BILLING CODE 3290-F0-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. FAA-2019-0659]

Agency Information Collection Activities: Requests for Comments; Clearance of a Renewed Approval of Information Collection: Reduction of Fuel Tank Flammability on Transport Category Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew a previously approved information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on September 18, 2019. The FAA’s Fuel Tank Flammability Safety rule requires manufacturers to report to the FAA every 6 months on the reliability of the fuel tank flammability reduction systems of their fleet. The data is needed to assure system performance meets that predicted at the time of certification.

DATES: Written comments should be submitted by March 23, 2020.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the Desk Officer, Department of Transportation/FAA, and sent via electronic mail to oir_submission@omb.eop.gov, or faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Michael E. Dostert by email at: Mike.Dostert@faa.gov; phone: 206-231-3168.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of

information is necessary for FAA’s performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.

OMB Control Number: 2120-0710.

Title: Reduction of Fuel Tank

Flammability on Transport Category Airplanes.

Form Numbers: There are no FAA forms associated with this collection.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on September 19, 2019 (84 FR 49174). There were no comments. Design approval holders use flammability analysis documentation to demonstrate to their FAA Oversight Office that they are compliant with the Fuel Tank Flammability Safety rule (73 FR 42443). Semi-annual reports submitted by design approval holders provide listings of component failures discovered during scheduled or unscheduled maintenance so that the reliability of the flammability reduction means can be verified by the FAA.

Respondents: Approximately nine design approval holders.

Frequency: Information is collected on occasion.

Estimated Average Burden per

Response: 100 hours.

Estimated Total Annual Burden: 1,800 hours.

Issued in Des Moines, Washington, on February 14, 2020.

James E. Wilborn,

Acting Manager, Transport Standards Branch.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement; Hennepin and Ramsey Counties, Minnesota

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that a Tier 1 Environmental Impact Statement (EIS)

will be prepared for a proposed freeway corridor improvement project on Interstate 94 (I-94) from the I-35W/Trunk Highway (TH) 55 interchange to the I-94/I-35E interchange in Hennepin and Ramsey Counties in east-central Minnesota.

FOR FURTHER INFORMATION CONTACT:

Anna Varney, Senior Transportation Engineer, Federal Highway Administration, 380 Jackson Street, Suite 500, Saint Paul, MN 55101, Telephone (651) 291-6117, or Nicole Peterson, Project Manager, Minnesota Department of Transportation (Metro District) MnDOT Rethinking I-94 Project Office 1821 University Ave #N-181 Saint Paul, MN 55104, Telephone (651) 234-7658.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Minnesota Department of Transportation (MnDOT) will prepare a Tier 1 EIS for proposed improvements in the I-94 corridor between the I-35W/TH 55 interchange and the I-94/I-35E interchange, approximately eight miles. The EIS will evaluate the social, economic, transportation and environmental impacts of alternatives, including the No-Build Alternative.

The preliminary purpose of this project as identified by FHWA and MnDOT is to address infrastructure needs; highway safety issues; accommodate existing and projected traffic volumes; and improve person throughput. Opportunities to address the bicycle/pedestrian experience crossing I-94, physical infrastructure condition, and stormwater management will also be part of the Tier I EIS. There will be opportunities for public and agency involvement in further defining the Purpose and Need of the project.

The FHWA and MnDOT have decided to prepare a Tiered EIS to analyze the project on a broad scale and identify a preferred alternative for the I-94 mainline and will identify areas for access modifications/changes at existing interchanges and overpass locations. Footprinting will be used to identify potential impact areas around these locations. The Tier 1 EIS will evaluate the social, economic, and environmental impacts for a range of alternatives within the existing I-94 corridor. A program of projects will be identified for future Tier 2 environmental documents.

Subsequent Tier 2 environmental documents will be prepared with a greater degree of engineering detail for specific improvements in the corridor. The alternative analysis in the Tier 2 documents will include, but is not limited to, the alternatives that have been developed as part of Tier 1 EIS.

Because the project is combining Minnesota Environmental Policy Act (MEPA) and Federal National Environmental Policy Act (NEPA) processes, the first document to be produced as part of the efforts will include a Scoping Document/Draft Scoping Decision Document. The Scoping Document/Draft Scoping Decision Document (SD/DSDD) is anticipated to be published in early 2021. A press release will be published to inform the public of the document's availability. Copies of the SD/DSDD will be published on a MnDOT website as well as distributed to agencies, interested persons and libraries for review to aid in identifying issues and analyses to be contained in the Tier 1 EIS. A 30-day comment period for review of the document will be provided to afford an opportunity for all interested persons, agencies and groups to comment on the proposed action. A public hearing will be held during the comment period. A public notice will give the date, time, and place of the meeting. The Scoping Decision Document will be published after the public comment period has closed on the SD/DSDD.

A Tier 1 Draft Environmental Impact Statement (DEIS) will be prepared based on the outcome of and closely following the scoping process. The Tier 1 DEIS will be available for agency and public review and comment. A public hearing will be held following completion of the Tier 1 DEIS. A public notice will give the date, time, and location of the public hearing. Coordination has been initiated and will continue with appropriate Federal, State, regional, and local agencies and private organizations and citizens who have previously expressed or are known to have an interest in the proposed action. The Tier 1 DEIS will be prepared in accordance with 23 U.S.C. 139, 23 CFR 771 and 40 CFR parts 1500–1508. Completion of the DEIS is anticipated in 2022, and the combined final EIS and Record of Decision (ROD) in 2023.

Public involvement is a critical component of the National Environmental Policy Act (NEPA). All environmental documents will be made available for review by Federal and State resource agencies and the public. Invitations have been issued to Federal, State and local agencies to engage in the development of the Tier 1 EIS as either Cooperating or Participating Agencies. Cooperating Agencies are anticipated to be the following: US Environmental Protection Agency, US Federal Railroad Administration, and US Federal Transit Administration. Participating Agencies are anticipated to be the following:

Cities of Minneapolis and Saint Paul, Hennepin and Ramsey Counties, Metropolitan Council and Metro Transit, Minnesota Department of Natural Resources, Minnesota Indian Affairs Council, Minnesota Pollution Control Agency, Minnesota Department of Health, Minnesota Department of Commerce, Board of Water and Soil Resources, Office of the State Archaeologist, State Historic Preservation Office, Capitol Region Watershed District, Mississippi Watershed Management Organization, Capitol Area Architectural and Planning Board, and Minneapolis Park and Recreation Board.

Specific efforts to encourage involvement and solicit comments from minority and low-income populations in the project study area is also a critical component of the Tier 1 EIS. A public website will be maintained for the EIS to provide information about the project. To ensure the full range of issues related to the proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning the proposed action and Tier 1 EIS process should be directed to the FHWA at the address provided above.

Projects receiving Federal funds must comply with Title VI of the Civil Rights Act, and Executive Order 12898 “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations.” Federal law prohibits discrimination on the basis of race, color, age, sex, or country of national origin in the implementation of this project. It is also Federal policy to identify and address any disproportionately high and adverse effects of federal projects on the health or environment of minority and low-income populations to the greatest extent practicable and permitted by law.

This project is utilizing a National Environmental Policy Act (NEPA)/404 merger process to seek concurrence by multiple Federal agencies on the project's purpose and need, range of alternatives to be considered, range of alternatives to be evaluated in detail, and selection of a preferred alternative. In addition to the Federal Highway Administration as the lead Federal agency for this NEPA effort, the NEPA/404 merger process includes the following Federal agencies: United States Army Corps of Engineers, the United States Environmental Protection Agency.

(Catalog of Federal domestic Assistance Program Number 20.205, Highway Planning

and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on federal programs and activities apply to this program).

Issued on: February 13, 2020.

Wendall L. Meyer,

Division Administrator, Federal Highway Administration.

BILLING CODE 4910–22–P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Notice of Final Federal Agency Actions on Proposed Highway in California

AGENCY: Federal Highway Administration (FHWA), Department of Transportation (DOT).

ACTION: Notice of Limitations on Claims for Judicial Review of Actions by the California Department of Transportation (Caltrans).

SUMMARY: The FHWA, on behalf of Caltrans, is issuing this notice to announce actions taken by Caltrans that are final. The actions relate to a proposed highway project, the State Route 9 (SR–9) Saratoga Creek Bridge Project at Post Mile 4.85, west of the City of Saratoga, Santa Clara County, State of California. Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA, on behalf of Caltrans, is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before July 20, 2020. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: For Caltrans: Brian Gassner, Environmental Branch Chief, Office of Environmental Analysis, California Department of Transportation—District 4, 111 Grand Avenue, Oakland, California. Office hours: Monday through Friday 8:00am–4:30pm, Pacific Standard time, telephone (510) 286–6025 or email brian.gassner@dot.ca.gov. For FHWA, contact David Tedrick at (916) 498–5024 or email david.tedrick@dot.gov.

SUPPLEMENTARY INFORMATION: Effective July 1, 2007, the FHWA assigned, and Caltrans assumed, environmental responsibilities for this project pursuant to 23 U.S.C. 327. Notice is hereby given that Caltrans has taken final agency
