

as amended (the Act).² On October 16, 2019, Commerce received a timely notice of intent to participate from Bio-Lab, Inc., Clearon Corp., and Occidental Chemical Corporation (domestic interested parties).³ Each of the companies claimed interested party status under section 771(9)(C) of the Act, as domestic producers of chlorinated isocyanurates. On October 31, 2019, Commerce received a timely and adequate substantive response from the domestic interested parties.⁴

On November 22, 2019, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties.⁵ As a result, pursuant to 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce conducted an expedited (120-day) sunset review of the CVD order on chlorinated isocyanurates from China.

Scope of the Order

The products covered by the order are chlorinated isocyanurates. For a full description of the scope, see the Issues and Decision Memorandum.⁶

Analysis of Comments Received

A complete discussion of all issues raised in this sunset review, including the likelihood of continuation or recurrence of a countervailable subsidy and the net countervailable subsidy rates likely to prevail if the *Order* were to be revoked, is provided in the accompanying Issues and Decision Memorandum, which is hereby adopted by this notice. A list of the topics discussed in the Issues and Decision Memorandum is attached as an Appendix to this notice.

The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized

Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>, and in the Central Records Unit, Room B8024 of the main Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Final Results of Sunset Review

Pursuant to sections 751(c)(1) and 752(b) of the Act, Commerce determines that revocation of the CVD order on chlorinated isocyanurates from China would be likely to lead to the continuation or recurrence of a countervailable subsidy at the rates listed below:

Producer/exporter	Net subsidy rate (percent)
Hebei Jiheng Chemicals Co., Ltd	22.45
Juancheng Kangtai Chemical Co., Ltd	2.59
All Others	10.81

Notification Regarding Administrative Protective Order (APO)

This notice also serves as the only reminder to parties subject to an APO of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

We are issuing and publishing these results in accordance with sections 751(c), 752(b), and 777(i)(1) of the Act and 19 CFR 351.218.

Dated: January 28, 2020.

Fresh Tomatoes From Mexico: Notification of Implementation of Inspection Program

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce

DATES: Applicable February 4, 2020.

SUMMARY: The Department of Commerce (Commerce) hereby notifies the public and members of the trade community of the implementation of the inspection program established by Section VII.C of the 2019 Agreement Suspending the Antidumping Duty Investigation on Fresh Tomatoes from Mexico (2019 Suspension Agreement).

Implementation of the Section VII.C inspection program will begin 60 days from the date of publication of this notice. Beginning 60 days from the date of publication of this notice, certain fresh tomatoes from Mexico shall be subject to a United States Department of Agriculture (USDA) inspection for quality and condition defects.

SUPPLEMENTARY INFORMATION:

Background

On September 19, 2019, Commerce and signatory producers/exporters accounting for substantially all imports of fresh tomatoes from Mexico signed the 2019 Suspension Agreement.¹ Section VII.C of the 2019 Suspension Agreement states: "Beginning approximately (and no less than) six months from the Effective Date of the Agreement, all loads of subject merchandise, as specified in paragraph 2 of this section, shall be subject to a USDA inspection for quality and condition defects near the border after entering the United States. Commerce will consult with USDA on the development and implementation of the inspection program. The trade community will have at least 60 days'

advance notice prior to implementation of the inspection program.²

Scope of Agreement

See Section I, Product Coverage, of the 2019 Suspension Agreement.

Notification

Consistent with the 2019 Suspension Agreement, this **Federal Register** notice provides 60 days' advance notice prior to the implementation of the inspection program, which has been developed by USDA, in consultation with Commerce, as specified in the 2019 Suspension Agreement. The inspection program, as outlined in Section VII.C of the 2019 Suspension Agreement, will begin 60 days from the date of publication of this notice. Beginning 60 days from the date of publication of this notice, all Fresh Tomatoes from Mexico, with the exception of Tomatoes on the Vine, Specialty tomatoes, and grape tomatoes in retail packages of 2 pounds or less, shall be subject to a USDA inspection for quality and condition defects consistent with Section VII.C of the 2019 Suspension Agreement, and in accordance with USDA procedures as determined by USDA.³ (See Section II of the 2019 Suspension Agreement for definitions of certain terms in the preceding sentence.)

As provided in the 2019 Suspension Agreement, importers of tomatoes subject to inspection must request the USDA inspection and pay the associated USDA fees.⁴ USDA will perform inspections (an unrestricted certification) in accordance with its normal practice to determine quality, condition, and grade pursuant to the appropriate USDA standard covering fresh tomatoes and greenhouse tomatoes and using shipping point tolerances.⁵ After the USDA inspection, the importer will receive an inspection certificate, which must be maintained by the importer and is subject to submission to, and verification by, Commerce, consistent with the importer's contractual obligation with the Signatory.⁶ If a lot of Signatory tomatoes has more defects than the tolerances established in the USDA standards, then the importer may opt either to

recondition and re-inspect the lot, or return it to Mexico, consistent with the requirements of the 2019 Suspension Agreement.⁷

Dated: January 30, 2020.

[Docket No.: 200113-0015]

National Cybersecurity Center of Excellence (NCCoE) Data Confidentiality Building Block

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice.

SUMMARY: The National Institute of Standards and Technology (NIST) invites organizations to provide products and technical expertise to support and demonstrate security platforms for two data confidentiality projects within the Data Confidentiality Building Block. The two projects are Data Confidentiality: Identifying and Protecting Assets and Data Against Data Breaches and Data Confidentiality: Detect, Respond to, and Recover from Data Breaches. This notice is the initial step for the National Cybersecurity Center of Excellence (NCCoE) in collaborating with technology companies to address cybersecurity challenges identified under the Data Confidentiality Building Block. Participation in the building block is open to all interested organizations and organizations may participate in one or both data Confidentiality projects.

DATES: Interested parties must contact NIST to request a letter of interest template to be completed and submitted to NIST. Letters of interest will be accepted on a first come, first served basis. Parties interested in participating in both data confidentiality projects must submit a separate letter of interest for each data confidentiality project. Collaborative activities will commence as soon as enough completed and signed letters of interest have been returned to address all the necessary components and capabilities, but no earlier than March 5, 2020. When the building block has been completed, NIST will post a

notice announcing the completion of the building block and informing the public that it will no longer accept letters of interest for this building block on the NCCoE Data Confidentiality Building Block website at https://www.nccoe.nist.gov/projects/building-blocks/data-security/dc-detect-identify-protect_forDataConfidentiality: Identifying and Protecting Assets and Data Against Data Breaches, and at https://www.nccoe.nist.gov/projects/building-blocks/data-security/dc-detect-respond-recoverfor_DataConfidentiality: Detect, Respond to and Recover from Data Breaches.

ADDRESSES: The NCCoE is located at 9700 Great Seneca Highway, Rockville, MD 20850. Letters of interest must be submitted to ds-nccoe@nist.gov or via hardcopy to National Institute of Standards and Technology, NCCoE; 9700 Great Seneca Highway, Rockville, MD 20850. Organizations whose letters of interest are accepted in accordance with the process set forth in the **SUPPLEMENTARY INFORMATION** section of this notice will be asked to sign a separate consortium Cooperative Research and Development Agreement (CRADA) with NIST for each Data Confidentiality Building Block project. An NCCoE consortium CRADA template can be found at: <http://nccoe.nist.gov/node/138>.

FOR FURTHER INFORMATION CONTACT: Jennifer Cawthra via email to Jennifer.Cawthra@nist.gov; by telephone 240.328.4584; or by mail to National Institute of Standards and Technology, NCCoE; 9700 Great Seneca Highway, Rockville, MD 20850. Additional details about the Data Confidentiality Building Block are available at <https://www.nccoe.nist.gov/projects/building-blocks/data-security>.

SUPPLEMENTARY INFORMATION:

Background: The NCCoE, part of NIST, is a public-private collaboration for accelerating the widespread adoption of integrated cybersecurity tools and technologies. The NCCoE brings together experts from industry, government, and academia under one roof to develop practical, interoperable cybersecurity approaches that address the real-world needs of complex Information Technology (IT) systems. By accelerating dissemination and use of these integrated tools and technologies for protecting IT assets, the NCCoE will enhance trust in U.S. IT communications, data, and storage systems; reduce risk for companies and individuals using IT systems; and encourage development of innovative, job-creating cybersecurity products and services.
