BILLING CODE 4140-01-P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. CISA-2019-0017]

Notice of the President's National Infrastructure Advisory Council Meeting

AGENCY: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

ACTION: Announcement of meeting; request for comments.

SUMMARY: CISA announces a public meeting of the President's National Infrastructure Advisory Council (NIAC). To facilitate public participation, CISA invites public comments on the agenda items and any associated briefing materials to be considered by the council at the meeting.

DATES:

Meeting Registration: Individual registration to attend the meeting in person is required and must be received no later than 5:00 p.m. EST on February 18, 2020.

Speaker Registration: Individuals may register to speak during the meeting's public comment period must be received no later than 5:00 p.m. EST on February 18, 2020.

Written Comments: Written comments must be received no later than 5:00 p.m. EST on February 21, 2020.

NIAC Meeting: The meeting will be held on Friday, February 28, 2020 from 2:00 p.m.-4:00 p.m. HST.

ADDRESSES: The NIAC meeting will be held at 1001 Bishop Street, Honolulu, HI 96813.

Comments: Written comments may be submitted on the issues to be considered by the NIAC as described in the **SUPPLEMENTARY INFORMATION** section below and any briefing materials for the meeting. Any briefing materials that will be presented at the meeting will be made publicly available on Friday, February 21, 2020 at the following website: <https://www.dhs.gov/national-infrastructure-advisory-council>.

Comments identified by docket number "CISA-2019-0017" may be submitted by any of the following methods:

- *Federal eRulemaking Portal:* www.regulations.gov. Follow the

instructions for submitting written comments.

- *Email:* NIAC@hq.dhs.gov. Include docket number CISA-2019-0017 in the subject line of the message.

- *Fax:* 703-235-9707, ATTN: Ginger K. Norris.

- *Mail:* Ginger K. Norris, Designated Federal Officer, National Infrastructure Advisory Council, Cybersecurity and Infrastructure Security Agency, Department of Homeland Security, 245 Murray Lane, Mail Stop 0612, Arlington, VA 20598-0612.

Instructions: All submissions received must include the agency name and docket number for this notice. All written comments received will be posted without alteration at www.regulations.gov, including any personal information provided. For detailed instructions on sending comments and additional information on participating in the upcoming NIAC meeting, see the "PUBLIC PARTICIPATION" heading of the **SUPPLEMENTARY INFORMATION** section of this document.

Docket: For access to the docket and comments received by the NIAC, go to www.regulations.gov.

FOR FURTHER INFORMATION CONTACT:

Ginger K. Norris, 202-441-5885, ginger.norris@cisa.dhs.gov.

SUPPLEMENTARY INFORMATION: The NIAC is established under Section 10 of E.O. 13231 issued on October 16, 2001. Notice of this meeting is given under the Federal Advisory Committee Act (FACA), 5 U.S.C. Appendix (Pub. L. 92-463). The NIAC shall provide the President, through the Secretary of Homeland Security, with advice on the security and resilience of the Nation's critical infrastructure sectors.

The NIAC will meet in an open meeting on February 28, 2020, to discuss the following agenda items with DHS leadership.

Agenda

- I. Call to Order
- II. Opening Remarks
- III. Discussion on Previous NIAC Studies
- IV. Public Comment
- V. New NIAC Business
- VI. Closing Remarks
- VII. Adjournment

Public Participation

Meeting Registration Information

Due to additional access requirements and limited seating, requests to attend in person will be accepted and processed in the order in which they are received. Individuals may register to attend the NIAC meeting by sending an email to NIAC@hq.dhs.gov.

Public Comment

While this meeting is open to the public, participation in FACA deliberations are limited to council members. A public comment period will be held during the meeting from approximately 3:00 p.m.-3:15 p.m. HST. Speakers who wish to comment must register in advance and can do so by emailing NIAC@hq.dhs.gov no later than Friday, February 21, 2019, at 5:00 p.m. EST. Speakers are requested to limit their comments to three minutes. Please note that the public comment period may end before the time indicated, following the last call for comments.

Information on Services for Individuals With Disabilities

For information on facilities or services for individuals with disabilities or to request special assistance at the meeting, contact NIAC@hq.dhs.gov as soon as possible.

Dated: January 15, 2020.

Ginger K. Norris,

Designated Federal Official National Infrastructure Advisory Council, Cybersecurity and Infrastructure Security Agency, Department of Homeland Security.

BILLING CODE 9110-9P-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-R3-ES-2019-0100; FXES1113030000-190-FF03E00000]

Endangered and Threatened Wildlife and Plants; Draft Recovery Plan for the Rusty Patched Bumble Bee

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability and request for public comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of the draft recovery plan for rusty patched bumble bee for public review and comment. We request review and comment on this draft recovery plan from local, State, and Federal agencies, and the public.

DATES: We must receive comments by February 24, 2020.

ADDRESSES: *Document availability:* The draft recovery plan, along with any comments and other materials that we receive, will be available for public inspection at <http://www.regulations.gov> in Docket No. FWS-R3-ES-2019-0100.

Submitting Comments: You may submit comments by one of the following methods:

- **Internet:** <http://www.regulations.gov>. Search for and submit comments on Docket No. FWS-R3-ES-2019-0100.

- **U.S. mail or hand-delivery:** Public Comments Processing, Attn: Docket No. FWS-R3-ES-2019-0100; U.S. Fish and Wildlife Service Headquarters, MS: JAO/1N; 5275 Leesburg Pike; Falls Church, VA 22041-3803.

For more information, see Availability of Public Comments under

SUPPLEMENTARY INFORMATION.

FOR FURTHER INFORMATION CONTACT:

Tamara Smith, by phone at 952-252-0092, via email at tamara_smith@fws.gov, or via the Federal Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the availability of the draft recovery plan for the endangered rusty patched bumble bee (*Bombus affinis*) for public review and comment. The draft recovery plan includes objective, measurable criteria and management actions as may be necessary for removal of the species from the Federal List of Endangered and Threatened Wildlife. We request review and comment on this draft recovery plan from local, State, and Federal agencies, and the public.

Recovery Planning

Section 4(f) of the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531 *et seq.*), requires the development of recovery plans for listed species, unless such a plan would not promote the conservation of a particular species. Also pursuant to section 4(f) of the Act, a recovery plan must, to the maximum extent practicable, include (1) a description of site-specific management actions as may be necessary to achieve the plan's goals for the conservation and survival of the species; (2) objective, measurable criteria that, when met, would support a determination under section 4(a)(1) that the species should be removed from the List of Endangered and Threatened Species; and (3) estimates of the time and costs required

to carry out those measures needed to achieve the plan's goal and to achieve intermediate steps toward that goal.

Species Background

Historically, the rusty patched bumble bee was broadly distributed across the eastern United States and Upper Midwest, from Maine in the United States and southern Quebec and Ontario in Canada, south to the northeast corner of Georgia, reaching west to the eastern edges of North and South Dakota (Figure 1; USFWS 2016, p. 49). Survival and successful recruitment require floral resources (for food) from early spring through fall, undisturbed nest sites in proximity to foraging resources, and overwintering sites for the next year's queens. Prior to listing (in 2017), the species experienced a widespread and precipitous decline. The cause of the decline is unknown, but evidence suggests a synergistic interaction between an introduced pathogen and exposure to pesticides (specifically, insecticides and fungicides; USFWS 2016, p. 53). The remaining populations of rusty patched bumble bee are exposed to a number of interacting stressors, including pathogens, pesticides, habitat loss and degradation, managed bees, the effects of climate change, and small population biology (USFWS 2016, p. 40). These stressors likely operate independently and in combination, causing synergistic effects. Refer to the Species Status Assessment Report (USFWS 2016) for a full discussion of the species' biology and threats. Under the Act, the Service published a final rule to add the rusty patched bumble bee to the Federal List of Endangered and Threatened Wildlife as an endangered species on January 11, 2017 (82 FR 3186). The final rule took effect on February 10, 2017.

Recovery Criteria

The draft recovery criteria are summarized below. For a complete description of the rationale behind the criteria, the recovery strategy, management actions, and estimated time and costs associated with recovery, refer to the Draft Recovery Plan for

Rusty Patched Bumble Bee (see **ADDRESSES** for document availability).

The ultimate recovery goal is to remove the rusty patched bumble bee from the Federal List of Endangered and Threatened Wildlife ("delist") by ensuring the long-term viability of the species in the wild. In the recovery plan, we define the following criteria for reclassification ("downlisting" from endangered to threatened) and delisting based on the best available information on the species.

Downlisting Criteria

Criterion 1: A minimum of 159 populations distributed across 5 Conservation Units, as specified in the table below.

Criterion 2: A minimum number of healthy populations within each Conservation Unit, as specified in the table below.

For recovery purposes, a healthy population will be demonstrated by:

2.1 Consistent detection of at least 5 distinct colonies over the most recent 10 years. Individual colonies may be identified through genetic analyses or by using the number of individuals detected (if proven, through research, to be a reliable method). All 5 colonies do not need to be detected in each of the 10 years but must be detected in multiple years.

2.2 Evidence of genetic health over the most recent 10 years. Genetic health must be demonstrated by at least two genetic metrics (*e.g.*, effective population size, heterozygosity, and allelic richness).

2.3 Pathogen and pesticide loads are below levels that could cause meaningful loss of reproductive capacity of the population.

2.4 A high level of certainty—demonstrated via a rigorous analysis—that the population will persist given stressors and environmental variation.

Criterion 3: Population clusters are distributed across a diversity of habitat types, aspects, slopes, elevations, and latitudes within each Conservation Unit. A population cluster is two or more healthy populations that are adjacent to each other.

RUSTY PATCHED BUMBLE BEE CONSERVATION UNITS (CU), TOTAL NUMBER OF HISTORICALLY OCCUPIED POPULATIONS PER CONSERVATION UNIT, MINIMUM NUMBER OF POPULATIONS PER CONSERVATION UNIT (DOWNLISTING CRITERION 1), AND THE MINIMUM NUMBER OF HEALTHY POPULATIONS PER CONSERVATION UNIT (DOWNLISTING CRITERION 2)

Conservation Unit	Number of historically occupied populations per CU	Minimum number of populations per CU (Criterion 1)	Minimum number of healthy populations per CU (Criterion 2)
CU1: Upper West	274	32	16
CU2: Lower West	125	14	7
CU3: Midwest	347	40	20
CU4: Southeast	250	29	14
CU5: Northeast	389	45	22
Total	1,385	159	80

Delisting Criteria

Criterion 1: Downlisting criteria 1, 2, and 3 have been met.

Criterion 2: Mechanisms are in place that provide a high level of certainty that downlisting Criteria 1, 2, and 3 will continue to be met into the foreseeable future.

In achieving delisting Criterion 2, Conservation Unit-specific mechanisms should ensure:

2.1 Population abundance, numbers, and distribution will be maintained at the levels required to meet downlisting criteria,

2.2 Sufficient quality and quantity of suitable habitat will be maintained, and

2.3 The negative effects of the primary threats (including but not limited to pathogens, pesticides, climate change, and managed bees) will be managed.

Availability of Public Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Lori Nordstrom,

Assistant Regional Director, Ecological Services, Midwest Region.

Endangered and Threatened Wildlife and Plants; Draft Recovery Plan for the Dakota Skipper

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability and request for public comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of the draft recovery plan for the threatened Dakota skipper for public review and comment. We request review and comment on this draft recovery plan from local, State, and Federal agencies, and the public.

DATES: In order to be considered, comments must be received on or before February 24, 2020.

ADDRESSES:

Document availability: You may obtain a copy of the draft recovery plan by one of the following methods:

- *U.S. mail:* U.S. Fish and Wildlife Service; Minnesota-Wisconsin Ecological Services Field Office, Attention: Peter Fasbender; 4101 American Blvd. East, Bloomington, MN 55425.

- *Telephone:* Peter Fasbender, 952-252-0092.

- *internet:* Download the document at the Service's Midwest Region website at <https://www.fws.gov/midwest/Endangered/insects/dask/index.html>.

Comment submission: You may submit comments by one of the following methods:

- *Mail or hand-delivery:* Submit written comments to the above U.S. mail address.

- *Fax:* 952-646-2873, Attention: Peter Fasbender. Please include "Dakota Skipper DRP" in the subject line.

- *Email:* peter_fasbender@fws.gov. Please include "Dakota Skipper DRP" in the subject line.

For additional information about submitting comments, see Availability of Public Comments in **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Peter Fasbender, by one of the methods in **ADDRESSES**.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the availability of the draft recovery plan for the threatened Dakota skipper (*Hesperia dacotae*) for public review and comment. The draft recovery plan includes objective, measurable criteria and management actions as may be necessary for removal of the species from the Federal List of Endangered and Threatened Wildlife. We request review and comment on this draft recovery plan from local, State, and Federal agencies, and the public.

Recovery Planning

Section 4(f) of the Endangered Species Act of 1973, as amended (Act; 16 U.S.C. 1531 *et seq.*), requires the development of recovery plans for listed species, unless such a plan would not promote the conservation of a particular species. Also pursuant to section 4(f) of the Act, a recovery plan must, to the maximum extent practicable, include (1) a description of site-specific management actions as may be necessary to achieve the plan's goals for the conservation and survival of the species; (2) objective, measurable criteria that, when met, would support a determination under section 4(a)(1) that the species should be removed from the List of Endangered and Threatened Species; and (3) estimates of the time and costs required to carry out those measures needed to achieve the plan's goal and to achieve intermediate steps toward that goal.

The Service has revised its approach to recovery planning. The revised process is intended to reduce the time
