SUPPLEMENTARY INFORMATION: In the **Federal Register** of November 20, 2019, FDA published a notice announcing the availability of draft GFI #256 entitled “Compounding Animal Drugs From Bulk Drug Substances” with a 90-day comment period. We requested comments on the draft guidance with respect to animal drug compounding from bulk drug substances under certain circumstances when no other medically appropriate treatment option exists.

Interested persons were originally given until February 18, 2020, to comment on the draft guidance.

The Agency has received several requests to allow interested persons additional time to comment. The requests conveyed concern that the current 90-day comment period does not allow sufficient time to develop a comprehensive response.

FDA has considered the requests and is reopening the comment period for the notice of availability for 120 days, until June 17, 2020. The Agency believes that a 120-day reopening allows adequate time for interested persons to submit comments.

Dated: February 13, 2020.

Principal Associate Commissioner for Policy.
