Needs and Uses: The Licensing Management System (LMS) Form Schedule 303–S is used in applying for renewal of license for commercial or noncommercial AM, FM, TV, FM translator, TV translator, Class A TV, or Low Power TV, and Low Power FM broadcast station licenses. Licensees of broadcast stations must apply for renewal of their licenses every eight years. The Commission is revising this collection to reflect the adoption of a Report and Order (“R&O”) in MB Docket No. 17–105 and 12–202, FCC 19–67, In the Matter of Children’s Television Programming Rules; Modernization of Media Regulation Initiative, adopted and released on July 10, 2019. The R&O modernizes the children’s television programming rules in light of changes to the media landscape that have occurred since the rules were first adopted. Among other revisions, the R&O revises the children’s television programming rules to expand the Core Programming hours to 6:00 a.m. to 10:00 p.m.; modify the safe harbor processing guidelines for determining compliance with the

children’s programming rules; requires that broadcast stations air the substantial majority of their Core Programming on their primary program streams, but permit broadcast stations to air up to 13 hours per quarter of regularly scheduled weekly programming on a multicast stream; eliminates the additional processing guideline applicable to stations that multicast; and modify the rules governing preemption of Core Programming. In addition, the R&O eliminates the requirements that the reports include information describing the educational and informational purpose of each Core Program aired during the current reporting period and each Core Program that the licensee expects to air during the next reporting period; eliminating the requirement to identify the program guide publishers who were sent information regarding the licensee’s Core Programs; and streamlining the form by eliminating certain fields. The R&O also eliminates the requirement to publicize the Children’s Television Programming Reports.

Form No.: FCC Form 2100, Schedule A, FCC Form 301, FCC Form 2100, Schedule 301–FM.

Type of Review: Extension of a currently approved information collection.

Respondents: Business or other for-profit entities; Not for profit institutions; State, local or Tribal Government.

Number of Respondents and Responses: 3,090 respondents and 6,526 responses.

Estimated Time per Response: 1–6.25 hours.

Frequency of Response: One-time reporting requirement; On occasion reporting requirement; Third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in Sections 154(i), 303 and 308 of the Communications Act of 1934, as amended.

Total Annual Burden: 15,317 hours.
Annual Cost Burden: \$62,444,288.
Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: FCC Form 301 is used to apply for authority to construct a new commercial AM or FM broadcast station and to make changes to existing facilities of such a station. It may be used to request a change of a station's community of license by AM and non-reserved band FM permittees and licensees. In addition, FM licensees or permittees may request, by filing an application on FCC Form 301, upgrades on adjacent and co-channels, modifications to adjacent channels of the same class, and downgrades to adjacent channels. All applicants using this one-step process must demonstrate that a suitable site exists that would comply with allotment standards with respect to minimum distance separation and principal community coverage and that would be suitable for tower construction. For applicants seeking a community of license change through this one-step process, the proposed facility must be mutually exclusive with the applicant's existing facility, and the new facility must comply with the Commission's standards with respect to minimum distance separation and principal community coverage. Applicants availing themselves of this procedure must also attach an exhibit demonstrating that the proposed community of license change comports with the fair, efficient, and equitable distribution of radio service, pursuant to Section 307(b) of the Communications Act of 1934, as amended (the Act).

FCC Form 301 also accommodates commercial FM applicants applying in a Threshold Qualifications Window (TQ Window) for a Tribal Allotment. A commercial FM applicant applying in the TQ Window, who was not the original proponent of the Tribal Allotment at the rulemaking stage, must demonstrate that it would have qualified in all respects to add that particular Tribal Allotment for which it is applying. Additionally, a petitioner seeking to add a new Tribal Allotment to the FM Table of Allotments must file Form 301 when submitting its Petition for Rulemaking. The collection also accommodates applicants applying in a TQ Window for a Tribal Allotment that had been added to the FM Table of Allotments using the Tribal Priority under the "threshold qualifications" procedures.

Similarly, to receive authorization for commencement of Digital Television

(DTV) operations, commercial broadcast licensees must file FCC Form 2100, Schedule A for a construction permit. The application may be filed any time after receiving the initial DTV allotment and before mid-point in the applicant's construction period. The Commission will consider the application as a minor change in facilities. Applicants do not have to provide full legal or financial qualifications information.

In the first phase of the "Licensing and Management System" roll-out, Form 2100, Schedule A replaced FCC Form 301 only for the filing of full-service digital television construction permits. Subsequently, the Commission received OMB approval for FM Auxiliary Stations to transition from CDBS to LMS using Form 2100, Schedule 301-FM. FCC Form 301 is still being used through CDBS to apply for authority to construct a new full-service commercial AM or FM commercial broadcast station and to make changes to the existing facilities of such stations.

This collection also includes the third-party disclosure requirement of 47 CFR 73.3580. This rule requires applicants to provide local public notice, in a newspaper of general circulation published in a community in which a station is located, of requests for new or major changes in facilities and for changes of a station's community of license by AM and non-reserved band FM permittees and licensees. The local notice must be completed within 30 days of tendering the application and must be published at least twice a week for two consecutive weeks in a three-week period. A copy of the notice and the application must be placed in the station's public inspection file, pursuant to Section 73.3526.

FCC Form 2100, Schedule E requires applicants to certify compliance with certain statutory and regulatory requirements. Detailed instructions on the FCC Form 2100, Schedule E provide additional information regarding Commission rules and policies. FCC Form 2100, Schedule E is presented primarily in a “Yes/No” certification format. However, it contains appropriate places for submitting explanations and exhibits where necessary or appropriate. Each certification constitutes a material representation. Applicants may only mark the “Yes” certification when they are certain that the response is correct. A “No” response is required if the applicant is requesting a waiver of a pertinent rule and/or policy, or where the applicant is uncertain that the application fully satisfies the pertinent rule and/or policy. FCC Form 2100, Schedule E filings made to implement post-auction channel changes will be considered minor change applications. Federal Communications Commission.
