### Federal Management Regulation (FMR); Utility Services

**AGENCY:** Office of Government-wide Policy (OGP), General Services Administration (GSA).

**ACTION:** Final rule.

**SUMMARY:** GSA is issuing a final rule to amend the Federal Management Regulation (FMR) part regarding utility services. The rule clarifies the authority an agency must have in order to procure utility services and describes in detail agencies' responsibilities concerning the procurement of such services. To better direct agencies that operate under a utility service delegation from GSA, the rule adds a reference to the section of the Federal Acquisition Regulation (FAR) that addresses the acquisition of utility services and other procurement guidance. Additionally, the rule clarifies responsibilities for the Department of Defense and the Department of Energy for compliance.

#### SUPPLEMENTARY INFORMATION:

#### I. Background

A proposed rule was published in the *Federal Register* on August 13, 2019 (84 FR 39994). The proposed rule expanded “Subpart A—General Provisions” to

better align with other parts of the FMR and clarified language in subpart B regarding agency authority and responsibilities. None of the proposed changes elicited any objections during the public comment period. In fact, only one public comment was received in response to the proposed rule, which was not germane. As a result, there were no changes made to the final rule from the published proposed rule.

This final rule amends the FMR to both clarify the scope of this part and the authority an agency must have to procure utility services by pointing the reader to the appropriate parts of the FAR that relate to the acquisition of utility services. It also clarifies the responsibilities of agencies, the Department of Defense, and the Department of Energy for compliance.

#### II. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule is a significant regulatory action and was subject to review under Section 6(b) of E.O. 12866. It is not a major rule under 5 U.S.C. 804.

#### III. Executive Order 13771

This final rule is not subject to the requirements of E.O. 13771 (82 FR 9339, February 3, 2017) because it is related to agency organization, management, or personnel.

#### IV. Regulatory Flexibility Act

This final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* This final rule is also exempt from the Regulatory Flexibility Act pursuant to 5 U.S.C. 553(a)(2) because it applies to agency management.

#### V. Paperwork Reduction Act

This final rule does not contain any information collection requirements that require the approval of the Office of

Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

### VI. Small Business Regulatory Enforcement Fairness Act

This final rule is exempt from Congressional review under 5 U.S.C. 801 since it relates solely to agency management and personnel.
