

E. Use of CAP88-PC Version 4.1 for Compliance Purposes

In the same manner as CAP88-PC Version 4.0, Version 4.1 allows the user to incorporate the age-specific dose conversion factors and intake rates contained in DCFPAK Version 3.02. The code allows the user to select the ingestion and inhalation dose conversion and intake rates from the age groups modeled in DCFPAK Version 3.02: infant (100 days old), one-year old, five-year old, ten-year old, fifteen-year old, and adult. However, the addition of this capability does not change the requirements for compliance to the NESHAPS Subpart H requirements. These are clearly stated in 40 CFR part 61 Subpart H. The ability to allow the code base to include age-dependency does not impact or imply changes to the compliance demonstration.

F. Summary of Changes for CAP88-PC Version 4 to Version 4.1.

Version 4.1 of CAP88-PC is an update from Version 4.0, and a significant upgrade from earlier versions. CAP88-PC Versions 4.0 and 4.1 not only added significant features, but also redesigned the interface to give the user a more standard experience. The entire user interface module was re-written for Version 4 using VB.Net, the Microsoft.Net Framework Version 4, and the Visual Studio 2010 development environment, in order to better comply with updated code standards in Windows 7, Windows 8.1, and Windows 10. Specific changes from Version 4.0 visible to the user in Version 4.1 include:

User Interface

(1) The Print button on the Reports tab has been replaced with a button that opens the folder holding the report files which may then be printed using a word processing program;

(2) Some labels in the user interface have been modified for clarity;

(3) The capabilities for migrating datasets from previous versions of CAP88-PC have been improved, including automatic conversion of Version 4.0 datasets to Version 4.1.

Reports

(1) Some report headers have been modified for clarity;

(2) The Agricultural Data in the Synopsis report now prints the values for the fractions of vegetables, milk, and meat from the assessment area used in the calculation, which may have been adjusted by CAP88-PC from the input values.

Data

(1) The dose and risk coefficients have been updated from DCFPAK 2.2 to those in DCFPAK 3.02 provided by Oak Ridge National Laboratory;

(2) Internal dose and risk coefficient factors for 151 more radionuclides have been added;

(3) Additional risk coefficient data has been added for more radionuclides and chemical forms beyond the additional 151;

(4) Inhalation coefficients for radionuclides with special chemical forms, such as iodine, have been added.

Error Handling

CAP88-PC Versions 4.0 and 4.1 contain an internal error logging and tracking system. In the case of internal code errors, the code will write errors to a file in the Message Log folder located in the same folder set as the folder containing the datasets. Sending this file to the EPA representative will facilitate troubleshooting.

On-Line Help System

CAP88-PC Version 4.1 includes a context-sensitive help system that is accessible during operation. The on-line help system is a hypertext version of the traditional user manual; the traditional user manual is included as part of the release distribution package in pdf format.

Dated: February 26, 2020.

Lee Ann B. Veal,

Director, Radiation Protection Division, Office of Radiation and Indoor Air.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OA-2019-0370; FRL-10004-25-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Environmental Impact Assessment of Nongovernmental Activities in Antarctica (EPA ICR Number 1808.09, OMB Control Number 2020-0007) to the Office of Management and Budget

(OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through May 31, 2020. Public comments were previously requested via the **Federal Register** on September 30, 2019 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before April 6, 2020.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OA-2019-0370 online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for the EPA.

The EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Julie Roemele, NEPA Compliance Division, Office of Federal Activities, Mail Code 2203A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-564-5632; fax number: 202-564-0070; email address: roemele.julie@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The EPA's regulations at 40 CFR part 8, Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Rule), were promulgated pursuant to the Antarctic

Science, Tourism, and Conservation Act of 1996 (Act), 16 U.S.C. 2401 *et seq.*, as amended, 16 U.S.C. 2403a, which implements the Protocol on Environmental Protection (Protocol) to the Antarctic Treaty of 1959 (Treaty). The Rule provides for assessment of the environmental impacts of nongovernmental activities in Antarctica, including tourism, for which the United States is required to give advance notice under Paragraph 5 of Article VII of the Treaty, and for coordination of the review of information regarding environmental impact assessments received from other Parties under the Protocol. The requirements of the Rule apply to operators of nongovernmental expeditions organized or proceeding from the territory of the United States to Antarctica and include commercial and non-commercial expeditions. Expeditions may include ship-based tours; yacht, skiing or mountaineering expeditions; privately funded research expeditions; and other nongovernmental activities. The Rule does not apply to individual U.S. citizens or groups of citizens planning travel to Antarctica on an expedition for which they are not acting as an operator. (Operators, for example, typically acquire use of vessels or aircraft, hire expedition staff, plan itineraries, and undertake other organizational responsibilities.) The rule provides nongovernmental operators with the specific requirements they need to meet in order to comply with the requirements of Article 8 and Annex I to the Protocol. The provisions of the Rule are intended to ensure that potential environmental effects of nongovernmental activities undertaken in Antarctica are appropriately identified and considered by the operator during the planning process and that to the extent practicable appropriate environmental safeguards which would mitigate or prevent adverse impacts on the Antarctic environment are identified by the operator.

Persons subject to the Rule must prepare environmental documentation to support the operator's determination regarding the level of environmental impact of the proposed expedition. The environmental document is submitted to the Office of Federal Activities (OFA). If the operator determines that an expedition may have: (1) Less than a minor or transitory impact, a Preliminary Environmental Review Memorandum (PERM) needs to be submitted no later than 180 days before the proposed departure to Antarctica; (2) no more than minor or transitory

impacts, an Initial Environmental Evaluation (IEE) needs to be submitted no later than 90 days before the proposed departure; or (3) more than minor or transitory impacts, a Comprehensive Environmental Evaluation (CEE) needs to be submitted.

Environmental documents are reviewed by OFA, in consultation with the National Science Foundation and other interested Federal agencies. OFA notifies the public of document availability at: <https://www.epa.gov/international-cooperation/receipt-environmental-impact-assessments-eias-regarding-nongovernmental>. The types of nongovernmental activities currently being carried out are typically unlikely to have impacts that are more than minor or transitory, thus an IEE is the typical level of environmental documentation submitted.

Form Numbers: None.

Respondents/affected entities: Operators of nongovernmental expeditions organized or proceeding from the territory of the United States to Antarctica.

Respondent's obligation to respond: Mandatory (40 CFR part 8).

Estimated number of respondents: 25 (total).

Frequency of response: Annual.

Total estimated burden: 1,544 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$133,780 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is an increase of 327 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is the result of a change to the number of operators that the EPA anticipates will submit environmental documentation as well as the inclusion of a potential PERM, CEE and Emergency Report submitted by every three years.

Courtney Kerwin,

Director, Regulatory Support Division.

BILLING CODE 6560-50-P

EXPORT-IMPORT BANK

[Public Notice 2020-3001]

Agency Information Collection Activities: Comment Request

AGENCY: Export-Import Bank of the United States.

ACTION: Submission for OMB review and comments request.

Form Title: EIB 84-01 Joint Application for Export Working Capital Guarantee.

SUMMARY: The Export-Import Bank of the United States (EXIM Bank), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal Agencies to comment on the proposed information collection, as required by the Paperwork Reduction Act of 1995.

DATES: Comments must be received on or before April 6, 2020, 2020 to be assured of consideration.

ADDRESSES: Comments may be submitted electronically on WWW.REGULATIONS.GOV or by mail to Office of Information and Regulatory Affairs, 725 17th Street NW, Washington, DC 20038, Attn: OMB 3048-0003.

SUPPLEMENTARY INFORMATION: The Export-Import Bank has made changes to the form to reflect an application process decoupled from the SBA's export working capital program. EXIM will also be moving forward to an electronic application submission process, which results in a stand-alone application versus the previous joint application with the SBA. Therefore, all references and information previously required from the SBA have been removed. There is one material change in the application to reflect EXIM's local cost support on short-term transactions, including working capital. Local costs are costs incurred in the buyer's country (*i.e.*, local delivery, installation, taxes), eligible for EXIM cover, provided that: U.S. content requirements are met; included within the contracts; do not exceed 15% of export contract; and no local goods are included. Therefore, three questions are added to the application: Are local costs to be included under the working capital loan facility; if yes, how much in terms of USD or percentage per contract or invoice; and what is the nature of the local costs to be supported?

The application tool can be reviewed at: <https://www.exim.gov/sites/default/files/pub/pending/eib84-01.pdf>.

Title and Form Number: EIB 84-01 Application for Export Working Capital Guarantee.

OMB Number: 3048-0003.

Type of Review: Renewal.

Need and Use: This form provides EXIM Bank staff with the information necessary to determine if the application and transaction is eligible for EXIM Bank assistance under their export working capital guarantee program.
