SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on October 22, 2019 (84 FR 56472). No comments were received.

We are again soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the BIA; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the BIA enhance the quality, utility, and clarity of the information to be collected; and (5) how might the BIA minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire

comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Congress passed legislation specifically addressing oil and gas leasing on Osage lands and requiring Secretarial approval of leases. See 34 Stat. 543, section 3, as amended. The regulations at 25 CFR 226 implement that statute by specifying what information a lessee must provide related to drilling, development, and production of oil and gas on Osage reservation land. The oil, gas, and land are assets that the United States holds in trust or restricted status for Indian beneficiaries. The information collections in 25 CFR 226 are necessary to ensure that the beneficial owners of the mineral rights are provided the royalties due them, ensure that the oil and gas trust assets are protected, and to ensure that the surface estate assets are protected.

Title of Collection: Leasing of Osage Reservation lands for Oil and Gas Mining.

OMB Control Number: 1076–0180.

Form Number: N/A.

Type of Review: Request for extension of a currently approved collection.

Notice of Availability of the Record of Decision for the Keystone XL Pipeline, Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969 (NEPA), as amended, the Bureau of Land Management (BLM) has prepared a Record of Decision. This Record of Decision is for a right-of-way for the portions of the Keystone XL Pipeline project that cross BLM and U.S. Army Corps of Engineers (USACE) lands in Montana. By this notice, the BLM is announcing the availability of the Record of Decision.

DATES: The Secretary of the Department of the Interior signed the Record of Decision on January 22, 2020.

ADDRESSES: Copies of the Record of Decision are available at the Montana/Dakotas State Office, 5001 Southgate Drive, Billings, MT 59101, or may be viewed online at: <https://go.usa.gov/xdacn>.

FOR FURTHER INFORMATION CONTACT: Jim Stobaugh, National Project Manager, BLM Nevada State Office, at telephone: (775) 861–6478, email: jstobaugh@blm.gov, or at the above mailing address or website. Persons who use a telecommunications device for the deaf

(TDD) may call the Federal Relay Service (FRS) at 1–800–877–8339 to contact Mr. Stobaugh during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: In September 2008, Keystone filed with the United States Department of State an initial application for a Presidential Permit to construct, operate, maintain, and (eventually) decommission the Keystone XL Pipeline to transport crude oil across the U.S./Canada border near Morgan, Montana, and then from Cushing, Nebraska, and then from Cushing, Oklahoma, to locations along the Texas Gulf of Mexico. The original application for Presidential Permit was amended and resubmitted on May 4, 2012 to modify the Project description to: (1) Avoid the Sand Hills Region in Nebraska; and (2) remove the southern segment of the Project from Cushing, Oklahoma, to the Gulf Coast area.

In addition to its application to the Department of State, Keystone also filed a right-of-way application in March 2008 under Section 28 of the Mineral Leasing Act of 1920, as amended, with the BLM. The right-of-way application was revised by Keystone in September 2012 and 2014 to reflect changes in the Project description. In November 2015, the Presidential Permit was denied. Due to the denial, Keystone requested to withdraw their right-of-way application with the BLM in February 2016.

In January 2017, Keystone refiled their application for a Presidential Permit with the Department of State. In February 2018, Keystone filed a revised right-of-way application and updated Plan of Development (POD) with the BLM to reinitiate processing their right-of-way application. In January 2020, Keystone updated the POD and reflected the most recent data on the project and clarifies minor route adjustments.

The BLM responded to Keystone's right-of-way application on Federal lands administered by the BLM and USACE to construct, operate, maintain, and (eventually) decommission the Project in compliance with the Mineral Leasing Act, BLM right-of-way regulations (43 CFR 2880), and other applicable Federal laws, regulations, and policies. The only Federal lands involved in this Project are BLM and USACE administered lands in the State of Montana. The State Department has been the Lead Federal Agency for the purposes of NEPA, and BLM and the USACE have been Cooperating Agencies from the beginning of this project.
