

7. *Effect of Withdrawal of an Application Meeting the Preconditions of Eligibility.* If the application is withdrawn by the applicant or considered withdrawn by OSHA, the NRTL would be required to immediately cease performing SNAP activities at the SNAP sites that were listed in the withdrawn application and met the preconditions of eligibility. While the NRTL could still apply to have these sites included in the NRTL's scope of recognition, OSHA would follow normal site expansion procedures, including the conduct of on-site assessments, for any such applications.

8. *Effect of the Revision of an Application Meeting the Preconditions of Eligibility.* If the applicant revises the application to remove from the application individual SNAP sites listed in the application, the NRTL would be permitted to continue to perform SNAP activities only at those SNAP sites that remain in the application and meet the preconditions of eligibility. The applicant would be required to immediately cease performing SNAP activities at SNAP sites no longer in the application. While the NRTL could still apply for recognition of any sites removed from the application, OSHA would follow normal site expansion procedures, including the conduct of on-site assessments, for any such applications.

9. *Effect of Final Decision on Application Meeting the Preconditions of Eligibility.* Once a final decision is made regarding the capability of a SNAP site to operate as a NRTL-recognized site, this decision would be published in the **Federal Register**, upon which time the NRTL would be required to immediately cease performing SNAP activities at the SNAP sites that were listed in the application and met the preconditions of eligibility.

10. *Termination of the SNAP Entirely.* A NRTL would be required to cease performing SNAP activities at existing SNAP sites that were listed in the application and met the preconditions of eligibility one year after the date of publication of the **Federal Register** notice announcing OSHA's final decision on this proposed policy. This would be the case even if OSHA does not issue a final decision on the NRTL's application by that date. The SNAP would be entirely terminated one year after the date of publication of the **Federal Register** notice announcing OSHA's final decision on this proposed policy.

11. *Potential Extension of SNAP Termination Date.* OSHA might, at the discretion of the agency, extend the SNAP termination date. OSHA notes

that it would not extend the termination date because final decisions on some applications could not be issued on a streamlined basis. OSHA would not be able to issue a final decision on a streamlined basis, for example, if it determines that it needs to conduct an on-site assessment or a negative finding is issued in connection with an application. An extension of the SNAP termination date based on these time-intensive issues would not be justified.

OSHA requests comment on this proposed policy. Comments should consist of pertinent written documents and exhibits. OSHA will review all comments submitted to the docket in a timely manner, and, after considering the issues raised by these comments, will make a recommendation to the Assistant Secretary for Occupational Safety and Health regarding this proposed policy for transitioning to the termination of SNAP, who will then make a final decision.

OSHA will publish a public notice of this final decision in the **Federal Register**.
