

**DEPARTMENT OF TRANSPORTATION****Federal Railroad Administration****[Docket Number FRA–2020–0008]****Petition for Waiver of Compliance**

Under part 211 of title 49 Code of Federal Regulations (CFR), this provides the public notice that on January 10, 2020, CSX Transportation, Inc. (CSXT) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 232, *Brake System Safety Standards for Freight and Other Non-Passenger Trains and Equipment; End-of-Train Devices*. FRA assigned the petition Docket Number FRA–2020–0008.

Specifically, CSXT proposes to use proprietary software technology to implement a virtual three-dimensional simulation as an alternative to satisfy the “hands-on” portion of periodic refresher training required by 49 CFR 232.203(b)(8). Refresher training is required at intervals not to exceed 3 years, and must consist of classroom and hands-on training, as well as testing. CSXT states that the simulation will improve the employee’s knowledge of air brake components and functions and increases proficiency when performing the Class I freight air brake test.

The simulation is based on performance of a Class I freight air brake test and is designed to place the user in a virtual realistic scenario. The user is required to perform a variety of inspection and remediation tasks relating to preprogrammed defects including, but not limited to, closed cut-out cocks, uncoupled air hoses, closed angle cocks, improperly positioned retainer valves, and fouled brake rigging. Users are required to successfully complete all tasks in the scenario. CSXT proposes to apply this waiver system-wide to all CSXT conductors and supervisors responsible for performing Class I freight air brakes tests.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) and in person at the U.S. Department of Transportation’s (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE, W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or

comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

**DEPARTMENT OF TRANSPORTATION****Federal Railroad Administration****[Docket Number FRA–2007–27287]****Petition for Waiver of Compliance**

Under part 211 of title 49 of the Code of Federal Regulations (CFR), this provides the public notice that by letter received January 18, 2020, BNSF Railway (BNSF) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance contained in Docket Number FRA–2007–27287.

Specifically, BNSF seeks a second extension of relief from the 2-year periodic testing requirements in §§ 236.377, *Approach locking*; 236.378, *Time locking*; 236.379, *Route locking*; 236.380, *Indication locking*; and 236.381, *Traffic locking*.

BNSF states that since the original waiver approval, 95.2% of all eligible locations across BNSF’s network have been enrolled in this waiver program and received waiver-based locking tests on the extended schedule with no issues. BNSF is confident that by using this method, it has reduced the amount of disruption to signal circuits and operations while spending less time foul of track. Leveraging the benefits of technology and reducing the opportunity for human failure yields additional safety benefits, making this BNSF’s desired method for performing these tests.

BNSF requests to extend the waiver indefinitely. BNSF states it will maintain the testing procedures and testing interval as outlined in the waiver. BNSF further asks to eliminate the requirement to submit to FRA an annual updated listing of the eligible locations, because BNSF has already enrolled the substantial majority of eligible locations.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) and in person at the Department of Transportation’s Docket Operations Facility, 1200 New Jersey Ave. SE, W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they
