The total estimated case value remained \$3 billion.

This transmittal reports the inclusion of an additional five (5) AE1107C Rolls Royce engines and twenty (20) 629F-23 Multi-Band radios (both non-MDE) and includes the extension of the sustainment that will support annual cases to fund manpower through Other Technical Assistance (OTA), Engineering Technical Assistance (ETA), Logistic Technical Assistance (LTA), and Contractor Engineering Technical Support (CETS).

The addition of these items and sustainment costs will result in a net increase in non-MDE value of \$1 billion. The total estimated MDE cost will remain \$1.8 billion. The total case value will increase to \$4 billion.

(iv) Significance: This proposed equipment and sustainment will

support Japan's continued modernization of its transport fleet to better support its defense and special mission needs.

POLICY JUSTIFICATION

Argentina—Support for EDA P-3C Aircraft

The Government of Argentina has requested a possible sale of equipment, support and services in support of Argentina's EDA purchase of four (4) P-3C aircraft, including four (4) turboprop engines on each airframe and an additional four (4) turboprop engines. The proposed sale will include communications equipment; radar equipment; Infrared /Electro-optic equipment; aircraft depot maintenance; depopulation and repopulation; supply support/spares and repair of repairables; support equipment; publications; training; aviation life support systems; aircraft transportation; logistical and other technical assistance, and other related elements of logistical and program support. The total estimated program cost is \$78.032 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of a partner in South America.

Argentina's existing P-3B patrol aircraft have reached the end of their operational service life. To maintain maritime security, Argentina acquired four EDA P-3C aircraft to replace its older aircraft. These EDA aircraft need this refurbishment and equipment to be fully operational. It is vital to the U.S. national interest to assist Argentina in developing and maintaining a strong and ready self-defense maritime patrol aircraft capability. Argentina will have no difficulty absorbing these aircraft into its armed forces.

The proposed sale of this equipment will not alter the basic military balance in the region.

The prime contractors will be Logistic Services International, Jacksonville, FL;

Lockheed Martin Aircraft Center, Greenville, SC; Eagle Systems, Jacksonville, FL; and Rockwell Collins, Cedar Rapids, IA. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require the temporary assignment of approximately 12 U.S. contractor representatives to Argentina to support the program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
