POSTAL SERVICE

39 CFR Part 111

USPS Returns Service

AGENCY: Postal Service™.

ACTION: Final rule.

SUMMARY: The Postal Service is amending *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) section 505.3.0, and various other sections, to remove references to the traditional Merchandise Return Service (MRS) portion of merchandise return service and to enhance USPS Returns® service.

DATES: *Effective:* February 25, 2020.

FOR FURTHER INFORMATION CONTACT: Karen Key at (202) 268–7492, Vicki Bosch at (202) 268–4978, or Garry Rodriguez at (202) 268–7281.

SUPPLEMENTARY INFORMATION: The Postal Service published a notice of proposed rulemaking on July 23, 2018 (83 FR 34807–34811) to amend DMM section 505.3.0, *Merchandise Return Service (MRS)*, to remove the references to traditional MRS processes and

introduce an enhanced USPS Returns service. One formal response was received relating only to terminology used to describe users of the Enterprise Payment System (EPS).

The Postal Service elected to issue a revised proposed rule on December 19, 2019 (84 FR 69688–69695) in order to further clarify our proposal and provide a revised effective date. No formal responses were received.

The USPS Returns service’s new methodology was deployed January 27, 2019, allowing existing customers to migrate to the automated returns process and new customers to establish automated returns service. Current USPS Returns service and MRS customers must migrate to the new automated methodology by August 28, 2020.

Under the Package Platform initiative, the Postal Service has leveraged devices that were installed as part of the Automated Package Verification system to enhance the capability of equipment used for the processing of package-size mailpieces. The upgraded equipment captures near real-time data on package dimensions, weight, mail class or product, and other attributes, and transmits the data to Postal Service information systems. The Postal Service will use this new technology to streamline its processes for the identification and postage assessment of each return package, and enable account holders to pay the postage for their returns electronically. Mailers will receive detailed reports to monitor package level pricing as their returns are processed and delivered through the Postal Service network. This improved functionality will significantly reduce the need to manually weigh and invoice returns or to estimate postage via sampling under the Postage Due Weight Averaging Program for MRS packages, and will eliminate the scan-based payment process currently used with USPS Returns services.

The USPS Returns service automated methodology will use the same commercial prices as those currently applied to USPS Returns services and MRS: Priority Mail® Commercial Base and Commercial Plus (as applicable to the qualifying USPS Returns account holders), First-Class Package Service®—Commercial, and Parcel Select Ground™, and will apply those prices to each individual return package. Negotiated Service Agreement (NSA) prices will be available for eligible customers using the USPS Returns service automated process.

USPS Returns service account holders will pay postage and fees through an Enterprise Payment System (EPS)

account. EPS is a relatively new payment system designed to provide a single point for all payment-related activities. Returns customers of any type will be required to set up an EPS account for electronic funds transfer for payment of USPS Returns service postage. USPS Returns service account customers can view payment information in a consolidated format in their EPS account accessed through the Business Customer Gateway at <https://gateway.usps.com>. The available information includes account balances, postage activity reports, transactions history, and other information. For EPS account set up or support, contact Postalone@usps.gov or call the PostalOne! Helpdesk at 800-522-9085, or the USPS Mailing and Shipping Solution Center at 1-877-MRC-0007 (1-877-672-0007).

USPS Tracking® service is included as part of the service for any USPS Returns service product, and the Extra Services available for a fee for the USPS Returns service automated methodology include Insurance service, Signature Confirmation™ service, and Certificate of Mailing service. In cases where the USPS Returns service account holder must sign for multiple returns bearing accountable Extra Services, the Postal Service will create an electronic firm sheet to capture the recipient's signature at the time of delivery and append it to the applicable associated returns. If all or part of the Intelligent Mail® package barcode (IMpb®) is unreadable, or the package is unable to be priced based on the availability of data collected, postage will be based on historical data, or default data determined at the time of enrollment.

While moving forward with the substantive changes to the returns options described in this final rule, the Postal Service will consolidate the new USPS Returns automated methodology material and the existing returns sections into one section.

Additionally, the Postal Service will remove the references to "Merchandise Return Service", both in section 505.3.0 and in the other sections that refer to Merchandise Return Service. When appropriate, these references are being replaced with references to USPS Returns service.

In addition, the Postal Service will update Quick Service Guides 220, 503, and 800, to reflect these DMM revisions.

We believe these revisions to our returns package product offerings will provide customers who choose the Postal Service for return services a more efficient process and a superb customer experience.

3.0 USPS Returns Service

3.1 Basic Standards

3.1.1. Description

USPS Returns service allows an authorized account holder to pay the postage and fees on single-piece priced commercial Priority Mail, First-Class Package Service—Commercial, or Parcel Select Ground packages returned to the account holder by senders (mailers) via a return label, meeting the standards in 3.1.4, produced by the account holder. Unless otherwise restricted, any mailable matter may be mailed using any of the USPS Returns service options (Priority Mail Return Service, First-Class Package Return Service, and Ground Return Service (Parcel Select Ground)). Any content that constitutes First-Class Mail matter may only be mailed using Priority Mail Return Service. USPS Returns service is subject to the following conditions:

a. *Availability.* USPS Returns service is available to the account holder for mailing to the account holder's designated address on the USPS Returns label(s).

b. *Payment Guarantee.* The account holder must guarantee payment of the proper postage and fees, including any fees for Extra Services requested by the account holder, on all packages returned bearing a valid barcoded USPS Returns label produced by the account holder. The account holder must have sufficient funds in their associated Electronic Payment Account to pay the postage and fees on an ongoing basis.

c. *Where Service Established.* USPS Returns service accounts may be established at any Post Office in the United States and its territories and possessions or at any overseas U.S. military Post Office (APO/FPO/DPO). USPS Returns service is not available for returns from any foreign country.

3.1.2 Accounts

USPS Returns service accounts are subject to the following:

a. *Account Enrollment.* An approved USPS Returns service account may be

established by calling the Mailing and Shipping Solutions Center at 1-877-672-0007.

b. *Advance Deposit Account.* The account holder must pay postage and fees through an Enterprise Payment System (EPS) account, accessed through the Business Customer Gateway (BCG) at <https://gateway.usps.com> and agree to the terms and conditions for use of such EPS account as the EPS account holder.

c. *Mailer Identification Code (MID).* Applicants must request a new MID via the BCG, select the product type of nonmanifested returns, and select the applicable Service Type Codes (STCs) for the desired USPS Returns service products.

d. *Application Process.* Applicants must have a valid Enterprise Payment Account and be registered in the Business Customer Gateway (BCG).

e. *Canceled Accounts.* If the account is cancelled by the EPS account holder, USPS Returns service packages bearing the sender's return address are returned to the sender; otherwise, they are treated as dead mail.

f. *Account Cancellation.* The USPS may cancel an account if the EPS account holder refuses to accept and pay postage and fees for USPS Returns service packages, fails to keep sufficient funds in the advance deposit account to cover postage and fees, or distributes return labels that do not meet USPS standards.

g. *Reapplying After Cancellation.* To receive a new account after a previous USPS Returns service account is canceled, the applicant must re-register in the Business Customer Gateway and obtain and new mailer identification code (MID) for USPS Returns service use. If not using labels generated by the USPS Application Program Interface (API) <https://www.usps.com/business/web-tools-apis/welcome.htm> or Merchant Return Application (MRA), applicants must submit for approval two samples for each label format to the National Customer Support Center (NCSC). In addition, applicants must provide evidence that the reasons for the account cancellation are corrected, and maintain funds in their advance deposit account sufficient to cover normal returns for at least two weeks.

h. *Using Other Post Offices.* The authorized Enterprise Payment System (EPS) account holder using USPS Returns may distribute USPS Returns labels for return through other Post Office locations.

3.1.3 Postage and Prices

Postage and prices are subject to the following:

a. Postage is calculated based on the weight of the return package and zone associated with the point of origin and delivery ZIP Code subject to the eligibility for commercial prices and fees based on the class of mail under 220, 250, and 280, except that postage for USPS Returns in flat-rate packaging is based on the packaging type used and the associated Universal Product Code (UPC) on the packaging. USPS Returns service packages are charged postage and fees based on the service type code (STC) embedded in the Intelligent Mail Package barcode (IMpb) and as provided under 3.1.3c. If all or part of the IMpb is unreadable, or the package is unable to be priced based on the data collected, postage will be determined by the Postal Service based on historical data, or default data determined at time of enrollment.

b. Prices for Priority Mail Return Service, First-Class Package Return Service, and Ground Return Service (Parcel Select Ground) packages are charged as follows:

1. Priority Mail Commercial Base prices are available for account holders using Priority Mail Return Service, when all applicable requirements are met.

2. Priority Mail Commercial Plus prices are available for Priority Mail Return Service packages that qualify for Commercial Base prices and for which the account holder has a customer commitment agreement with the USPS (see 223.1.3).

3. First-Class Package Service—Commercial prices are available for First-Class Package Return Service packages when all applicable requirements are met.

4. Parcel Select Ground prices are available for Ground Return Service packages when all applicable requirements are met.

c. The account holder or mailer may obtain extra and additional services as follows:

1. Insurance—is available for USPS Returns service (see 503.0). Insurance is not included with the postage for Priority Mail Return Service. Insurance is available to the account holder for a fee on packages that have the applicable STC imbedded into the IMpb on the label, and for which the account holder has provided electronic data that supports the value of the merchandise (see 503.4.3.1a). Only the account holder may file a claim (see 609). Mailers mailing a USPS Returns service package may obtain insurance at their

own expense at the time of mailing by presenting the labeled USPS Returns package at a Post Office retail unit to obtain the service.

2. Signature Confirmation is available for USPS Returns service (see 503.0). Signature Confirmation is available for a fee to the account holder for packages that have the applicable STC for Signature Confirmation imbedded into the IMpb on the label. Mailers mailing a USPS Returns package may obtain Signature Confirmation at their own expense at the time of mailing by presenting the labeled USPS Return package at a Post Office retail unit to obtain the service.

3. Certificate of Mailing is available only to mailers at their own expense at the time of mailing by presenting the certificate at a Post Office retail unit to obtain the receipt.

4. Pickup on Demand Service is available for a fee with USPS Returns service (see 507.7.0).

3.1.4 Labels

Distribution and preparation of labels are subject to the following:

a. *Distribution of Labels.* USPS Returns labels may be distributed to customers as an enclosure with merchandise, as a separate package (including when requested electronically through the *Business Customer Gateway* for printing and delivery to the customer by USPS), as an electronic transmission for customer downloading and printing (including through Label Broker™ which allows customers to have the pre-paid returns label printed for them at a USPS Retail System Software (RSS) enabled retail location via a Label ID and/or QR code on a smart phone, on a piece of paper, or written directly on a package presented to the retail associate), or through one of the account holder's designated pickup facilities.

b. *Label Preparation.* USPS Returns labels must meet the standards in the Parcel Labeling Guide available on the PostalPro website at <https://postalpro.usps.com/parcellabelingguide>. The label must include an IMpb, accommodate all required information, be legible, and be prepared in accordance with Publication 199, *Intelligent Mail Package Barcode (IMpb) Implementation Guide*, available on the PostalPro website. Standard label sizes are 3 inches by 6 inches, 4 inches by 4 inches, or 4 inches by 6 inches, and must be certified by the USPS for use prior to distribution. Except for USPS Returns labels generated by the USPS Application Program Interface (API) or Merchandise Return Application

(MRA), all returns labels must have a properly constructed (C01, C05, N02, or N05, as applicable) IMpb approved by the National Customer Support Center (NCSC). EPS account holders or their agents may distribute approved return labels and instructions by means specified in 3.1.4b. EPS account holders or their agents must provide written instructions to the label end-user (mailer) as specified in 3.1.4c. Labels cannot be faxed. If all applicable content and format standards are met, USPS Returns labels may be produced by any of the following methods:

1. As an impression printed by the EPS account holder directly onto the package to be returned.

2. As a separate label preprinted by the EPS account holder to be affixed by the customer onto the package to be returned. The reverse side of the label must bear an adhesive strong enough to bond the label securely to the package. Labels must be printed and delivered by USPS to the customer when requested electronically by the EPS account holder or its agents through the Business Customer Gateway, or provided as an electronic file created by the EPS account holder for local output and printing by the customer. The electronic file must include instructions that explain how to affix the label securely to the package, and that caution against covering with tape or other material any part of the label where postage and fee information is to be recorded.

c. *Labeling Instructions.* Written instructions must be provided with the label that, at a minimum, directs the customer to do the following:

1. "If your name and address are not already preprinted in the return address area, print them neatly in that area or attach a return address label there."

2. "Attach the label squarely onto the largest side of the package, centered if possible. Place the label so that it does not fold over to another side. Do not place tape over any barcodes on the label or any part of the label where postage and fee information will be recorded."

3. "Remove or obliterate any other addresses, barcodes or price markings on the outside packaging."

4. "Mail the labeled USPS Returns service package at a Post Office, drop it in a collection box, leave it with your USPS carrier, or schedule a package pickup at www.usps.com."

3.1.5 Noncompliant Labels

USPS Returns account holders must use USPS-certified labels meeting the standards in 3.1.4. When noncompliant labels are affixed to USPS Returns service packages, the permit holder will

be assessed the appropriate USPS Retail Ground price calculated from the package's initial entry point (first physical scan) in the USPS network to its delivery address.

3.1.6 Enter and Deposit

The EPS account holder's customers may mail the USPS Returns service package at any Post Office; any associated office, station, or branch; in any collection box (except a Priority Mail Express box); with any rural carrier; by package pickup; on business routes during regular mail delivery if prior arrangements are made with the carrier; as part of a collection run for other mail (special arrangements might be required); or at any place designated by the Postmaster for the receipt of mail. USPS Returns service packages with extra services must be mailed either with the rural carrier or at the main Post Office or any associated office, station, or branch. Any such packages deposited in collection boxes may be returned to the sender for the extra service to be purchased appropriately, or it will be processed and charged postage and fees based on the service type code (STC) embedded in the Intelligent Mail Package barcode (IMpb) on the label and as provided under 3.1.3c.

3.1.7 Additional Standards

a. Priority Mail Return service may contain any mailable matter meeting the standards in 201.8.0 and 220.2.0. APO/FPO/DPO mail is subject to 703.2.0 and 703.4.0, and Department of State mail is subject to 703.3.0. Priority Mail Return service receives expeditious handling and transportation, with service standards in accordance with Priority Mail.
