Foreign-Trade Zones Board

[B-11-2020]

Foreign-Trade Zone (FTZ) 119, Minneapolis, Minnesota; Notification of Proposed Production Activity; SICK Product & Competence Center Americas, LLC (Safety and Tracking Systems, Safety Light Curtains, and Connector Assemblies), Savage, Minnesota

The Greater Metropolitan Area FTZ Commission, grantee of FTZ 119, submitted a notification of proposed production activity to the FTZ Board on behalf of SICK Product & Competence Center Americas, LLC (SICK Product), located in Savage, Minnesota. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on February 20, 2020.

Sick Product already has authority (approved as SICK, Inc.) to produce photo-electronic industrial sensors, encoders, optical readers, and monitoring systems within FTZ 119. The current request would add four finished products and additional foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt SICK Product from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components noted below and in the existing scope of authority, SICK Product would be able to choose the duty rates during customs entry procedures that apply to: Track and trace, safety monitoring, and quality control systems; system connector assemblies; safety light curtains; and, safety light curtain connector assemblies (duty-free). SICK Product would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include steel brackets, aluminum housings, aluminum shafts, safety relays, safety controllers, cables and connectors, and image capturing systems (duty rate ranges from 2.5 to 5.0%). The request indicates that certain materials/components are subject to special duties under Section 232 of the Trade Expansion Act of 1962 (Section 232) or Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 232 and Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is April 14, 2020.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Juanita Chen at juanita.chen@trade.gov or 202-482-1378.

Dated: February 27, 2020.

Andrew McGilvray,

Executive Secretary.

Foreign-Trade Zones Board

[S-002-2020]

Approval of Subzone Status; Fisher Footwear, LLC; Cranbury, New Jersey

On January 7, 2020, the Executive Secretary of the Foreign-Trade Zones (FTZ) Board docketed an application submitted by the State of New Jersey Department of State, grantee of FTZ 44, requesting subzone status subject to the existing activation limit of FTZ 44, on behalf of Fisher Footwear, LLC, in Cranbury, New Jersey.

The application was processed in accordance with the FTZ Act and Regulations, including notice in the **Federal Register** inviting public comment (85 FR 2108-2109, January 14, 2020). The FTZ staff examiner reviewed the application and determined that it meets the criteria for approval. Pursuant to the authority delegated to the FTZ Board Executive Secretary (15 CFR Sec. 400.36(f)), the application to establish Subzone 44L was approved on March 2, 2020, subject to the FTZ Act and the

Board's regulations, including Section 400.13, and further subject to FTZ 44's 407.5-acre activation limit.

Dated: March 2, 2020.

Andrew McGilvray,

Executive Secretary.

Foreign-Trade Zones Board

[S-235-2019]

Approval of Expansion of Subzone 7F; Puma Energy Caribe, LLC; Guaynabo, Puerto Rico

On November 19, 2019, the Executive Secretary of the Foreign-Trade Zones (FTZ) Board docketed an application submitted by the Puerto Rico Industrial Development Company, grantee of FTZ 7, requesting an expansion of Subzone 7F subject to the existing activation limit of FTZ 7, on behalf of Puma Energy Caribe, LLC, in Guaynabo, Puerto Rico.

The application was processed in accordance with the FTZ Act and Regulations, including notice in the **Federal Register** inviting public comment (84 FR 64830, November 25, 2019). The FTZ staff examiner reviewed the application and determined that it meets the criteria for approval.

Pursuant to the authority delegated to the FTZ Board's Executive Secretary (15 CFR Sec. 400.36(f)), the application to expand Subzone 7F was approved on February 27, 2020, subject to the FTZ Act and the Board's regulations, including Section 400.13, and further subject to FTZ 7's 2,000-acre activation limit.

Dated: February 27, 2020.

[B-70-2019]

Foreign-Trade Zone (FTZ) 183—Austin, Texas; Authorization of Production Activity, Flextronics America, LLC (Automated Data Processing Machines), Austin, Texas

On November 3, 2019, Flextronics America, LLC submitted a notification of proposed production activity to the

FTZ Board for its facility within FTZ 183, in Austin, Texas.

The notification was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (84 FR 61595–61596, November 13, 2019). On March 2, 2020, the applicant was notified of the FTZ Board's decision that no further review of the activity is warranted at this time. The production activity described in the notification was authorized, subject to the FTZ Act and the FTZ Board's regulations, including Section 400.14.

Dated: March 2, 2020.

International Trade Administration

[A-489-501]

Circular Welded Carbon Steel Standard Pipe and Tube Products From Turkey: Amended Final Results of Antidumping Duty Administrative Review; 2017–2018

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) is amending its final results of the administrative review of the antidumping duty order on circular welded carbon steel standard pipe and tube products (pipes and tubes) from Turkey. The period of review (POR) is May 1, 2017 through April 30, 2018. The amended final weighted-average dumping margins are listed below in the section entitled “Amended Final Results.”

DATES: Applicable March 5, 2020.

FOR FURTHER INFORMATION CONTACT: Magd Zalok, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4162.

SUPPLEMENTARY INFORMATION:

Background

On January 22, 2020, Commerce published the *Final Results* of the 2017–2018 administrative review in the **Federal Register**.¹ Borusan

¹ See *Circular Welded Carbon Steel Standard Pipe and Tube Products from Turkey: Final Results of Antidumping Duty Administrative Review and Final Determination of No Shipments; 2017–2018*,

Mannesmann Boru Sanayi ve Ticaret A.S. (Borusan), a mandatory respondent in this administrative review, timely filed a ministerial error allegation concerning the *Final Results* and requested, pursuant to 19 CFR 351.224, that Commerce correct the alleged ministerial error.² On January 22, 2020, Borusan filed a complaint with the U.S. Court of International Trade (CIT) challenging the *Final Results*. On February 3, 2020, Commerce sought leave from the CIT to address the ministerial error allegation involving the *Final Results*. On February 4, 2020, the CIT granted Commerce's request.

Scope of the Order

The products covered by this order are welded carbon steel standard pipe and tube products with an outside diameter of 0.375 inch or more but not over 16 inches of any wall thickness, and are currently classified under the following Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 7306.30.10.00, 7306.30.50.25, 7306.30.50.32, 7306.30.50.40, 7306.30.50.55, 7306.30.50.85, and 7306.30.50.90. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise under investigation is dispositive. These products, commonly referred to in the industry as standard pipe or tube, are produced to various ASTM specifications, most notably A-120, A-53 or A-135.

Legal Framework

Section 751(h) of the Tariff Act of 1930, as amended (the Act), defines “ministerial errors” as including “errors in addition, subtraction, or other arithmetic function, clerical errors resulting from inaccurate copying, duplication, or the like, and any other type of unintentional error which the administering authority considers ministerial.”³ With respect to final results of an administrative review, 19 CFR 351.224(e) provides that Commerce “will analyze any comments received and, if appropriate, correct any ministerial error by amending . . . the final results of review”

Ministerial Error Allegation

In its ministerial error allegation, Borusan argues that Commerce set the

85 FR 3616 (January 22, 2020) (*Final Results*), and accompanying Issues and Decision Memorandum.

² See Borusan's Letter, “Circular Welded Carbon Steel Pipes and Tubes from Turkey, Case No. A-489-501: Borusan's Ministerial Error Comments,” dated January 21, 2020 (Borusan's Ministerial Error Comments).

³ See 19 CFR 351.224(f).

incorrect beginning window period for matching home market and U.S. sales in Commerce's margin program.⁴

Accordingly, Borusan argues Commerce should correct the beginning window period date to three months preceding the earliest U.S. date of sale for merchandise entering the United States during the POR, consistent with 19 CFR 351.414(f).⁵

We agree with Borusan that Commerce committed an inadvertent error within the meaning of section 735(e) of the Act and 19 CFR 351.224(f) when setting the beginning window period date for U.S. sales in our margin program. Consistent with 19 CFR 351.414(f), we intended to set the beginning window period date to three months preceding the earliest U.S. date of sale for merchandise entering the United States during the POR.

Amended Final Results

After analyzing Borusan's comments, we have determined, in accordance with section 751(h) of the Act and 19 CFR 351.224(f), that we made a ministerial error in the *Final Results* with respect to Borusan's margin programming.⁶ For a detailed discussion of this ministerial error, as well as Commerce's analysis of this error, see the Ministerial Error Memorandum.

In accordance with section 751(h) of the Act and 19 CFR 351.224(e), we are amending the *Final Results* of this administrative review of pipes and tubes from Turkey. As a result of correcting the ministerial error, we determined that the dumping margin calculated for Borusan and the non-selected companies⁷ in these amended final results is as follows:

Exporter or producer	Weighted-average dumping margin (percent)
Borusan Mannesmann Boru Sanayi ve Ticaret A.S	8.48

⁴ See Borusan's Ministerial Error Comments.

⁵ *Id.*

⁶ See Memorandum, “2017–2018 Administrative Review of the Antidumping Duty Order on Circular Welded Carbon Steel Standard Pipe and Tube Products from Turkey: Allegation of Ministerial Errors in the Final Results,” dated concurrently with this **Federal Register** notice (Ministerial Error Memorandum).

⁷ Consistent with the *Final Results*, Commerce assigns to the companies not individually examined (*i.e.*, Kale Baglanti Teknolojileri San. ve Tic.; Noksel Selik Boru Sanayi A.S.; and Cinar Boru Profil San. ve Tic. As) the weighted average dumping margin calculated for Borusan in these amended final results, because it is the only calculated weighted-average dumping margin that is not zero, *de minimis*, or determined entirely on the basis of facts available.
