Forest Service

Proposed New Fee Sites

AGENCY: USDA, Forest Service.

ACTION: Notice of proposed fee increase and new fee sites.

SUMMARY: The Bridger-Teton National Forest is proposing to add two campgrounds and one guard station as fee sites. The campgrounds are currently in use by the public but had improvements made in the past years that justify a standard amenity fee. The proposed rental cabin is not open to the public currently, but would provide a recreation opportunity that is not currently offered in the area. A review of visitor use data and fee collection information for existing fee campgrounds and rental cabins on the Forest demonstrate public need and demand for the variety of recreation opportunities these facilities provide.

DATES: Comments will be accepted through February 1, 2020. New fees would go into effect May 2020; if possible.

ADDRESSES: Cindy Stein, Forest Recreation Program Manager, P.O. Box 419, Pinedale, WY 82941, or email to cindy.stein@usda.gov with “BT Recreation Fee Proposal” as the subject line. Comments will be taken until February 1, 2020.

FOR FURTHER INFORMATION CONTACT: Cindy Stein, Forest Recreation Program Manager, (307) 367–5717. Information about proposed fee changes can also be found on the Bridger-Teton National Forest website: <http://www.fs.usda.gov/btnf>.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108–447) directed the Secretary of Agriculture to publish a six month advance notice in the **Federal Register** whenever new recreation fee areas are established. A market analysis indicates that the proposed fees are both reasonable and acceptable for the type of recreation experience they provide.

The fees are only proposed at this time, and will be determined upon further analysis and public comment. The following campgrounds and guard stations are included in this proposal for new fees:

Site name	Ranger district	Current fee	Proposed fee
Middle Piney Lake Campground	Big Piney	\$10.00
Willow Lake Campground	Pinedale	10.00
Sagebrush Cowboy Cabin	Blackrock	40.00

Improvements have been made at all sites in the last 5 years including: Water system updates, new vault toilets, bear-resistant food storage and trash receptacles, and new flooring, windows, stoves, refrigerators, furniture, and heaters at guard stations. The proposed fees will provide for the increased operational costs, and continued operation and maintenance of the campgrounds and guard stations on all Districts. Fees collected from these sites will also be used for enhancing the recreation experience at the sites.

Once public involvement is complete, these new fees will be reviewed by a Recreation Resource Advisory Committee prior to a final decision and implementation. People wishing to reserve these cabins would need to do so through the National Recreation Reservation Service, at www.recreation.gov or by calling 1-877-444-6777 when it becomes available.

Dated: December 6, 2019.

Mary E. Farnsworth,

Acting Associate Deputy Chief, National Forest System.

SUPPLEMENTARY INFORMATION:

Title: Agricultural Surveys Program.
OMB Control Number: 0535-0213.

Expiration Date of Approval: June 30, 2020.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare and issue State and national estimates of crop and livestock production, prices and disposition as well as economic statistics, farm numbers, land values, on-farm pesticide usage, pest crop management practices, as well as the Census of Agriculture. The Agricultural Surveys Program contains a series of surveys that obtains basic agricultural data from farmers, ranchers, and feedlots throughout the Nation for preparing agricultural estimates and forecasts of crop acreage, yield, and production; stocks of grains and soybeans; hog and pig numbers; sheep inventory and lamb crop; cattle inventory; cattle on feed; grazing fees; and land values. Uses of the statistical information collected by these surveys are extensive and varied. Producers, farm organizations, agribusinesses, commodity exchanges, State and national farm policy makers, and government agencies are important

users of these statistics. Agricultural statistics are used to plan and administer other related Federal and State programs in such areas as consumer protection, conservation, foreign trade, education, and recreation.

In December 2019, OMB approved a non-substantive change request to modify the Agricultural Land Value survey and the June Area Survey to make the land value questions easier for the respondents to complete. In the next three year cycle the only significant change being proposed to the surveys included in this docket will be in 2021 where NASS plans to add additional questions to the January Sheep and Goat Survey, and the Cattle Report to include questions regarding predator loss issues. These additional questions are being included under a cooperative agreement between NASS and the USDA, Animal and Plant Health Inspection Service (APHIS).

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 Public Law 104-13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320. NASS also complies with OMB Implementation Guidance, "Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA)," **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Public reporting burden for this collection of information will range from 5 to 30 minutes per response.

Respondents: Farmers, Ranchers and Feed Lots.

Estimated Number of Respondents: 510,000.

Estimated Total Annual Burden on Respondents: 175,000 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
