The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with

a collection of information subject to the PRA that does not display a valid OMB control number.

Nature and Extent of Confidentiality: Confidentiality concerns are not relevant to these types of disclosures. The Commission is not requesting carriers or providers to submit confidential information to the Commission. If the Commission requests that carriers or providers submit information which they believe is confidential, the carriers or providers may request confidential treatment of their information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission established a plan to ensure that payphone service providers (PSPs) were compensated for certain non-coin calls originated from their payphones. As part of this plan, the Commission required that by October 7, 1997, local exchange carriers were to provide payphone-specific coding digits to PSPs, and that PSPs were to provide those

digits from their payphones to interexchange carriers. The provision of payphone-specific coding digits was a prerequisite to payphone per-call compensation payments by IXC to PSPs for subscriber 800 and access code calls. The Commission's Wireline Competition Bureau subsequently provided a waiver until March 9, 1998, for those payphones for which the necessary coding digits were not provided to identify calls. The Bureau also on that date clarified the requirements established in the Payphone Orders for the provision of payphone-specific coding digits and for tariffs that LECs must file pursuant to the Payphone Orders.
