Among the changes, the background under Objective 2: *Improve the Safety, Health, and Well-Being of Workers with Non-Standard Work Arrangements*, was expanded to include additional survey data, discussion of holding multiple jobs simultaneously, and the connection between non-standard work arrangements and chronic opioid use. The research gaps were revised and expanded accordingly. The Council also clarified that interactions among research strategies aiming to address individual objectives are encouraged even when not explicitly noted as a means to identify and address solutions at the intersections of the objectives. SUPPLEMENTARY INFORMATION:

Description: The ACF Office of Planning, Research, and Evaluation is proposing a new information collection. The information collection activities are part of the Formative Evaluation of Family Unification Program (FUP) Vouchers for Youth Transitioning Out of Foster Care. The purpose of the request is to conduct information collection activities, which consist of an online survey of FUP liaisons from agencies and organizations serving transition-age youth in foster care and site visits to selected agencies and organizations that have allocated a significant number of FUP vouchers to youth. During site visits, staff from the Urban Institute and Chapin Hall at the University of Chicago will interview agency and program leaders, frontline staff, and participants. The information collection also includes collection of administrative data from sites selected for visits. This descriptive work will capture how FUP for youth has been administered on the ground, how eligible youth are identified and referred by the public child welfare agency (PCWA), barriers to obtaining a voucher or leasing-up into housing, what public housing authorities (PHAs) and public child welfare agencies have done to streamline the application process, and other aspects of program operations. The activities and products from this project will help ACF to fulfill its ongoing legislative mandate for program evaluation specified in the Foster Care Independence Act of 1999.

Respondents: PCWA and PHA agency administrators, program managers/FUP liaisons, front-line staff, and young adults being served by FUP.
