SUPPLEMENTARY INFORMATION: The Department of Energy (DOE) regulates exports of electricity from the United States to a foreign country, pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 7172(f)). Such exports require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On December 21, 2009, DOE issued Order EA-275-B, which authorized NorthPoint to transmit electric energy from the United States to Canada as a power marketer for a ten-year term using existing international transmission facilities appropriate for open access. The authorization expires on April 7, 2020. On December 20, 2019, NorthPoint filed an application (Application or App.) with DOE for renewal of the export authorization contained in Order No. EA-275-B for an additional ten-year term.

NorthPoint states that it “is a wholly owned subsidiary of SaskPower, a Provincial Crown corporation of the Government of Saskatchewan, Canada” and that “SaskPower is engaged in the generation of power from predominantly thermal sources and the transmission, distribution, and sale of such power to wholesale and retail customers within Saskatchewan.” *Id.* At 2. NorthPoint further states that “[a]ny power purchased by NorthPoint for export to Canada will be surplus to the needs of the entities selling power to NorthPoint.” *Id.* at 4. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after DOE determines that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.
