POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records are indexed by name of Veteran, social security number, unique patient identifiers.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records are under the following records schedule; Record Control Schedule (RCS) 10–1 item 6270. Master Files within a centralized database; Temporary; cutoff at the last unique patient entry or the death of a particular patient. Delete 75 years after cutoff. (N1–015–05–1, Item 1). Backup Files; Temporary; delete when master files have been deleted or replaced with a subsequent backup file. (N1–015–05–1, Item 3).

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

1. Data transmissions between VA healthcare facilities and the VA SCI/D National Program Office protected network folders. The SCI/D–Repository program and other programs at the respective facilities automatically flag records or events for transmission based upon functionality requirements. VA healthcare facilities control access to data by using VHA’s VistA and Computerized Patient Record System (CPRS) security modules. The Department’s Telecommunications Support Service has oversight responsibility for planning, security, and management of the wide area network.

2. Access to records at VA healthcare facilities is only authorized to VA personnel on a “need-to-know” basis. Records are maintained in staffed rooms during working hours. During nonworking hours, there is limited access to the building with visitor control by security personnel. Access to the National Program Office staff is generally restricted to SCI/D staff, VA Central Office employees, custodial personnel, Federal Protective Service, and authorized operational personnel through electronic locking devices. All other persons gaining access to the computer rooms are escorted. Backup records stored off-site for both the National Program Office and VA Central

Office are safeguarded in secured storage areas.

3. Strict control measures are enforced to ensure that access to and disclosure from all records including electronic files and Veteran-specific data elements are limited to VHA employees whose official duties warrant access to those files. The automated record system recognizes authorized users by keyboard entry of unique passwords, access, and verify codes.

RECORD ACCESS PROCEDURE:

An individual who seeks access to records maintained under his or her name may write or visit the Program Office in which requests for services were made, the nearest VA facility, or write to the Chief Consultant, Spinal Cord Injury and Disorders Services (128N), 1660 South Columbian Way, Seattle, Washington 98108.
