**BILLING CODE 4410-18-P**

**DEPARTMENT OF JUSTICE**

**Notice of Lodging of Proposed Consent Decree Under the Clean Air Act**

On January 21, 2020, the Department of Justice lodged a proposed consent decree with the United States District Court for the District of Colorado in the lawsuit entitled *United States of America and the State of Colorado v. K.P. Kauffman Company, Inc.*, Civil Action No. 1:18-cv-02559-RBJ.

The lawsuit seeks injunctive relief and civil penalties for violations of the Clean Air Act, the Colorado Air Pollution Prevention and Control Act (“Colorado Act”), Colorado’s federally approved State Implementation Plan (“Colorado SIP”), and Colorado Air Quality Control Commission Regulation Number 7 (“Regulation No. 7”) at condensate tank systems (referred to in the consent decree as “tank systems”) owned and operated by K.P. Kauffman Company, Inc. (“KPK”) in the Denver-Julesburg Basin in Colorado, an area designated as non-attainment for the National Ambient Air Quality Standards for ground-level ozone. The violations relate to alleged failures to adequately design, operate, and maintain vapor control systems at the tank systems, resulting in emissions of volatile organic compounds (“VOC”) and other pollutants to the atmosphere.

The proposed consent decree requires KPK to implement injunctive relief at 67

condensate tank systems to ensure that its vapor control systems adequately capture and control potential VOC emissions. The consent decree design, inspection, and preventative maintenance measures are intended to result in substantial reductions in VOC emissions from KPK tank systems throughout Colorado’s Denver-Julesburg Basin. In addition to injunctive relief, the proposed Consent Decree requires KPK to pay a \$1 million civil penalty, split evenly between the United States and the State of Colorado, and to undertake projects to mitigate environmental harm. Entering into and fully complying with the proposed consent decree will release KPK from past civil liability at the tank systems and associated vapor control systems for violations of the Colorado SIP and Regulation No. 7 relating to VOC emissions from condensate storage tanks.

The publication of this notice opens a period for public comment on the consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States, et al. v. K.P. Kauffman Company, Inc.*, D.J. Ref. No. 90-5-2-1-11478. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

To submit comments:	Send them to:
By email .....	<i>pubcomment-ees.enrd@usdoj.gov.</i>
By mail .....	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

During the public comment period, the consent decree may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. We will provide a paper copy of the consent decree upon written request and payment of reproduction costs.

Please mail your request and payment to: Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

Please enclose a check or money order for \$31.25 (25 cents per page reproduction cost) payable to the United States Treasury.

**Jeffrey Sands,**  
*Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.*

**DEPARTMENT OF LABOR**

**Mine Safety and Health Administration**  
 [OMB Control No. 1219-0124]

**Proposed Extension of Information Collection; Health Standards for Diesel Particulate Matter Exposure (Underground Coal Mines)**

**AGENCY:** Mine Safety and Health Administration, Labor.

**ACTION:** Request for public comments.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments on the information collection for Health Standards for Diesel Particulate Matter Exposure (Underground Coal Mines).

**DATES:** All comments must be received on or before March 27, 2020.

**ADDRESSES:** You may submit comment as follows. Please note that late, untimely filed comments will not be considered.

**Electronic Submissions:** Submit electronic comments in the following way:

- **Federal eRulemaking Portal:** <https://www.regulations.gov>. Follow the instructions for submitting comments for docket number MSHA–2019–0049. Comments submitted electronically, including attachments, to <https://www.regulations.gov> will be posted to the docket, with no changes. Because your comment will be made public, you are responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as your or anyone else's Social Security number or confidential business information.

- If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission.

**Written/Paper Submissions:** Submit written/paper submissions in the following way:

- **Mail/Hand Delivery:** Mail or visit DOL–MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452.

- MSHA will post your comment as well as any attachments, except for information submitted and marked as confidential, in the docket at <https://www.regulations.gov>.

**FOR FURTHER INFORMATION CONTACT:**

Sheila McConnell, Director, Office of Standards, Regulations, and Variances, MSHA, at [MSHA.information.collections@dol.gov](mailto:MSHA.information.collections@dol.gov) (email); (202) 693–9440 (voice); or (202) 693–9441 (facsimile).

**SUPPLEMENTARY INFORMATION:**

**I. Background**

Section 103(h) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 813(h), authorizes MSHA to collect information necessary to carry out its duty in protecting the safety and health of miners. Further, section 101(a) of the Mine Act, 30 U.S.C. 811, authorizes the Secretary of Labor to develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal and metal and nonmetal mines.

MSHA establishes standards and regulations for diesel-powered equipment in underground coal mines

that provide additional important protection for coal miners who work on and around diesel-powered equipment. The standards are designed to reduce the risks to underground coal miners of serious health hazards that are associated with exposure to high concentrations of diesel particulate matter. The standards in sections 72.510(a) & (b), and 72.520(a) & (b) contain information collection requirements for underground coal mine operators.

Section 72.510(a) requires underground coal mine operators to provide annual training to all miners who may be exposed to diesel emissions. The training must include: Health risks associated with exposure to diesel particulate matter; methods used in the mine to control diesel particulate concentrations; identification of the personnel responsible for maintaining those controls; and actions miners must take to ensure that controls operate as intended. Under Section 72.510(b) underground coal mine operators are required to keep a record of the training for one year.

Section 72.520(a) and (b) requires underground coal mine operators to maintain an inventory of diesel powered equipment units together with a list of information about any unit's emission control or filtration system. The list must be updated within 7 calendar days of any change.

**II. Desired Focus of Comments**

MSHA is soliciting comments concerning the proposed information collection related to Health Standards for Diesel Particulate Matter Exposure (Underground Coal Mines). MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Background documents related to this information collection request are

available at <https://regulations.gov> and in DOL–MSHA located at 201 12th Street South, Suite 4E401, Arlington, VA 22202–5452. Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice from the previous collection of information.

**III. Current Actions**

This information collection request concerns provisions for Health Standards for Diesel Particulate Matter Exposure (Underground Coal Mines). MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request from the previous information collection request.

**Type of Review:** Extension, without change, of a currently approved collection.

**Agency:** Mine Safety and Health Administration.

**OMB Number:** 1219–0124.

**Affected Public:** Business or other for-profit.

**Number of Respondents:** 164.

**Frequency:** On occasion.

**Number of Responses:** 55,980.

**Annual Burden Hours:** 710 hours.

**Annual Respondent or Recordkeeper Cost:** \$24.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the proposed information collection request; they will become a matter of public record and will be available at <https://www.reginfo.gov>.
