PART 91—MIGRATORY BIRD HUNTING AND CONSERVATION STAMP CONTEST

■ 1. The authority citation for part 91 continues to read as follows:

Authority: 5 U.S.C. 301; 16 U.S.C. 718j; 31 U.S.C. 9701.

■ 2. Revise § 91.14(b) to read as follows:

§ 91.14 Restrictions on subject matter for entry.

(b) *Mandatory waterfowl hunting components.* In addition to the restrictions set forth in paragraph (a) of this section, designs will also be required to include appropriate waterfowl hunting-related accessories or elements celebrating the Federal Duck Stamp's long-standing connection as part of our Nation's waterfowl hunting heritage and the contributions to conservation made by waterfowl hunters. Designs may include, but are not limited to, hunting dogs, hunting scenes, hunting equipment, waterfowl decoys, managed waterfowl areas as the background of habitat scenes, or other designs that represent our waterfowl hunting heritage. The design chosen will clearly meet the theme of "celebrating our waterfowl hunting heritage."

RIN 0648-BJ38

Fisheries of the Northeastern United States; Implementing Permitting and Reporting for Private Recreational Tilefish Vessels

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes regulations to implement permitting and reporting measures for private recreational tilefish vessels that were approved in Amendment 6 to the Tilefish Fishery Management Plan. These measures are being implemented after the other management measures in Amendment 6 because of additional time needed for development. The intended effect of this action is to notify private recreation tilefish vessels of the proposed changes and to solicit public comment on these measures.

DATES: Comments must be received on or before February 28, 2020.

ADDRESSES: You may submit comments, identified by NOAA-NMFS-2020-005, by either of the following methods:

- *Electronic Submissions:* Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#/docketDetail;D=NOAA-NMFS-2020-005, click the "Comment Now!" icon, complete the required fields, and enter or attach your comments.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are part of the public record and will generally be posted to www.regulations.gov without change. SUPPLEMENTARY INFORMATION:**Background**

On November 15, 2017, we announced our approval of all the measures proposed by the Mid-Atlantic Fishery Management Council in the Amendment 6 to the Tilefish Fishery Management Plan (FMP) final rule (82 FR 52851). The final rule implemented most, but not all, of the measures in the amendment. The amendment implemented management measures and quotas for the previously unregulated blueline tilefish fishery in the Mid-Atlantic region and additional information and analysis on these measures are provided in the EA (see **ADDRESSES**). We also approved, but did not implement, Mid-Atlantic Council recommended measures to better characterize and monitor the recreational fisheries for both blueline tilefish and golden tilefish. Angler intercepts for these species are rare events and are poorly captured by the Marine Recreational Information Program (MRIP). Amendment 6 measures included a new Federal permit for private recreational fishing vessels to target or retain blueline or golden tilefish, as well as mandatory reporting requirements for these vessels. These measures required additional

time for development, prior to implementation.

Proposed Permitting and Reporting Requirements

We are proposing regulations to require private recreational vessels to obtain a Federal vessel permit to fish for or a retain golden or blueline tilefish in the Mid-Atlantic, which are permitting and reporting requirements recommended by the Council and approved as part of Amendment 6.

This action does not impact the regulations for party/charter vessels and will apply to anglers using a personal vessel, to fish for and/or obtain blueline and golden tilefish. Retained fish may only be kept for personal consumption and may not be sold or bartered. We would issue this permit through an online application on the Greater Atlantic Regional Fisheries Office (GARFO) website. GARFO would issue and renew private recreational tilefish permits annually. Private recreational tilefish vessels would also be required to submit vessel trip reports (VTRs) for any trip targeting tilefish through any NMFS-approved electronic reporting system. There are several platforms to submit electronic reports including SAFIS eTrips, SAFIS eTrips Online, and Fish Online. Fish Online is the simplest system and is the preferred method to submit reports. Users can create an account by calling (978) 281-9188 or emailing the GARFO Helpdesk at *nmfs.gar.helpdesk@noaa.gov*. Fish Online can be accessed via a computer, phone, and/or tablet, and we intend to conduct outreach and education to minimize burden and confusion with filling out the VTRs. Private recreational vessels targeting tilefish may keep a paper log to keep records while out at sea, to be submitted electronically within 24 hours of returning to port. The 24-hour submission requirement is proposed to coincide with the requirement for Highly Migratory Species permit holders because we expect there to be some overlap between the two groups. We would like comments on the suitability of the proposed timeframe for submission of the VTRs.

Classification

Pursuant to section 304(b)(1)(A) of the Magnuson-Stevens Act, the NMFS Assistant Administrator has determined that this proposed rule is consistent with the Tilefish FMP, other provisions of the Magnuson-Stevens Act, and other applicable law, subject to further consideration after public comment.

This proposed rule has been determined to be not significant for purposes of Executive Order 12866.

This proposed rule is not an Executive Order 13771 regulatory action, because this rule is not significant under Executive Order 12866.

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration (SBA) that the measures approved in Amendment 6 to the Tilefish FMP, would not have a significant economic impact on a substantial number of small entities. Private recreational anglers are not considered small entities. As a result, an initial regulatory flexibility analysis is not required for this action and none has been prepared.

This proposed rule contains two revisions to existing collection-of-information requirements subject to review and approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act (PRA). NMFS has submitted these requirements to OMB for approval under control number 0648-0202 and 0648-0212.

The public reporting burden for initial private recreational tilefish permit applications is estimated to average 45 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Public reporting burden for private recreational tilefish vessel trip reports is estimated to average five minutes per response. Written comments regarding the burden-hour estimates or other aspects of the collection-of-information requirements contained in this proposed rule may be submitted to Greater Atlantic Regional Fisheries Office and by email to *OIRA_Submission@omb.eop.gov*, or fax to (202) 395-7285.

Notwithstanding any other provision of the law, no person is required to respond to, and no person shall be subject to penalty for failure to comply with, a collection of information subject to the requirements of the PRA, unless that collection of information displays a currently valid OMB Control Number.
