible effect on sand skinks and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and the HCP is low effect under our NEPA regulations at 43 CFR 46.205 and 46.210. A low-effect HCP is one that would result in (1) minor or negligible effects on

federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and, (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result in significant cumulative effects to environmental values or resources over time.

Next Steps

The Service will evaluate the application and the comments received to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding findings, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number TE 56402D-0 to Summergate Development, LLC.

Authority

The Service provides this notice under section 10(c) (16 U.S.C. 1539(c)) of the ESA and NEPA regulation 40 CFR 1506.6.

Jay Herrington,

Field Supervisor, Jacksonville Field Office, South Atlantic-Gulf & Mississippi-Basin Regions.

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Alabama Beach Mouse, City of Orange Beach, Baldwin County, AL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from Brett Real Estate Robinson Development Company, Inc. (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally listed Alabama beach mouse incidental to construction in the City of Orange Beach, Baldwin County,

Alabama. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP) and the Service's preliminary determination that this HCP qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

DATES: We must receive your written comments on or before February 18, 2020

ADDRESSES:

Obtaining Documents: Documents are available for public inspection by appointment during regular business hours at either of the following locations:

- Atlanta Regional Office, Ecological Services, U.S. Fish and Wildlife Service, 1875 Century Boulevard, Atlanta, GA 30345.
- Alabama Ecological Services Office, U.S. Fish and Wildlife Service, 1208 Main Street, Daphne, Alabama.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so by either of the following methods. Please reference TE48280D-0 in all comments.

- *U.S. mail:* You may mail comments to the Fish and Wildlife Service's Atlanta Regional Office.

- *Hand-delivery:* You may hand-deliver comments to the Fish and Wildlife Service's Atlanta or Alabama Office.

- *Email:* You may email comments to david_dell@fws.gov. Please include your name and email address in your email.

If you do not receive an email from us confirming that we received your message, contact us directly at either telephone number in **FOR FURTHER INFORMATION CONTACT**.

FOR FURTHER INFORMATION CONTACT:

David Dell, Regional HCP and Safe Harbors Coordinator, at the Atlanta Regional Office (see **ADDRESSES**) or by telephone at 404-679-7313, or William Lynn, Project Manager, at the Alabama Ecological Services Office (see **ADDRESSES**) or by telephone at 251-441-5868. If you use a telecommunications device for the deaf (TDD), please call the Federal Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service, announce receipt of an application from Brett Real Estate Robinson Development Company, Inc. (applicant) for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests to take the federally listed

Alabama beach mouse (*Peromyscus polionotus ammobates*) incidental to the construction of two condominium towers and amenities (project) in the City of Orange Beach, Baldwin County, Alabama. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP) and the Service's preliminary determination that this HCP qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4231 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

Project

The applicant requests a 50-year ITP to take Alabama beach mouse (ABM) incidental to the conversion of approximately 0.45 acres (ac) of the species' occupied habitat for the construction of two condominium towers (192 units) and amenities on a 5.80-ac parcel in Baldwin County, Alabama. A condominium was previously located on the parcel but was destroyed in 2004 by Hurricane Ivan. The parcel was left fallow, and 1.90 ac of ABM habitat re-formed on the site. The applicant proposes to implement standard minimization and mitigation measures to mitigate take of the species. The measures include installing and utilizing sea turtle friendly lighting and tinted windows, landscaping with native vegetation, enhancing the frontal dune area, and constructing driveways with materials that will not disperse in a storm surge. The applicant also will implement refuse control measures during construction and require that future residents continue such implementation. Another measure is restoration of ABM habitat after tropical storms. Free roaming cats and the use of exterior rodenticide would be prohibited within the development. There also will be monitoring of the on-site ABM population via fall and spring trapping surveys (twice a year) over a period of 5 years. Condominium owners would be required to pay an annual fee of \$201 per unit over the 50-year term of the ITP. The City of Orange Beach set up a mitigation fund in which fees would be held and used for habitat acquisition, predator control, and/or improvement of Alabama beach mouse habitat elsewhere within the City of Orange Beach limits.
