The Developmental Disabilities  
Assistance and Bill of Rights Act of  
2000 (DD Act of 2000) directs the  
Secretary of Health and Human Services

to develop and implement a system of  
program accountability to monitor the  
grantees funded under the DD Act of  
2000. The program accountability  
system shall include the National  
Network of University Centers for  
Excellence in Developmental  
Disabilities (UCEDD) Education,  
Research, and Service.

The DD Act of 2000 states that the  
UCEDD Annual Report should contain  
information on progress made in  
achieving the projected goals of the  
Center for the previous year.

Reporting on the extent to which the  
goals were achieved; a description of the  
strategies that contributed to achieving  
the goals; the extent to which the goals  
were not achieved, a description of  
factors that impeded the achievement;  
and an accounting of the manner in  
which funds paid to the Center under  
this subtitle for a fiscal year were  
expended. Information on proposed  
revisions to the goals and a description  
of successful efforts to leverage funds,  
other than funds made available under  
the DD Act of 2000.

In addition, the DD Act of 2000 states  
those grantees must also report on data  
collected regarding:

- (1) Consumer satisfaction with the  
advocacy;
- (2) capacity building;
- (3) systemic change activities initiated  
by the UCEDD;
- (4) the extent to which the UCEDD's  
advocacy, capacity building, and  
systemic change activities provided  
results through improvements; and
- (5) the extent to which collaboration  
was achieved in the areas of advocacy,  
capacity building, and systemic change.

UCEDD is a discretionary grant  
program that supports States the  
operation and administration of a  
national network of UCEDDs in the  
States. UCEDDs are interdisciplinary  
education, research, and public service  
units of universities, public or not-for-  
profit entities associated with  
universities that engage in core  
functions. For example, provision of  
interdisciplinary pre-service preparation  
and continuing education of students  
and fellows; provision of community  
services, including training or technical  
assistance; conduct of research; and  
dissemination of information.

Addressing, directly or indirectly one  
or more of the areas of emphasis such  
as, quality assurance, education and  
early intervention, child care, health,  
employment, housing, transportation,  
recreation, and other services available  
or offered to individuals in a  
community, including formal and  
informal community supports, that  
affect their quality of life.

Currently, UCEDDs engage in four broad tasks: Conducting interdisciplinary training, promoting exemplary community service programs and providing technical assistance at all levels from local service delivery to community and state governments, conducting research, and disseminating information to the field.

UCEDD accomplishments include:

- Directing exemplary training programs. The provision of training is offered in an interdisciplinary format where faculty and trainees represent a variety of disciplines, such as pediatrics, education, psychology, and

nursing thereby expanding opportunities for students to learn about the differing perspectives of various professionals providing services to individuals with developmental disabilities and their families.

- Providing community services and technical assistance. Staff offer expertise through training and technical assistance activities to individuals with developmental disabilities, family members of these individuals, professionals, paraprofessionals, students, systems, support service organizations, volunteers, among others.

- Contributing to the development of new knowledge through research and information dissemination. UCEDDs develop and field test models of service delivery and evaluate existing innovative practices, which are then disseminated to the field to translate research into practice.

The proposed data collection tools may be found on the ACL website for review at <https://www.acl.gov/about-acl/public-input>.
