SUPPLEMENTARY INFORMATION: The U.S. Environmental Protection Agency (EPA) is amending the Engine and Vehicle Exemptions System (EV-ES) of records. The system name is being changed from EV-ES to the Engines and Vehicles—Compliance Information System (EV-CIS). EV-ES is a subsystem of the EV-CIS and is the only subsystem that stores personally identifiable information (PII). The location of the files has changed and are now stored in Research Triangle Park, NC. No other elements of the systems of records has changed.

The information collected in this system supports the Imports Exemptions program under the Clean Air Act (CAA) and implementing regulations codified in 40 CFR parts 85 and 1068. The CAA requires manufacturers of motor vehicles and engines to design and build vehicles that will comply with emissions standards throughout the vehicle's life span. EPA and Customs and Border Protection (CBP) regulations (40 CFR part 85 and 19 CFR 12.73) allow for individuals who are not residents of the United States and who reside outside of the United States to import on-highway vehicles that do not comply with U.S. emissions standards (e.g., cars, motorcycles or motor homes) for a period of up to one year for personal use. Applicants are required to provide their name, address, phone number or email and the vehicle identification number (VIN) as part of the application process in order for EPA to provide approval or denial letters to the requestors.

The information that will be maintained regarding program participants includes the vehicle owner's name, address, phone number, email address and vehicle identification number (VIN). The electronic information is contained in the EV-CIS system located in Research Triangle Park, North Carolina and paper files at EPA's National Vehicle and Fuel Emissions Laboratory in Ann Arbor, Michigan. Only contractor employees and EPA employees administering the program have access to the information contained in the database. Files containing personal information are kept in locked filing cabinets. Physical access to the filing cabinets is limited to authorized personnel employees with building key cards.
