Abstract: Section 10(j) of the Endangered Species Act of 1973, as amended (ESA, 16 U.S.C. 1531 *et seq.*), authorizes the Secretary of the Interior to establish experimental populations of endangered or threatened species. Because the ESA protects individuals of experimental populations, the information we collect is important for monitoring the success of reintroduction and recovery efforts. This is a nonform collection (meaning there is no designated form associated with this collection). Regulations at 50 CFR 17.84 contain information collection requirements for experimental populations of vertebrate endangered and threatened species. These
