International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the International Trade Commission (ITC) of our final affirmative determination of sales at LTFV. Because the final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of subject merchandise from China no later than 45 days after our final determination. If the ITC determines that such injury does not exist, this proceeding will be terminated and all cash deposits posted will be refunded or canceled. If the ITC determines that such injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Notification Regarding Administrative Protective Order

This notice will serve as a reminder to the parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

Notification to Interested Parties

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act, and 19 CFR 351.210(c).

Scope of the Investigation

The merchandise covered by the scope of this investigation is alloy and certain carbon steel threaded rod. Alloy and certain carbon steel threaded rod are certain threaded rod, bar, or studs, of carbon or alloy steel, having a solid, circular cross section of any diameter, in any straight length. Alloy and certain carbon steel threaded rod are normally drawn, cold-rolled, threaded, and straightened, or it may be hot-rolled. In

addition, the alloy and certain carbon steel threaded rod, bar, or studs subject to this investigation are non-headed and threaded along greater than 25 percent of their total actual length. A variety of finishes or coatings, such as plain oil finish as a temporary rust protectant, zinc coating (i.e., galvanized, whether by electroplating or hotdipping), paint, and other similar finishes and coatings, may be applied to the merchandise. Alloy Steel threaded rod is normally produced to American Society for Testing and Materials (ASTM) specifications A193 B7/B7m, A193 B16, A320 L7/L7m, A320 L43, A354 BC and BD, and F1554 Grade 105. Other specifications are Society of Automotive Engineers (SAE) specification 1429 grades 5 and 8, International Organization for Standardization (ISO) specification 898 class 8.8 and 10.9, and Âmerican Petroleum Institute (API) specification 20E. Certain carbon steel threaded rod is normally produced to ASTM specification A449. All steel threaded rod meeting the physical description set forth above is covered by the scope of this investigation, whether or not produced according to a particular standard.

Subject merchandise includes material matching the above description that has been finished, assembled, or packaged in a third country, including by cutting, chamfering, coating, or painting the threaded rod, by attaching the threaded rod to, or packaging it with, another product, or any other finishing, assembly, or packaging operation that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the threaded rod.

Alloy and certain carbon steel threaded rod are also included in the scope of this investigation whether or not imported attached to, or in conjunction with, other parts and accessories such as nuts and washers. If carbon and alloy steel threaded rod are imported attached to, or in conjunction with, such non-subject merchandise, only the threaded rod is included in the scope. Excluded from the scope of this investigation are: (1) Threaded rod, bar, or studs which are threaded only on one or both ends and the threading covers 25 percent or less of the total actual length; and (2) stainless steel threaded rod, defined as steel threaded rod containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements.

Excluded from the scope of the antidumping investigation on steel threaded rod from the People's Republic of China is any merchandise covered by the existing antidumping order on Certain Steel Threaded Rod from the People's Republic of China. See Certain Steel Threaded Rod from the People's Republic of China: Notice of Antidumping Duty Order, 74 FR 17154 (April 14, 2009).

Specifically excluded from the scope of this investigation is threaded rod that is imported as part of a package of hardware in conjunction with a ready-to-assemble piece of furniture. Alloy and certain carbon steel threaded rod are currently classifiable under subheadings 7318.15.5051, 7318.15.5056, and 7318.15.5090 of the Harmonized Tariff Schedule of the United States (HTSUS). Subject merchandise may also enter under subheading 7318.15.2095 and 7318.19.0000 of the HTSUS. The HTSUS subheadings are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

Certain Corrosion-Resistant Steel Products From the People's Republic of China: Affirmative Preliminary Determination of Circumvention Involving Malaysia

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce. SUMMARY: The Department of Commerce (Commerce) preliminarily determines that imports of certain corrosionresistant steel products (CORE), completed in Malaysia using hot-rolled steel (HRS) and/or cold-rolled steel (CRS) flat products manufactured in the People's Republic of China (China), are circumventing the antidumping duty (AD) and countervailing duty (CVD) orders on CORE from China.

DATES: Applicable February 18, 2020.

FOR FURTHER INFORMATION CONTACT: Shanah Lee, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–6386. SUPPLEMENTARY INFORMATION:

Background

On August 12, 2019, Commerce selfinitiated country-wide anticircumvention inquiries of the China CORE Orders¹ covering Chinese-origin HRS and/or CRS exported to various countries, including Malaysia, for completion into CORE and subsequently exported to the United States.² In the Initiation Notice, Commerce initiated the instant anti-circumvention inquiries based on available information and an analysis pursuant to section 781(b) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.225(h), to determine whether the importation of the Chinese-origin HRS or CRS substrate for completion into CORE in Malaysia and subsequent exportation of that CORE to the United States constitutes circumvention of the China CORE Orders.

For a complete description of the record developed since the initiation of these inquiries, *see* the Preliminary Decision Memorandum.³ A list of topics included in the Preliminary Decision Memorandum is included as Appendix I to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System

³ See Memorandum, "Decision Memorandum for the Preliminary Determination in the Anti-Circumvention Inquiry of Certain Corrosion-Resistant Steel Products from the People's Republic of China," dated concurrently with, and hereby adopted by, this notice (Preliminary Decision Memorandum). (ACCESS). ACCESS is available to registered users at *https:// access.trade.gov*, and to all parties in the Central Records Unit, Room B8024 of the main Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at *http:// enforcement.trade.gov/frn/*. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Scope of the Orders

The products covered by these orders are certain flat-rolled steel products, either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickelor iron-based alloys, whether or not corrugated or painted, varnished, laminated, or coated with plastics or other non-metallic substances in addition to the metallic coating. For a complete description of the scope of the orders, *see* the Preliminary Decision Memorandum.

Scope of the Anti-Circumvention Inquiries

These anti-circumvention inquiries cover CORE completed in Malaysia from HRS or CRS substrate input manufactured in China and subsequently exported from Malaysia to the United States (merchandise subject to these inquiries).

Methodology

Commerce is conducting these anticircumvention inquiries in accordance with section 781(b) of the Act. Because certain interested parties did not cooperate to the best of their abilities in responding to Commerce's requests for information, we have based parts of our preliminary determination on the facts available, with adverse inferences, pursuant to sections 776(a) and (b) of the Act. For a full description of the methodology underlying Commerce's preliminary determination, *see* the Preliminary Decision Memorandum.

Preliminary Finding

As detailed in the Preliminary Decision Memorandum, we preliminarily determine that CORE completed in Malaysia from HRS and/ or CRS substrate sourced from China is circumventing the *China CORE Orders*. We therefore preliminarily determine that it is appropriate to include this merchandise within the *China CORE Orders* and to instruct U.S. Customs and Border Protection (CBP) to suspend liquidation of any entries of CORE from Malaysia produced from HRS and/or CRS from China.

Suspension of Liquidation

As stated above, Commerce has made a preliminary affirmative determination that imports of CORE completed in Malaysia, using HRS and/or CRS flat products manufactured in China, are circumventing the China CORE Orders. In accordance with 19 CFR 351.225(1)(2), Commerce will direct CBP to suspend liquidation and to require a cash deposit of estimated duties on unliquidated entries of CORE produced in Malaysia, as appropriate, that were entered, or withdrawn from warehouse, for consumption on or after August 12, 2019, the date of initiation of the anti-circumvention inquiries. The suspension of liquidation instructions will remain in effect until further notice.

CORE produced in Malaysia from HRS and/or CRS that is not of Chinese origin is not subject to these inquiries. However, imports of such merchandise are subject to certification requirements, and cash deposits may be required if the certification requirements are not satisfied. Additionally, CORE completed in Malaysia from HRS and/or CRS from Taiwan also has preliminarily been found to be circumventing the AD order on CORE from Taiwan and such merchandise is subject to similar certification requirements.⁴ Accordingly, if an importer imports CORE from Malaysia and claims that the CORE was not produced from HRS and/ or CRS substrate manufactured in China, the importer and exporter are required to meet the certification and documentation requirements described in Appendices II, III and IV, in order for cash deposits pursuant to the China CORE Orders not to be required.

In the situation where no certification is provided for an entry, and AD/CVD orders from two countries (China and Taiwan) potentially apply to that entry, Commerce intends to instruct CBP to suspend liquidation of the entry and collect cash deposits at the rates applicable to the *China CORE Orders* (i.e., the AD rate established for theChina-wide entity (199.43 percent) and the CVD rate established for all-other Chinese producers/exporters (39.05 percent)).⁵ This is to prevent evasion, given that the rates applicable to the AD/CVD orders on CORE from China⁶ are higher than the AD rate established for CORE from Taiwan. In the situation where a certification is provided for the

AD/CVD orders on CORE from China (stating that the merchandise was not produced from HRS and/or CRS from China), but no other certification is provided, then Commerce intends to instruct CBP to suspend the entry and collect cash deposits at the AD all-others rate applicable to the AD order on CORE from Taiwan (*i.e.*, 3.66 percent).

Commerce preliminarily determines that the following companies are not eligible for the certification process: FIW Steel Sdn Bhd; Hsin Kuang Steel Co Ltd; Nippon EGalv Steel Sdn Bhd; NS BlueScope Malaysia Sdn Bhd; and YKGI/Yun Kong Galv. Ind/Starshine Holdings Sdn Bhd./ASTEEL Sdn Bhd. Additionally, exporters are not eligible to certify shipments of merchandise produced by the above-listed companies. Further, importers of CORE from Malaysia that is produced and/or exported by these ineligible companies are similarly ineligible for the certification process with regard to those imports.

Verification

As provided in 19 CFR 351.307, Commerce intends to verify information relied upon in making its final determination.

Public Comment

Case briefs or other written comments may be submitted to the Assistant Secretary for Enforcement and Compliance no later than seven days after the date on which the last final verification report is issued in these anti-circumvention inquiries, unless the Secretary alters the time limit. Rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than five days after the deadline date for case briefs.⁷ Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in these anti-circumvention inquiries are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party's name, address, and telephone number, the number of participants, whether any participant is a foreign national, and a list of the issues to be discussed. If a request for a hearing is made, Commerce intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington DC 20230, at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

International Trade Commission Notification

Commerce, consistent with section 781(e) of the Act, has notified the U.S. International Trade Commission (ITC) of this preliminary determination to include the merchandise subject to these anticircumvention inquiries within the China CORE Orders. Pursuant to section 781(e) of the Act, the ITC may request consultations concerning Commerce's proposed inclusion of the merchandise subject to these inquiries. If, after consultations, the ITC believes that a significant injury issue is presented by the proposed inclusion, it will have 60 days from the date of notification by Commerce to provide written advice.

Notification to Interested Parties

This determination is issued and published in accordance with section 781(b) of the Act and 19 CFR 351.225(f).

Dated: February 7, 2020.

Assistant Secretary for Enforcement and Compliance.

Appendix II—Certification Requirements

If an importer imports certain corrosionresistant steel products (CORE) from Malaysia and claims that the CORE was not produced from hot-rolled steel and/or coldrolled steel substrate (substrate) manufactured in the People's Republic of China (China), the importer is required to complete and maintain the importer certification attached hereto as Appendix III and all supporting documentation. Where the importer uses a broker to facilitate the entry process, it should obtain the entry number from the broker. Agents of the importer, such as brokers, however, are not permitted to make this certification on behalf of the importer.

The exporter is required to complete and maintain the exporter certification, attached as Appendix III, and is further required to provide the importer a copy of that certification and all supporting documentation.

For shipments and/or entries on or after August 12, 2019 through March 7, 2020, for which certifications are required, importers and exporters should complete the required certification within 30 days of the publication of this notice in the Federal Register. Accordingly, where appropriate, the relevant bullet in the certification should be edited to reflect that the certification was completed within the time frame specified above. For example, the bullet in the importer certification that reads: "This certification was completed at or prior to the time of Entry," could be edited as follows: "The imports referenced herein entered before March 8, 2020. This certification was completed on mm/dd/yyyy, within 30 days of the Federal Register notice publication of the preliminary determination of circumvention." Similarly, the bullet in the exporter certification that reads, "This certification was completed at or prior to the time of shipment," could be edited as follows: "The shipments/products referenced herein shipped before March 8, 2020. This certification was completed on mm/dd/yyyy, within 30 days of the Federal Register notice publication of the preliminary determination of circumvention. For such entries/ shipments, importers and exporters each have the option to complete a blanket certification covering multiple entries/ shipments, individual certifications for each entry/shipment, or a combination thereof.

For shipments and/or entries on or after March 8, 2020, for which certifications are required, importers should complete the required certification at or prior to the date of Entry and exporters should complete the required certification and provide it to the importer at or prior to the date of shipment.

The importer and Malaysian exporter are also required to maintain sufficient documentation supporting their certifications. The importer will not be required to submit the certifications or supporting documentation to U.S. Customs and Border Protection (CBP) as part of the entry process at this time. However, the importer and the exporter will be required to present the certifications and supporting documentation, to Commerce and/or CBP, as applicable, upon request by the respective agency. Additionally, the claims made in the certifications and any supporting documentation are subject to verification by Commerce and/or CBP. The importer and exporter are required to maintain the certifications (the importer must retain both certifications) and supporting documentation for the later of (1) a period of five years from the date of entry or (2) a period of three years after the conclusion of any litigation in United States courts regarding such entries.

⁷ See 19 CFR 351.309; see also 19 CFR 351.303 (for general filing requirements).

In the situation where no certification is provided for an entry, and AD/CVD orders from two countries (China and Taiwan) potentially apply to that entry, Commerce intends to instruct CBP to suspend the entry and collect cash deposits at the rate applicable to the China CORE Orders (i.e., the AD rate established for the China-wide entity (199.43 percent) and the CVD rate established for all-other Chinese producers/ exporters (39.05 percent)). In the situation where a certification is provided for the AD/ CVD orders on CORE from China (stating that the merchandise was not produced from HRS and/or CRS from China), but no other certification is provided, then Commerce intends to instruct CBP to suspend the entry

and collect cash deposits at the AD all-others rate applicable to the AD order on CORE from Taiwan (*i.e.*, 3.66%).
