**Certain Corrosion-Resistant Steel Products From the People's Republic of China: Affirmative Preliminary Determination of Circumvention Involving Costa Rica**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (Commerce) preliminarily determines that imports of certain corrosion-resistant steel products (CORE) completed in Costa Rica, using hot-rolled steel (HRS) and/or cold-rolled steel (CRS) flat products manufactured in the People's Republic of China (China), are circumventing the antidumping duty (AD) and countervailing duty (CVD) orders on CORE from China.

**DATES:** Applicable February 18, 2020.

**FOR FURTHER INFORMATION CONTACT:** Ariela Garvett, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3609.

**SUPPLEMENTARY INFORMATION:****Background**

On August 12, 2019, Commerce self-initiated country-wide anti-circumvention inquiries of the *China CORE Orders*<sup>1</sup> covering Chinese-origin HRS and/or CRS exported to various countries, including Costa Rica, for completion into CORE and subsequently exported to the United States.<sup>2</sup> In the *Initiation Notice*, Commerce initiated the instant anti-circumvention inquiries based on available information and an

<sup>2</sup> The notice of initiation subsequently published in the *Federal Register* on August 21, 2019. See *Corrosion-Resistant Steel Products from the People's Republic of China: Initiation of Anti-Circumvention Inquiries on the Antidumping Duty and Countervailing Duty Orders*, 84 FR 43585 (August 21, 2019) (*Initiation Notice*) and accompanying Memorandum, "Certain Corrosion-Resistant Steel Products from the People's Republic of China: Initiation of Anti-Circumvention Inquiries on the Antidumping Duty and Countervailing Duty Orders," dated August 12, 2019.

analysis pursuant to section 781(b) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.225(h), to determine whether the importation of the Chinese-origin HRS or CRS substrate for completion into CORE in Costa Rica and subsequent exportation of that CORE to the United States constitutes circumvention of the *China CORE Orders*.

For a complete description of the record developed since the initiation of these inquiries, see the Preliminary Decision Memorandum.<sup>3</sup> A list of topics included in the Preliminary Decision Memorandum is included as Appendix I to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and to all parties in the Central Records Unit, Room B8024 of the main Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

**Scope of the Orders**

The products covered by these orders are certain flat-rolled steel products, either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickel- or iron-based alloys, whether or not corrugated or painted, varnished, laminated, or coated with plastics or other non-metallic substances in addition to the metallic coating. For a complete description of the scope of the orders, see the Preliminary Decision Memorandum.

**Scope of the Anti-Circumvention Inquiries**

These anti-circumvention inquiries cover CORE completed in Costa Rica from HRS or CRS substrate input manufactured in China and subsequently exported from Costa Rica to the United States (merchandise subject to these inquiries).

<sup>3</sup> See Memorandum, "Preliminary Decision Memorandum for the Anti-Circumvention Inquiries Involving Costa Rica of the Antidumping and Countervailing Duty Orders on Certain Corrosion-Resistant Steel Products from the People's Republic of China," dated concurrently with, and hereby adopted by, this notice (Preliminary Decision Memorandum).

**Methodology**

Commerce is conducting these anti-circumvention inquiries in accordance with section 781(b) of the Act and 19 CFR 351.225(h). Because an interested party (*i.e.*, Metas A.) did not cooperate to the best of its abilities in responding to Commerce's requests for information, we have based parts of our preliminary determination on the facts available, with adverse inferences, pursuant to sections 776(a) and (b) of the Act. For a full description of the methodology underlying Commerce's preliminary determination, see the Preliminary Decision Memorandum.

**Preliminary Finding**

As detailed in the Preliminary Decision Memorandum, we preliminarily determine that CORE completed in Costa Rica from HRS and/or CRS substrate sourced from China is circumventing the *China CORE Orders*. We therefore preliminarily determine that it is appropriate to include this merchandise within the *China CORE Orders* and to instruct U.S. Customs and Border Protection (CBP) to suspend liquidation of any entries of CORE from Costa Rica produced from HRS and/or CRS from China.

**Suspension of Liquidation**

As stated above, Commerce has made a preliminary affirmative determination that imports of CORE completed in Costa Rica, using HRS and/or CRS flat products manufactured in China, are circumventing the *China CORE Orders*. In accordance with 19 CFR 351.225(l)(2), Commerce will direct CBP to suspend liquidation and to require a cash deposit of estimated duties on unliquidated entries of CORE produced in Costa Rica, as appropriate, that were entered, or withdrawn from warehouse, for consumption on or after August 12, 2019, the date of initiation of the anti-circumvention inquiries. The suspension of liquidation instructions will remain in effect until further notice.

CORE produced in Costa Rica from HRS and/or CRS that is not of Chinese origin is not subject to these inquiries. However, imports of such merchandise are subject to certification requirements, and cash deposits may be required if the certification requirements are not satisfied. Accordingly, if an importer imports CORE from Costa Rica and claims that the CORE was not produced from HRS and/or CRS substrate manufactured in China, the importer and exporter are required to meet the certification and documentation requirements described in Appendices II, III, and IV, in order for cash deposits

pursuant to the *China CORE Orders* not to be required.

In the situation where no certification is provided for an entry, and AD/CVD orders from China therefore potentially apply to that entry, Commerce intends to instruct CBP to suspend liquidation of the entry and collect cash deposits at the rates applicable to the *China CORE Orders* (i.e., the AD rate established for the China-wide entity (199.43 percent) and the CVD rate established for the China all-others rate (39.05 percent)).<sup>4</sup>

Commerce preliminarily determines that the following company is not eligible for the certification process: Metas A. Additionally, exporters are not eligible to certify shipments of merchandise produced by Metas A. Further, importers of CORE from Costa Rica that is produced and/or exported by this ineligible company are similarly ineligible for the certification process with regard to those imports.

#### Verification

As provided in 19 CFR 351.307, Commerce intends to verify information relied upon in making its final determination.

#### Public Comment

Case briefs or other written comments may be submitted to the Assistant Secretary for Enforcement and Compliance no later than seven days after the date on which the final verification report is issued in these anti-circumvention inquiries, unless the Secretary alters the time limit. Rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than five days after the deadline date for case briefs.<sup>5</sup> Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in these anti-circumvention inquiries are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party's name, address, and telephone number, the number of participants, whether any participant is a foreign national, and a

list of the issues to be discussed. If a request for a hearing is made, Commerce intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington DC 20230 at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

#### International Trade Commission Notification

Commerce, consistent with section 781(e) of the Act, has notified the U.S. International Trade Commission (ITC) of this preliminary determination to include the merchandise subject to these anti-circumvention inquiries within the *China CORE Orders*. Pursuant to section 781(e) of the Act, the ITC may request consultations concerning Commerce's proposed inclusion of the merchandise subject to these inquiries. If, after consultations, the ITC believes that a significant injury issue is presented by the proposed inclusion, it will have 60 days from the date of notification by Commerce to provide written advice.

#### Notification to Interested Parties

This determination is issued and published in accordance with section 781(b) of the Act and 19 CFR 351.225(f).

Dated: February 7, 2020.

**Jeffrey I. Kessler,**

*Assistant Secretary for Enforcement and Compliance.*

##### Certification Requirements

If an importer imports certain corrosion-resistant steel products (CORE) from Costa Rica and claims that the CORE was not produced from hot-rolled steel and/or cold-rolled steel substrate (substrate) manufactured in the People's Republic of China (China), the importer is required to complete and maintain the importer

certification attached hereto as Appendix IV and all supporting documentation. Where the importer uses a broker to facilitate the entry process, it should obtain the entry number from the broker. Agents of the importer, such as brokers, however, are not permitted to make this certification on behalf of the importer.

The exporter is required to complete and maintain the exporter certification, attached as Appendix III, and is further required to provide the importer a copy of that certification and all supporting documentation.

For shipments and/or entries on or after August 12, 2019 through March 7, 2020, for which certifications are required, importers and exporters should complete the required certification within 30 days of the publication of this notice in the **Federal Register**. Accordingly, where appropriate, the relevant bullet in the certification should be edited to reflect that the certification was completed within the time frame specified above. For example, the bullet in the importer certification that reads: "This certification was completed at or prior to the time of Entry," could be edited as follows: "The imports referenced herein entered before March 8, 2020. This certification was completed on mm/dd/yyyy, within 30 days of the **Federal Register** notice publication of the preliminary determination of circumvention." Similarly, the bullet in the exporter certification that reads, "This certification was completed at or prior to the time of shipment," could be edited as follows: "The shipments/products referenced herein shipped before March 8, 2020. This certification was completed on mm/dd/yyyy, within 30 days of the **Federal Register** notice publication of the preliminary determination of circumvention. For such entries/shipments, importers and exporters each have the option to complete a blanket certification covering multiple entries/shipments, individual certifications for each entry/shipment, or a combination thereof.

For shipments and/or entries on or after March 8, 2020, for which certifications are required, importers should complete the required certification at or prior to the date of Entry and exporters should complete the required certification and provide it to the importer at or prior to the date of shipment.

The importer and Costa Rican exporter are also required to maintain sufficient documentation supporting their certifications. The importer will not be required to submit the certifications or supporting documentation to U.S. Customs and Border Protection (CBP) as part of the entry process at this time. However, the importer and the exporter will be required to present the certifications and supporting documentation, to Commerce and/or CBP, as applicable, upon request by the respective agency. Additionally, the claims made in the certifications and any supporting documentation are subject to verification by Commerce and/or CBP. The importer and exporter are required to maintain the certifications (the importer must retain both certifications) and supporting documentation for the later of: (1) A period of five years from the date of entry or (2) a period of three years

<sup>4</sup> See *China CORE Orders*, 81 FR at 48389 and 48393.

<sup>5</sup> See 19 CFR 351.309; see also 19 CFR 351.303 (for general filing requirements).

after the conclusion of any litigation in United States courts regarding such entries.

In the situation where no certification is provided for an entry, Commerce intends to instruct CBP to suspend liquidation of the entry and collect cash deposits at the rate applicable to the *CORE China Orders* (i.e., the AD rate established for the China-wide entity (199.43 percent) and the CVD rate established for China all-others rate (39.05 percent)).
