

clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another **Federal Register** document to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

**Abstract:** This ICR is for activities related to the implementation of the EPA's New Source Review (NSR) program, for the time period between November 1, 2020 and October 31, 2023, and renews the previous ICR. Title I, part C of the Clean Air Act (CAA or the Act)—“Prevention of Significant Deterioration,” and part D—“Plan Requirements for Nonattainment Areas,” require all states to adopt preconstruction review programs for new or modified stationary sources of air pollution. In addition, the provisions of section 110 of the Act include a requirement for states to have a preconstruction review program to manage the emissions from the construction and modification of any stationary source of air pollution to assure that the National Ambient Air Quality Standards are achieved and maintained. Tribes may choose to develop implementation plans to address these requirements.

Implementing regulations for these three programs are promulgated at 40 CFR 49.101 through 49.105; 40 CFR 49.151 through 49.173; 40 CFR 51.160 through 51.166; 40 CFR part 51, Appendix S; and 40 CFR 52.21 and 52.24. In order to receive a construction permit for a major new source or major modification, the applicant must conduct the necessary research, perform the appropriate analyses and prepare the permit application with documentation to demonstrate that their project meets all applicable statutory and regulatory NSR requirements. Specific activities and requirements are listed and described in the Supporting Statement for the ICR.

State, local, tribal, or federal reviewing authorities review permit applications and provide for public review of proposed projects and issue permits based on their consideration of all technical factors and public input. The EPA, more broadly, reviews a fraction of the total applications and

audits the state and local programs for their effectiveness. Consequently, information prepared and submitted by sources is essential for sources to receive permits, and for federal, state, and local environmental agencies to adequately review the permit applications and thereby properly administer and manage the NSR programs.

Information that is collected is handled according to EPA's policies set forth in title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (see 40 CFR part 2). See also section 114(c) of the Act.

**Form numbers:** 5900–246, 5900–247, 5900–248, 5900–340, 5900–341, 5900–342, 5900–343, 5900–344, 5900–367, 5900–368, 5900–369, 5900–370, 5900–371, 5900–372, 5900–390, and 5900–391.

**Respondents/affected entities:** Entities potentially affected by this action are those which must apply for and obtain a preconstruction permit under part C or D or section 110(a)(2)(C) of title I of the Act. In addition, state, local, and tribal reviewing authorities that must review permit applications and issue permits are affected entities.

**Respondent's obligation to respond:** Mandatory (see 40 CFR part 49, subpart C; 40 CFR part 51, subpart I; 40 CFR part 52, subpart A; 40 CFR part 124, subparts A and C).

**Estimated number of respondents:** 73,516 (total); 73,393 industrial facilities and 123 state, local, and tribal reviewing authorities.

**Frequency of response:** On occasion, as necessary.

**Total estimated burden:** 5,516,675 hours (per year). Burden is defined at 5 CFR 1320.03(b).

**Total estimated cost:** \$455,409,456 (per year). This includes \$3,847,266 annually in outsourced start-up costs for preconstruction monitoring.

**Changes in estimates:** There is no change in the hours in the total estimated respondent burden compared with the ICR currently approved by OMB because the estimated number of permits of each type has not changed. There is a slight increase in estimated costs as labor costs have been updated from 2016 to 2019 labor rates.

Dated: February 10, 2020.

## FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0862; FRS 16494]

### Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

**DATES:** Written PRA comments should be submitted on or before April 14, 2020. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

**ADDRESSES:** Direct all PRA comments to Nicole Ongele, FCC, via email [PRA@fcc.gov](mailto:PRA@fcc.gov) and to [Nicole.Ongele@fcc.gov](mailto:Nicole.Ongele@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** For additional information about the information collection, contact Nicole Ongele at (202) 418–2991.

**SUPPLEMENTARY INFORMATION:**

*OMB Control Number:* 3060–0862.

*Title:* Handling Confidential Information.

*Form Number:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit entities; Not-for-profit institutions; Federal Government; and State, Local, or Tribal Government.

*Number of Respondents and Responses:* 2,400 respondents; 2,400 responses.

*Estimated Time per Response:* 1–2 hours.

*Obligation to Respond:* Required to obtain or retain benefits. The statutory authority for this collection of information is contained in 5 U.S.C. 552(b)(4), 18 U.S.C. 1905, and 47 U.S.C. 154(i).

*Frequency of Response:* On occasion reporting requirement; recordkeeping and third party disclosure requirements.

*Total Annual Burden:* 4,300 hours.

*Total Annual Cost:* No Cost.

*Privacy Act Impact Assessment:* No impact(s).

*Nature of Extent of Confidentiality:* The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission's rules.

*Needs and Uses:* On August 4, 1998, the FCC released a *Report and Order* (R&O), Examination of Current Policy Concerning the Treatment of Confidential Information Submitted to the Commission, CG Docket No. 96–55. The R&O included a Model Protective Order (MPO) that is used, when appropriate, to grant limited access to information that the Commission determines should not be routinely available for public inspection. The party granted access to the confidential information materials must keep a written record of all copies made and provide this record to the submitted of the confidential materials upon request. This approach was adopted to facilitate the use of confidential materials under an MPO, instead of restricting access to materials. In addition, the FCC amended 47 CFR 0.459(b) to set forth the type of information that should be included when a party submits information to the Commission for which it seeks confidential treatment. This listing of types of information to be submitted was adopted to provide guidance to the public for confidentiality requests.
