2. *Title:* New Markets Tax Credit Program Allocation and Qualified Equity Tracking (AQEI) System.

*OMB Control Number:* 1559-0024.  
*Type of Review:* Revision of a currently approved collection.

*Description:* The New Markets Tax Credit Program (NMTC Program) was established by Congress in 2000 to spur new or increased investments into operating businesses and real estate projects located in low-income communities. The NMTC Program attracts investment capital to low-income communities by permitting individual and corporate investors to receive a tax credit against their Federal income tax return in exchange for making equity investments in specialized financial institutions called Community Development Entities (CDEs). Via a competitive process, the CDFI Fund awards NMTC allocation awards to select CDEs, based upon information submitted in their NMTC Allocation Application. Entities receiving an NMTC allocation must enter into an allocation agreement with the CDFI Fund. The allocation agreement contains the terms and conditions, including all reporting requirements, associated with the receipt of a NMTC allocation. The CDFI Fund required each Allocatee to use an electronic data collection and submission system, known as the

Allocation Tracking System (ATS), to report on the information related to its receipt of a Qualified Equity Investment (QEI). As of May 2018, the ATS function was renamed as the NMTC Allocation and Qualified Equity Investment Tracking System (AQEI) and moved to the CDFI Fund's Awards Management Information System (AMIS), a business system that supports all CDFI Fund programs through each phase of the programs' life cycle.

AQEI enables Allocatees to report information to the CDFI Fund in a timely fashion. This information is also used by the Treasury Department (including both the CDFI Fund and the Internal Revenue Service (IRS)) to: (1) Monitor the issuance of QEIs to ensure that no Allocatee exceeds its allocation authority; (2) ensure that QEIs are issued within the timeframes required by the NMTC Program regulations and the legal agreements signed between the CDFI Fund and the Allocatee; and (3) assist with NMTC Program evaluation efforts.

*Title:* Distilled Spirits Plants—Transaction and Supporting Records.

*OMB Control Number:* 1505-0056.

*Type of Review:* Revision of a currently approved collection.

*Description:* In general, the Internal Revenue Code (IRC) at 26 U.S.C. 5001

imposes Federal alcohol excise tax on distilled spirits produced or imported into the United States. To protect that revenue, the IRC at 26 U.S.C. 5207 also provides that distilled spirits plant (DSP) proprietors must maintain records related to their production, storage, denaturing, and processing activities and render reports covering those activities “as the Secretary shall by regulations prescribe.” Under those IRC authorities, the TTB regulations in 27 CFR parts 19, 26, 27, and 28 require DSP proprietors to keep certain usual and customary records related to their production, storage, denaturing, and processing activities. This information collection consists of the transaction and supporting records that are common to all four of those DSP activities.

Proprietors use those common records, along with records that are unique to each activity, to document the data provided on their monthly DSP production, storage, denaturing, and processing operations reports. (TTB requirements to keep records unique to each of the four DSP activities, and the four related DSP operations reports, are approved under other OMB control numbers.) TTB personnel may examine the required records to verify the data provided by DSP proprietors in their monthly operations reports as those reports assist TTB in determining a DSP proprietor’s Federal excise tax liability. As such, this information collection is necessary to protect the revenue.
