

EDA's methods for performance measurement and program evaluation necessary in order to ensure transparency, accountability, and effectiveness of EDA investments. The recently passed Foundations for Evidence-Based Policymaking Act of 2018 (Pub. L. 115-435) further emphasizes the importance of updating existing methodologies for performance measurement and program evaluation to align with evolving best practices.

EDA proposes revising Forms ED-916, ED-917, and ED-918, which are currently used to collect limited performance information on sponsored activities and resulting outcomes from the grantees receiving assistance under just three of EDA's non-infrastructure programs: Partnership Planning, University Center, and the Trade and Adjustment Assistance for Firms, respectively. The revised Forms ED-916, ED-917, and ED-918 would instead comprehensively cover all of EDA's non-infrastructure programs: Economic Adjustment Assistance (non-infrastructure projects), including new Revolving Loan Funds; Planning, including Partnership Planning; Local Technical Assistance, including University Centers; Build to Scale (formerly Regional Innovation Strategies); Research and National Technical Assistance; and Trade Adjustment Assistance for Firms. The data on program-sponsored activities and associated outcomes will be collected on semi-annual and annual bases, respectively.

The revised data collection instruments were developed through cooperative agreements with a number of leading research institutions, most notably SRI International. The methodology and applications for the instruments are described in the *Innovative Metrics for Economic Development report and Toolkit for Economic Development Practitioners* that are available on EDA's website at www.eda.gov/performance/.

EDA does not propose to revise the remaining fourth form under this information collection, Form ED-915, which is used to collect information on infrastructure and existing revolving loan fund (RLF) projects funded through awards from EDA's Public works and Economic Adjustment Assistance programs. Form ED-915 would instead be extended without change; however, EDA plans to revise Form ED-915 in the future to update the information collected on infrastructure projects. Note that all RLF awards made after the implementation of the revised Forms ED-916, ED-917, and ED-918 will be required to report performance

information using those Forms; this requirement may be extended to all RLF awards when Form ED-915 is revised.

Affected Public: State and local governments; Development Organizations; Indian Tribes; Institutions of higher education; and Nonprofit organizations.
