USMEPCOM, with headquarters in North Chicago, Ill., is a joint service command staffed with civilians and military from all five branches of service. The command, through its network of 65 Military Entrance Processing Stations, determines whether applicants are qualified for enlistment based on standards set by each of the services. USMEPCOM Regulation 601–23, Enlistment Processing, directs the information collection requirement for all 65 Military Entrance Processing Stations (MEPS) to obtain timely feedback on MEPS core processes. This web-based tool will allow MEPS to efficiently administer voluntary surveys on a routine basis to their primary customer, the applicants, for military service. This information collection requirement is necessary to aid the MEPS in evaluating effectiveness of current policies and core processes, identifying unmet customer needs, and allocating resources more efficiently.
