DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2020-0079; Airspace
Docket No. 19-AGL-30]

RIN 2120-AA66

Proposed Amendment of Class E Airspace; Baraboo and Boscobel, WI

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking
(NPRM).

SUMMARY: This action proposes to amend the Class E airspace extending upward from 700 feet above the surface at Reedsburg Municipal Airport, Reedsburg, WI, contained within the Baraboo, WI, airspace legal description, and Boscobel Airport, Boscobel, WI. The FAA is proposing these actions as the result of airspace reviews caused by the decommissioning of the Lone Rock VHF omnidirectional range (VOR) navigation aid, which provided navigation information for the instrument procedures at these airports, as part of the VOR Minimum Operational Network (MON) Program. The name and geographic coordinates of Baraboo-Wisconsin Dells Regional Airport, Baraboo, WI, and geographic coordinates of Boscobel Airport would also be updated to coincide with the FAA's aeronautical database. Airspace redesign is necessary for the safety and management of instrument flight rules (IFR) operations at these airports.

DATES: Comments must be received on or before March 26, 2020.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590; telephone (202) 366-9826, or (800) 647-5527. You must identify FAA Docket No. FAA-2020-0079; Airspace Docket No. 19-AGL-30, at the beginning of your comments. You may also submit comments through the internet at <https://www.regulations.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in

person in the Dockets Office between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend the Class E airspace extending upward from 700 feet above the surface at Reedsburg Municipal Airport, Reedsburg, WI, and Boscobel Airport, Boscobel, WI, to support IFR operations at these airports.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2020-0079; Airspace Docket No. 19-AGL-30." The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at <https://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at https://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11D, Airspace Designations and Reporting Points, dated August 8, 2019, and effective September 15, 2019. FAA Order 7400.11D is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11D lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by:

Amending the Class E airspace extending upward from 700 feet above the surface to within a 6.5-mile radius (decreased from a 9.6-mile radius) of Reedsburg Municipal Airport, Reedsburg, WI; amending the extension to the south of the airport to extend to 10.8 miles (increased from 10.5 miles); adding an extension 2 miles each side of the 330° bearing from TUSME extending from the 6.5-mile radius of Reedsburg Municipal Airport to 5.6 miles northwest of TUSME; and updating the name and geographic coordinates of Baraboo-Wisconsin Dells Regional Airport (previously Baraboo Wisconsin Dells Airport), Baraboo, WI, to coincide with the FAA's aeronautical database;

And amending the Class E airspace extending upward from 700 feet above the surface to within a 6.7-mile radius (increased from a 6.3-mile radius) of Boscobel Airport, Boscobel, WI; adding an extension 1 mile each side of the 247° bearing from the airport extending from the 6.7-mile radius to 6.8 miles southwest of the airport; and updating the geographic coordinates of the airport to coincide with the FAA's aeronautical database.

These actions are the result of airspace reviews caused by the decommissioning of the Lone Rock VOR, which provided navigation information for the instrument procedures at these airports, as part of the VOR MON Program.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11D, dated August 8, 2019, and effective September 15, 2019, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air

traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

West Virginia Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule; public comment period and opportunity for public hearing on proposed amendments.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSMRE), are announcing receipt of proposed amendments to the West Virginia regulatory program (hereinafter, the West Virginia program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). Through these proposed amendments, West Virginia seeks to revise its program to amend its statutory and regulatory provisions that involve blasting and make organizational changes within the West Virginia Department of Environmental Protection (WVDEP).

DATES: We will accept written comments on these amendments until 4:00 p.m., Eastern Standard Time (e.s.t.), March 11, 2020. If requested, we will hold a public hearing on the amendments on March 6, 2020. We will accept requests to speak at a hearing until 4:00 p.m., e.s.t. on February 25, 2020.

ADDRESSES: You may submit comments, identified as SATS No. WV–123–FOR, by any of the following methods:
