Copies of available documents submitted to OMB may be obtained from Ms. Guido.

**SUPPLEMENTARY INFORMATION:** This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

## A. Overview of Information Collection

*Title of Information Collection:* Strategies for Removing the Regulatory Impediments to the Financing and Siting of Factory-Built Housing in American Communities.

*OMB Approval Number:* N/A.

*Type of Request (i.e., new, revision or extension of currently approved collection):* New collection.

*Form Number:* N/A.

*Description of the need for the information and proposed use:* To assess the cost-effectiveness of factory-built housing as a potential affordable housing option in urban and suburban communities, HUD seeks to better understand the regulatory barriers preventing or limiting the use of factory-built housing. This study is framed by the general research question: What are the main drivers or barriers to the financing, siting and development of factory-built housing systems in various communities? A significant portion of

the work of this study will involve identifying the types of barriers, their potential impact (or stringency), and their use in various communities. This process will involve research on several different communities in order to develop a typology of different barriers, catalog the community contexts where different barriers are more prevalent, and develop opportunity cost estimates of different barriers in different contexts. Information will be collected online and by telephone from local land use planning officials and manufacturers and dealers of factory-built housing to help determine the extent to which regulatory barriers limit the development of factory-built housing systems as an affordable housing option.

*Members of affected public:* This study will involve collecting information from two primary groups (1) Local land use planning officials (2) Manufacturers and dealers of factory-built housing.

*Estimated Number of Respondents:* 125. The objective of this study is to conduct in-depth telephone interviews with local land use planning officials on regulatory barriers to factory-built housing from a sample of 30 communities, for a total of 30 completed interviews. The study team anticipates contacting multiple individuals in the land use planning department from each sampled community to ascertain the targeted respondent. Therefore, the total estimated number of community respondents is estimated at 120 (*i.e.*, 4 persons per community). In-depth interviews will also be conducted with 5 manufacturers or dealers of factory-built housing.

*Estimated Time per Response:* 0.36 hours. The estimated time per response will vary depending on the respondent category (*e.g.*, informant vs. respondent) and may range from 5 to 45 minutes. In-depth interviews will not exceed 45 minutes. Across all study respondents, the average estimated time per response is 0.36 hours.

*Frequency of Response:* Once.

*Estimated Total Annual Burden Hours:* 45 hours.

*Estimated Total Annual Cost:* The only cost to respondents is that of their time estimated to be \$1,740.

*Respondent's Obligation:* Voluntary.

*Legal Authority:* The survey is conducted under Title 12, United States Code, Section 1701Z and Section 3507 of the Paperwork Reduction Act of 1995, 44, U.S.C., 35, as amended.

Information collection	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Cost
Outreach Efforts .....	90	1	90	0.21	19	\$36.65	\$696
In-Depth Interviews .....	30	1	30	0.75	22	36.65	806
In-Depth Interviews (Manufacturers/Dealers) .....	5	1	5	0.75	4	59.56	238
Total .....	125	1	125	0.36	45	38.67	1,740
